GREET 1901 IOOI

T IS WITH PLEASURE WE PRESENT YOU OUR SEED ANNUAL FOR NINETEEN HUNDRED AND ONE. In its preparation we have aimed to make a plain, straightforward systematic and EASY-TO-ORDER-FROM catalogue. We believe our efforts will be appreciated by the intelligent seed buyer of today.

FIFTY YEARS IS A LONG TIME in any business. Very few Seed Houses of today were in existence at the time our establishment was founded. Many changes in seed production and handling have occurred in that time. We were "born in the business, r very substantial growth from year to year in all this time indicates that we have grown with the business. As a proof, we refer present standing and credit; to our greater facilities for prompt shipment of orders and replies to inquiries; to a larger corps of cit at helpers, (many of them having grown up with us in the house, or on the farm.) With our past successes to guide and inspire us, enter this the first year of the New Century with greater aspirations than ever before. TRUE BLUE SEEDS, THE BEST OF THE BEST sible to produce, our fair dealings and reasonable prices have won us the enviable name we purpose to maintain. Pleased customers erywhere, speaking good words for us, are an equally potent factor and account in great measure for the dissemination of TRUE BLUE. EDS all over the civilized world. The season of 1900 brought us more orders than we ever had the pleasure of receiving in any previous er. We assure the reader that we appreciate all orders, great or small, from old or new customers, as much today as ever, and we hope always merit the same. With thanks for past favors, and wishing all a prosperous 1901, we await your orders with pleasure.

Respectfully yours, THE LIVINGSTON SEED COMPANY, COLUMBUS, OHIO.

TRIAL GARDENS-Neil and Tenth Aves. "TRUE BLUE" SEED FARM-2 miles out. TORE -II4 North High St. OUR SEED ANNUAL IS FREE TO ALL SEED USERS.—(Anyone wanting it sends their address, we do the rest.) We regard this Annual as it agent (out for orders.) To us it seems "short sighted" to charge for a Seed Annual (Catalogue) or use any jugglery to get it into a grower's hands.

By Observing the following Rules and Directions Mistakes and Misunderstandings will be Avoided. MPORTANT SUGGESTIONS.

columbus is a city of over 140,000 inhabitants, is centrally located geographically, has 17 Railroads, 5 different Express Companies, Telegraph and Telephone wires in all directions, which afford us unequalled facilities for receiving orders, shipping and procuring lowest rates oull parts of the country; besides you have the assurance of getting your order in the quickest solibet time.

🦝 Within Twenty-four Hours' time we can reach two-thirds of the Population of the United States. 🤏

Ilways Use the Order Blank and Envelope sent with the Catalogue when possible. Write plainly, keep a copy of your order, and be sure to slawks are sent on application, also additional Catalogues, if desired.

Boths are sent on application, also additional clathogues, it desired.

e. d Money. Cash Should always accompany the order. Resultance may be made at our risk by any of the following the adds: (1st and best)—Post-Office Order; (2d)—Porat on New ork; (3d)—Express Co.'s Money Order; (4th)—Cash by Express in meunts not less than \$5.00; 5th—Registered Letters. When oney cannot be sent by either of the first four methods it may be ensed in a Registered Letter. The rates charged for Post office Orders and Express Money Orders are now so low that this is the best way to mit where they can be obtained. We will bear expenses of sending loney in either of above ways when order amounts to \$1.00 or over.

10 Goods Sent C. O. D. Unless each to the amount of one-fourth the order accompanies the same.

iceds by Mail. Sending seeds by mail is a very important branch of our business, and we are prepared to fill orders or outply, and correctly the day they are received in nearly all cases,

aptry, and correctly the day they are received in nearly all cases.

Prices. In comparing our mail prices, especially on heavy seeds,
such as Peas, Beans and Corn by the quart and the pint,
other seeds by the pound and one fourth pound, BEAR IN
that we pay the postage, unless otherwise noted. Remember
our thing -packets of heavy seeds, like Peas, Beans, etc., quoted
some seedsmen at 5 cents per packet, postpaid, contain but a
Il amount of seed, after allowing for the 2 or 3 cents postage that it
es to mail each packet. Preferring to please onsomes rather than
with them we put up thereal lovent packets of such seeds.

Farly. It is important to order as soon after you get the Catalogue as convenient, then you will have your seed and for planning when you want them; besides if you want large quantities, they can be sent by freight very much cheaper: press. Small orders, however, can often be sent by express When goods are to be shipped by freight or express, give sing directions; otherwise we use our best judgment.

lers, Any Dealer, Market Gardener, Institution or any individual wishing seeds in large quantities, are mail us a list of what they want and we will promptly you with the very lowest prices marked. A letter of save you dollars if you want to buy it quantity.

5. If you only want a single packet do not hesitate to order it. We take as much pains with small orders as es. Small True Blue Seed orders are sure to grow larger. rite us for any information pertaining to our bus-iness, and not found in this Catalogue, on a seppaper from your order, as your letter goes to the general ar order to the mail or other department.

We Urge Customers to inform us promptly on the arrival of orders if ordered: also to report, after growth, the result, more especially if anything proves otherwise than expected. We aim to make friends of our customers, and mail orders receive the same careful attention that customers, and mail orders re-enstomers do over our counters.

Our Seed Annual. Please show this Seed Annual to your friends, and if you should receive an extra copy be kind county to bound it.

Good to bound

Change of Address, If you have changed, or intend to change your address, please let us know, and we will change it on our books, so that you will receive our Seed Annual, without application, at your new Post-Office.

If you have Rural Mail Delivery be sure to give the Name and Number of your Route, if necessary, when ordering.

Guarantee. Complaints made that seeds are not good, should quite as often be attributed to other causes as to the quality. There are continually arising to prevent. of the seeds. There are continuencies continually earlier to present the very less t-seeds always giving satisfaction, such as sowing too deep, too shallow, in too wet or too dry soil; insects of all descriptions destroying the plants as soon as, or before, they appear; wet weather, cold weather, frosts, chemical changes in the seeds induced by temperature, etc. Soil preparation for the reception of seed unced by temperature, etc. Soil preparation for the reception of seed tions is bound to perish. For all these reasons it is impossible to guarantize seeds under all circumstances, and, while we carries the greatest care to have all seeds pure and reliable, we do not give any warrands, expressed or implied. If the purchaser does not careful the seeds on these terms for the same will be returned. We therefore the money that has been paid for the same will be returned. We to seed and properly tested by the customer, we will replace the same amount or give value in others. We enunous afford, knowingly, to send out seeds doubtful as to vitality or purity, and you can get no better stocks of any seedsman, even though but the amount paid for the seed. If you do not think so inquire this the extent of the warranty and you will ascertain that your warrants are not crop projection. A guarantee from an irresponsible seedsman are not crop protection. A guarantee from an irresponsible seedsman is of no value whatever.

Our New Tomato, Livingston's Magnus

Growing Magnus for Early Market.

@ INTRODUCED BY US LAST SEASON.

This distinct new variety, of the color of Beauty and Acme, is one of our very best additions to the Tomato family. It is fully as early, thicker, heavier and more solid than either of the above, making it easily the most handsome sort in cultivation. It is unsurpassed in quality,

and in the production of fine, large fruits. While well adapted to main crop planting, it matures so quickly that it takes first rank for early market.

The form is perfect, uniform, large and attractive. Flesh is very firm. It is a robust grower, with short joints, setting its clusters closer together than most varieties, and is therefore a heavy cropper. The fruits are usually very deep from stem to blossom end, some of them being almost globe shaped. It ripens evenly, does not crack about the stem, and the flavor is most desirable.

We have tested it for several years for staking up in the open field, as well as for forcing in greenhouses, and we believe it to be entirely unequaled for such purposes, and that there is more money in growing it for early market than any known variety, because it has about four clusters of fruit where others have three. The fruit and clusters are larger and it comes in early while the prices are fancy. Magnus has surely come up to what we anticipated in add-

ing to our reputation as leading introducers of new Tomatoes.

Price Seed from Selected Fruits-Pkt., 10c.; 1/2 oz., 30c.; oz., 50c.; 2 ozs., 85c.; 1/2 lb., \$1.50; lb., \$5.00, postpaid. T. C. LOOSE, Montgomery Co., Ohio, Oct. 8, 1900, writes: "Your Magnus Tomato was fine. Seed planted 6th of March gave ripe fruit July 28. 10 ounces. O. K. Trellises 6 feet high."

J. FRANK MEAD, Grandville, Mich., say: "The Magnus is the greatest greenhouse tomato I ever saw and produces humense quantities of handsome fruit. Plants set in side benches 224 feet apart and

W. C. BRAGAW, Marion Co., Florida, Aug. 1, 1900, writes: "Your Magnus Tomato has been pronounced by growers here the finest ever I think It will prove a very valuable shipping variety."

LEROY N. BROWN, Sandusky Co., Ohlo, Oct 8 1900, writes: "If you have never below been entitled to the highest seat, you certainly its now, for your Magnus Tomato is the finest. I have ever seen or grown, and I doubt whe ther a better one will ever be produced."

PRIZES RECENTLY TAKEN.

Livingston's Early Golden Surprise Field Corn.

The Large Amount of Corn Produced on such Small Cobs Surprises Everyone.

A VARIETY OF MERIT offered, and named by us, three years ago, and, as anticipated, it has met with general favor. Our Description of GOLDEN SURPRISE consists of Plain, Unvarnished Statements and Simple Facts.

The illustration is a reproduction from a photograph, and, although greatly reduced in size, will give a very accurate idea of the ears. The cob shown in cut is actually encased in an

The cob shown in cut is actually encased in an ordinary finger ring; while this feat cannot be performed with all the cobs, many can be found equally as GENUINE SURPRISE to all who the the color and the color of t

Ten years close observation, careful breeding and selection has brought about the desired result.

Yielding Qualities.—We might multiply statistics as to yield, but the stated yield per acre of any variety, no matter how true, is more often misleading than of practical value, and greatly depends on soft,

Ripens in 90 Days

Large Ears

A Great Feeding Corn

climate and condition under which it is grown, and varies according to locality. We have tested this corn for several years in various localities in comparison with well-known sorts and find it fully equal in average bulk to any on the market. In size it will compare favorably with the well-known Leaming, but in depth of grain and weight of shelled corn per bushel it has no competitor, having to every 68 lbs. of corn in ear a gain. The state of the comparison of the state of the st which makes it a superior fodder corn.

Golden Surprise is a new, distinct, yellow Dent variety of come a popular and profitable field corn. An Occasional Ear with deep amber colored grains will be found; it relies on this for its valued earlness, hence has never been entirely bred out.

Price. Hand Picked, Hand Shelled Corn-By Mail, Sample Ear, 25c.; large packet, 10c.; pound, 25c.; 3 pounds, 60c., postpaid. By Express or Freight, (at buyer's expense), Six Select Ears, 50c.; 4 quarts, 30c.; peck, 50c.; ½ bushel, 90c.; bushel, \$1.75; a 21/2 bushel bag for \$4.00; 5 bushels for \$7.75; 10 bushels for \$15.00.

Co., O. Mrs. Mary Church, C. L. Hensel, W. V. Decker, Franklin Co., O. Golden Surprise is the Corn for Me.—"I am planting 40 acres th's season. I bought a bushel from you last year. It yielded two bushels to the shock, and did the best on thin land of any yellow variety that I ever grew, and ripened very early."—J. PETERS. ELD CORN

Livingston's New Pencil Pod Wax Beans.

All of the Wax Beans that are hardy enough to be profitable for Market growing are characterized by too much stringiness for high table quality. Our New Yellow Pencil Pod overcomes this disadvantage entirely. Although hardy, it is absolutely stringless, tender and of the most buseious quality. The smooth, perfectly round, straight pencil shape of the beautiful pods, suggested the name —Yellow Y-ncil Pod. In points of vigor, hardiness and prolifeagy,

no other sort equals it, and when to this is added its greatly superior table quality, it will be quickly apparent to all that the New Yellow Pencil Pod stands in a class by itself. We offer it as, by all odds, the best Market Gardener's Wax Bean to be found anywhere. We sold this bean last year in all parts of the United States and not a single unfavorable report has been received. Our claim of "absolute freedom from strings," combined with "hardiness and prolificacy," is well estab ished, not only by our own tests, but by the trials of disinterested practical gardeners. PRICE—Posipaid—PKI., 10c.; pt., 30c.; qt., 55c. By Express, not paid, qt., 40c.; ½ pk., \$1.25; pk., \$2.25.

What Gardeners Say.

"The Pencil Pod Bean proves to be quite hardy, an early and continuous bearer of grand quality, and I consider it a decided acquisition. Tusually plant about 20 varieties of Beans."

"The Penell Bean you sent me I planted May 25th, and we used the first of them on the 12th of July (18 days). They came through a long dry spell. Very productive, free from rust, and fine flavor."

"I am very much pleased with the Pencil Bean. It is a strong grower, and a heavy bearer, and the quality is splendid."

"The Yellow Podded Pencil Beans you sent me last Spring for trial proved to be all you claimed for them. They were very tender, stringless and luscious, and the best we have raised in years."

"The Yellow Penell Pod wax Bean is an early, bountiful producer, and of a very rich flavor. We were much pleased with it."

"I find the New Yellow Pencil Pod Wax Bean all right. They are good bearers, and of nice, rich, yellow color."

"The Yellow Pencil Pod Wax Beens furnished a bountiful crop of the very best beans in September, and 1 think it will be very useful here."

The Royal Corn Bean.

This is a remarkably good Pole Bean, which we believe, is entirely unknown outside of our Columbus market. It is a green-podded snap bean, whose pods are produced in large clusters or handfuls; shape long, semi-round; stringloss; very tender, and produced in wonderful profusion. The dry sed resembles very much Dwarf White Kidney or Royal Dwarf. Its strong points with gardeners are:

First. It produces twice as many string beans from the same ground as any bush kind.

Second. Grows in clusters. Takes no time at all to gather a bushel. No stooping.

Third. Beans can be shelled green for summer market, or left to ripen and sold as "dry beans."

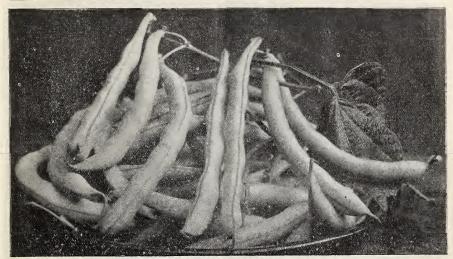

Third. Beans can be shelled green for summer market, or left to ripen and sold as "dry beans." Fourth. Specially adapted to growing on Corn, thus economizing space on valuable land, or where poles are scarce.

PRICE—Pkt., 10c.; plnt, 35c.; quart, 65c., rostpaid. By Express, (not paid) quart, 45c.; two quarts, 85c.

New Giant Green Pod Stringless Valentine Bean.

An improvement over the old reliable Round Pod Valentine, being ready for market with a prolife crop of pods fully one week earlier. The pods are one-third larger, averaging five to six inches in lergil; absolutely stringless, round, and fleshy. It is more prolific and surpasses others in crisquess and flavor. Possesses all the merit of the Valentine, with which it was crossed. We advise our customers to plant New Ginst Stringless Valentine, as it is one of the best dwarf green pod beans ever offered. PRICE Postpald Pkt., 10c.; pint, 35c.; quart, 60c. By Express (not paid) quart, 46c.; two quarts, 80c.

New Round Pod Kidney Wax Bean.

This is a selection from the famous Wardwell's Kidney Wax Bean. As its name indicates, its pods are round instead of flat. It seems destined to entirely supercede the flat podded Wardwell's. The plant grows strong and sturdy, with long, round, handsome stringless pods of large size, very solid and full of meat, crisp and brittle. It is wonderfully early and productive, and will become very popular. PRICE—Postpaid - Pkt., 10c.; åpint, 20c.; pint, 35c.; quart, 60c. by Express, (not plaid) \(\frac{1}{2}\) peck, \(\frac{1}{2}\) to Ecch, \(\frac{1}{2}\) to Ecch \(\frac{1}\) to Ecch \(\frac{1}{2}\) to Ecch \(\frac{1}{2}\) to Ecch \(

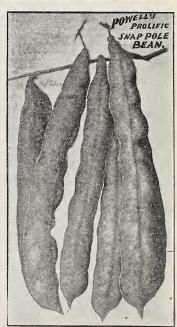

Powell's Prolific Pole Bean.

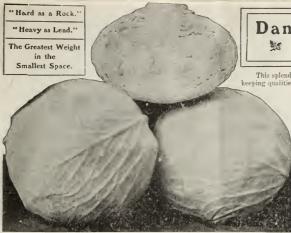

Prof. Powell, of North Carolina, whose name this wonderful new variety bears, says of it: "They are an extraordinary Snap Bean, surpassing anything ever seen in our section—bearing profusely, and continuing until frost; they are very tender and palatable. We have grown this variety for several years and find it a most rampant grower, one plant filling a pole with a mass of vines, densely loaded with luscious beans, fully twice as productive as any other variety in existence. Almost a solid mass of pods from the bottom to top of pole. The handsome green pods average eight or nine beans to the pod, grow very uniform about six inches long; perfectly stringless, very thick meated, tender, rich and buttery; possess an exquisite flavor when cooked. It continues in bearing so long it might be called "Everbearing," PRICE—Postpaid—PRI, 10c.; ½ plnit, 20c.; plni, 35c.; quart, 65c.

Livingston's New Early Dawn Pole Lima.
For Description and Illustration see page 104.

Thanksgiving Pumpkin.

The average size is about the same as that of the Cheese Pumpkin, but the flesh is fully twice as thick. On account of this extra thickness the yield in pounds is double that of other kinds. The flesh is orange in color, fine grained, sweet, and has the delicious pumpkin flavor essential to the making of first-class pumpkin pie. The name, "Thanksgiving," was suggested by the almost universal custom of having pumpkin pie at the Thanksgiving dinner. PRICE—POST-paid—Pkt, 5c.; 7c., 10c.; 4 oZs., 30c.

TWENTY-FIVE YEARS A CUSTOMER. W.B. Fuller, Iroquoise Co., III. "I have used your seeds since 1875 and can say I have always been well satisfied."

S. E. Carpenter, Madison Co., Ind. "Have used your seeds 10 years in Indiana: my fa-ther, a market gardener at Enterprise, O., used your seeds 10 years before I came here."

Danish Ball-Head Cabbage.

This splendid variety is remarkable for its solidity and grand keeping qualities. Such has been the demand among customers for this fine grained cabbage as to render its importation from Denmark a most profitable enterprise for the vegetable dealer. It was at first thought such solid heads could not be successfully grown in this country, but this has been found entirely untrue when GENUINE DANISH SEED IS USED. The heads, although not quite so large as PREMIUM FLAT DUTCH, are equally as heavy and superb in quality. This extra weight in limited space will be appreciated by those who grow for distant markets and ship in car-load lots. It is a most popular and profitable variety with the American grower. Unfortunately, this variety has been imported and sold under a number of German names, as "Hollander," "German Export," "Solid Emperor," "Dutch Winter," etc. The correct name is "Danish Ball-Head," and

to the Dane belongs the credit of sending it out. PRICE-Genuine Danish Seed-Pkt., 10c., oz., 25c.; 2 ozs., 40c.; 1 lb., 75c.; 1b., \$2.50.

For many years the Salamander Lettuce,

Lettuce; Our Mammoth Salamander.

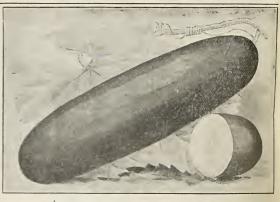

owing to its wonderful quality of withstanding the heat and drought, has been one of the most popular sorts. The New Mammoth Salamander is a great improvement over the old variety, possessing all the desired qualities, but grows double the size. We advise our customers to plant this lettuce as market gardeners tell us that they realize more money from this variety than all others. PRICE-Pkt., 10c.; oz., 25c.; \(\frac{1}{4}\) lb., 70c.; lb., \$2.50.

K Livingston's W Emerald Cucumber.

(INTRODUCED: BY US IN 1897.) In 1880 we began carefully working up this variety, and now feel amply repaid for the labor expended, having succeeded in producing what we started out for A dark green cucumber that would hold its color. It is strictly an evergreen, retaining its color until quite ripe. On sight, its deep green and splendid skin attracts the attention of everyone. The fruit sets early, and its vigorous vines abound in long, straight, handsome fruits of the most desirable qualities. As a slicer the flesh is peculiarly crisp and tender, and the flavor most pleasing. The young trult being deep green, straight and slender, makes an excellent pickle; when ripe none exceed it for making sweet piekles.

For Forcing. For those who grow under glass, or for longdistance shipping, it will prove a boon, on account of holding its deep green color so much longer than any other sorts. When grown under glass it is not excelled for beauty in color and form, even by the best English Frame varieties. It is almost entirely free from "warts and spikes," so much so that it may be called spineless. As an all-purpose table or market variety it cannot be surpassed.

PRICE-Large Pkt., 5c.; oz., 10c.; 1 lb., 30c.; lb., 75c. C. H. Hammel, Gloucester Co., N. Y. " Emerald eugumber and Honor Bright tomato cannot be be

G. C. Fleck, Pa. "Your Emerald eneumber is grand." W. P. French, N. C. "The Emerald encumber is the finest I ever saw, and I do not believe any one ever saw any finer."

A. P. Brobston, Ohio. "I have been using your seeds for several years, and they are the best I ever saw." Charles E. Mapes, N. Y. "I find your New Emerald encumber to be first-class, large, smooth, prolific and best flavor of any I ever raised."

W. D. Latshaw, Ind. cucumber I ever raised." John Morgan, Pa. "The Emerald cucumber that we got last year was all that could be recommended. We had some that measured thirteen inches in length."

"Your New Emerald cucumber is the best

"Have grown onions 15 years; used seed from different sources; now use your seed, although up in price it pays, as I get one-fourth more onions, and get higher prices."—M. L. B.

"I have raised 300 bushels of onlions on one-fourth acre of land; finer onlons I never saw, and double the quantity I ever grew on the same ground with other seed."—A. L. M.

"Find your seed A No. 1; grow better erops for me than any other; prefer at \$5.00 a pound to other seeds if given to me."—A. J. D.

"I have used your seed for three years with entire satisfaction; bought several cars of onions last fall, and found those grown from your seed superior to any other."—G. A. M.

"Have grown onions 15 years or more; used seed that gave me good results, but yours have given for four years past the best crops I ever harvested."—L. L.

"From one pound I got 225 bushels very fine bulbs, all u ee enough to set for seed."
—E. M.

" Have raised onions past four years have used your seed getting one-third more from the very first year; fine in shape and quality."

—A. M.

"Used your seed two bushels cach year: last season used other seed and got but 400 bushcls from same ground.
Have known your
onions to remain solid for one year. They are the best shaped and give everybody satisfaction."—C. C.

Very seldom do we have as good a # # thing to offer as & this fine strain of Onion. # # # #

Improved Large Yellow Globe Onion.

We have known and watched the development of this onion for sev We have known and watehod the development of this onion for several years, and our claim, when introducing it three years ago, that it would fairly leap into general favor with all classes of onion growers has been verified. Mr. therefore, the grown online for 20 years may be a several favor with all classes of one from growers and the several properties of the favorable of the favorable with the state of perfection. No onion grower can afford to lose this opportunity of improving his onion crop, although he may have already land in his planting stock for the season. The seed we offer we grew from selected Bulbs, unsurpassed for purity, and shows a high percent of germination. Our price is very transmitted type of care with the season of the season

DESCRIPTION .- It matures early and cures down with very small "necks," and has never produced scullious or "stiff-necks." The Skin is perfect, bright, dark and smooth. The Flesh is very fine grained, firm and solid, insuring extra heavy weight. It is sweet and juicy, grows unnorm in size and shape, large (but not over-grown), just the right size and that beautiful dark buff color so much sought after by

marketmen and large onion shippers.

When grown in comparison with other good strains it has outyielded them from one-fourth to one-third of a crop.

PRICE STRICTLY TRUE SEED of Our Own Growth from Hand-Picked Bulbs-Pkt., IOc.; 02., 15c.; 2 02s., 25c.; 1/1b., 40c.; 1/2 lb., 65c.; 10., \$1.25, postpaid. By Express - 5 lbs. for \$5.00. SPECIAL PRICES FOR LARGE QUANTITIES ON APPLICATION.

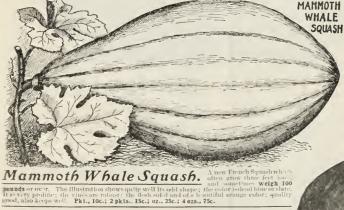

Our Red Globe. For several years we have been striving to produce the fluest strain in the land of Large which is deservedly growing in popularity year by year and is bound to relegate to the rear all other reds. We never had as fine a bot of seed as our 1900 erop. We are in position to make a very low price on very choice seed. See page 40 description and price.

The onderful Lettuce.

The Largest Heading Lettuce we have ever seen. It has been grown to weigh six rouns to the head and requently weighs two or three hounds. The heart is solid, of bleasing light green color, very under and evsp, and without the slightest trace of bitterness, found in most lettuces. As an example of its 'standing' properties, perfect heads were ent from the same bed for upwards of seven weeks. Two POUNDERS, trimmed close, ready for table use, were common on our market last summer. At the famous CANDY KITCHEN DESTAURANT (in this city) it was pronounced the finest ever seen in the customers had one sampled an order. For Exhibition Privosis and for an Outdoor, ALL-SLASOS VARITY if Chanks univaled—We understand some have been sending out an old variety nuder the name "Wonderful." The old variety referred to is smaller and otherwise inferior. Our customers say so, and they ought to know, after four years' trial. A few extracts from what they say: "I can only get 45 heads in a large sugar barrel," Looks like early summer cabuge heads." "Banches ersps and is delicious." "Would eat 'Wonderful' daily if I could get it." "Ahead of all for a summer sort," Our stock is from Headboutarries and there is no better. Nothing like "True Blue" SEED If you want results. Pkt., 10c.; 02., 20c.; 4 02s., 50c.; 1b., \$1.40. The Largest Heading Lettuce we have ever seen. It has been grown to weigh six

New Zimpfer Parsnip. The original seed of this variety, like that of very many other good things now commonly cultivated, was brought here by German gardeners from the Eatherland. Mr. Zimpfer, a market gardener, has grown this select strain of seed for many years for his own use only, always selecting the most perfect roots. In Junior for this purpose, until it is the purpose strain of seed for many years for his own use only, always selecting the most perfect roots. In Junior for this purpose, until it is the purpose state and grows the humbourset brashin we have ever tested. It is a splendid variety for market, especially where the roots are said in humbous, being of much more duals and all a plants of the purpose that the process of much more duals and a suppose of the process of the purpose of the process of the process of the process of this variety, like that of very many other good things on the process of the process of the purpose of the process of the proce

New & Exquisite Parsley.

The best and handsumest Paraley that has ever come under our moice. It is dwarf in growth, benatifully and closely curied; its attractive, dark-green color is all that could be desired.

Packet, 5c.; oz., 15c.; 1, 1b., 5Cc.; 1b., \$1.75.

New "Heart O' Gold" Squash.

Strong, healthy grower, bountful yielder. A very distinct sort which has been carefully and theoroughly to itsel. The vates are strong, vigorous, healthy and very profile. The color of the fruit is a rich, reddsh forming, and the shape is not only intractive, but economical in citizen, there being little armo waste. The seed carefully vivoy small. The fishes is very dip pand of excellent quality. We multise all our partons to give the treat. Pkt., 10c; 6v., 40c.

New Golden Bronze Squash. This new Squish one in introducer of the new deservedly world-wide famous Hubbard. It being a first does from the most deserved in the same, also has that peoul far whiched appearance of the skin of the Boston Marrow. Size averaging 8 to 10 panuls; color a dark groyst green; the less that the properties of the skin of the Boston Marrow. Size averaging 8 to 10 panuls; color a dark groyst green; the less escentilely bright golden yellow, the grained, very sweet, and of del coust havor. Early in marine, growth repeaturing, good keeper, of very uniform seys and appearance. For table has no smerior. Specimens grown in 1897 were kept until June. 1898. Pkt., 10c.; 0z., 18c.; 2288., 282; 37 hp., 462; 1b., 4150.

New Golden Bronze Squash.

One Packet Each of the above THREE GOOD SQUASHES Only 20 Cents.

"Tip Top" Melon.

The Best of All. M Every One a Good One.

Introduced by us in 1892.

This grand melon has "beld its own" with all new comers for the past ten years, and no other melon of which we have any knowledge compares with it in uniform good eating qualities and should be planted by all classes of melon growers, large or small. IT ALWAYS PLEASES. The testimony of all who use '11p Top is that every melon produced, whether big or little, early or late, is a good one: sweet, juicy, finest flavor, firm (but not hard) fleshed, and eatable to the outside coating. Its appearance on the market is very attractive—sells on sight. Gardeners tell us that their customers soon learn to pick them out, and will have no other kind. The fruit is of large size, nearly round, evenly ribbed and moderately netted. It is also, perhaps, the most productive me on known. One customer reports 27 large, magnificent melons from two hills. By care and close attention for the past nine sassons we have greatly improved and increased the attractive appearance of this variety by selecting for seed stock the best specimens, and especially those showing the greatest amount of netting. Price, Selected Seed from typical "(iff 1098)"—Pikt, 10c.; 02., 15c.; 2 ozs., 25c.; 4 ozs., 35c.; ½ b., 50c.; lb., 90c., postpaid.

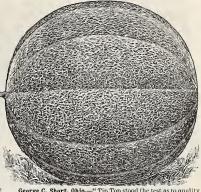

In Quality
In Appearance
In Productiveness

Edgar A. Ross, 6a.—"I planted last year a small patch of Tip Top, and found them all you claim for them. It is the best melon I ever saw. Every one was first-class, and it is the only variety of which this can be said."

Wm. M. Camby, Md.—"I have raised the Tip Top for two years and consider it the best of all. I procured the seed from you two years ago."

Wm. Broxey, Ohio.—"Your Tip Top Nutmegs are the best melons I ever raised. They outrank all the others, and everyone that I sold to liked them better than any melon they ever bought."

John S. Lester, Conn.—"Tip Top Melon cannot be beaten. I have this market entirely to myself."

George C. Short, Ohio.—"Tip Top stood the test as to quality better than any of the other kinds this excessively wet season."

H. F. Farris, Tenn.—"I have been buying Tip Top seed for three of four years, and will have no other if I can help it."

M. C. Lewis, Tenn.—.'I think Tip Top the best melon there is. I planted your Early Hackensack and Tip Top this year, which makes a very good combination for early and late melons. I have never been better pleased with kind and quality."

Harry Hill, III.—" Last season I planted Tip Top Melon and made more money per square rod than I ever made before on melous, and I have been raising melons for market for 15 years. My eustomers say that they are the best melons they ever saw,"

L. S. Birney, Ohio.—"I gave your Tip Top Muskmelon a fair test last season by the side of two other kinds and they were so far ahead of any kind I ever used that I want no other. Everybody that tasted them remarked what fine melons we had."

J. T. Johnson, Tenn .- "Tip Top Cantaloupe can't be beat."

Muskmelon, "The Strawberry." MR. Beck, a specialist in the production of new melons, describes it as follows: "Its first appearance caused a great furer in our market. People were lower agreed to the project of a strawberry, hence the name. A desirable market of a strawberry, hence the name. A desirable market of a strawberry hence the name.

praise, claiming it surpassed all others in point of excellence, with a flavor like that of a strawberry, hence the name. A desirable market size, 6 to 8 pounds. Its outside appearance compares favorably with the green nutmeg of old, turning to a yellowish hue when ripe. Its smooth deep flesh is of an attractive red color. Pkt. 5c.; 0z., 15c.; 4 ozs., 50c.

Paul Rose-Pkt., 5c.; oz., 10c.; 1/2 lb., 30c.; lb., 90c., postpaid.

sized "Rose Gem" but with deep orange flesh. A great producer of extra fine quality melons, and the illustration here shown speaks for itself. As early as the Gems and equally as good a shipper. Our stock seed is saved from choice selected melons by Mr. Paul Rose, the originator, who is a very extensive melon grower of Northern Mi-bigan, where the climate seems peculiarly conductive to the high quality of the melons. Price of True Stock

Prolific Giant Podded Sugar Pea.

(INTRODUCED BY US IN 1887.) This grand new introduction will be of especial interest to all layers of Edible Podded Peas. Excels all others in size, productivene-sand-quality. To even those who know how delicious and wholesome are Sugar Peas cooked pods and all, a dish of these giant pods, sweet, sugary and melting, will be a delaghtin surprise. The times average about 36 inches in height, remain a long time in bearing, and when grown without brush or trell's are strong and rank. The pods are gigantic in size, and the surprise of the su

In the Michigan Experiment Station Report "Gint Indied Iraliae Sugar Pea sent out by Livingston is an exceedingly strong great and The Iraliae The pools are loug, blood, Irregular, in Supe, and filled with peas of high quality. The blossoms are of a plink color and make it quite attractive. It promises to be of value as hate variety."

Prosperity, or Gradus Pea

Is a long step in the pea world toward prosperity us it combines earliness with largesize in a green writikled pen. This is what the Market Gardener wants. "They fill the bushel basket," In cardiness they follow closely after the first-earlies. In height they are 2'2 to 3 teet. The vine is robust and the foliage very vigorous, bearing their handsome, large pods profusely over the vine. The podsure nearly round, long and straight, well liked with inscious sweed peaks of the first quality. In our Trial Grounds the post season we marked these us an exceedingly profulbed variety for market men togrow. FRICE-postpaid Pkt., 10c.; pint, 30c.; qi., 50c. Carter's "Daisy" Pea. A New Second-Early Dwarf Pea with Immense Pools and Peas

A magnificent new Pea. Vines are from 16 to 18 inches high. The self supporting, stout plants are fairly loaded with large, be self green poles, which are always well filled. Each pod contains 7 to 91 are peas, of a bright green color, tender and well-flavored. The even growth and handsomenp-pearance of the Dalsy excites the adultance of the Dalsy excites the adultance of the peasy of the pea

PRICE-Postpaid-Pkt., 10c.; pint, 25c.; qt., 50c By Express not paid 0, t., 30c.; 2qts. 55c.; 4qts. \$1.00; pk. \$1.75; bu. \$6.50.

Leading Crop Pea Sharp's Monarch.

This new Per comes to us from England, where most of our best Market varieties have originated. The originator praised it is to highly has they pring be some stock seed at a very high price and grew a limited crop of seed which we now offer to our customers. It is described as follows by the introducer: "This New Per his of the Telephone type, has a strong bandin and short joints, is much more profific than Telephone and less hable to sport. The Monarch is a heavy cropper, and the large, long, well-thild polarie very heavy—four of them pathered without numbers decision weighing four onnees. It will be a great acquisition for market gardeners, and promises to become exceedingly popular.

We think so well of it that we have set aside most of our last season's erop for our own planting for we are sure a great rush will be made for the **Monarch** after gardeners once test its value. We can therefore offer it in usuall way only.

Large Size Packets, 20c.; 3 for 50c.; 7 for \$1.00.

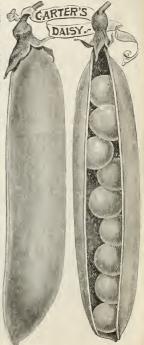

One Packet Each of the FOUR CHOICE PEAS on this page for 30 Cents.

A New Pepper. Chinese Giant.

This new Pepper is without doubt a great improvement upon the famous Ruby King, although to many that will seem impossible. Our crop last season was a revolution to pepper growers. The furit averages about 4 inches long by 3½ inches broad and is of the deepers timbe of scarlet in color. The lesh is thick and entirely free from any flery flavor. The plantstandscreet, strong and busby. I have the peculiar labit of setting 3 or 4 furits early near the base and while these ripea a second crop is produced higher up. Below is a quotation from a letter received from a customer who paid \$1.00 for 150 seeds hast spring.

"I am a Market Gardener of many years experience; have always raised and sold more names papers that any concluse in my breathy, and I say to you that I would rather up with earlier of last spring for the Chinese Giant than to have the best buby King given tome. The Chinese Giant is as much tho superior of Ruby King as a White Pippin upple Is superior to a Wild crab upple. It size, in shape, in weight, in dayor and in productivenes, there is simply no comparison. When once histoduced the Chinese Giant will be the only manage grown."

PRICE-(Postpaid)-Pkt., 15c.; two pkts., 25c.

CINCINNATI MARKET

NEW CINCINNATI MARKET RADISH.

THE BEST EARLY LONG RADISH TO DATE.

3 lbs., \$2.00.
SUTTON BROS., COMMISSION HOUSE.—"I have known the Cinemnati Market Radish for over 30 years. No variety holds its freshness longer, meets with readier sale or gives better satisfaction. We sold it for years in Cinelinati, before coming to Columbus 18 years ago,"
L. K., SUTTON.

A Large Cuyahoga County Grower, writes: Bought 45 lbs. of your Radish seed last spring (1899) from which I sold 5,352 doz. bunches (60 to a banch), or 321,120 radishes, netting \$475.25. "True Blue" seed are good enough for me."

One of the quickest growing, besides one of the prettiest ever put on a gardener's bench. White as snow and smooth as glass. Few short tops. Pkt., 5c.; oz., 10c.; 1/4 lb., 25c.; lb., 80c.

New Leafless Radish.

Extra early; remarkable for the small size of its leaves; the roots grow so quickly that they are practically in advance of the leaves, and for that reason it is ealled "Leafless." Its peculiar, crumpled leaves "are few and far between." A beautiful bright color, and the cryp, tender flesh is excellent. Pkt., 5c.; ½ oz., 15c.; oz., 25c.

New Winter Radish. SCARLET BALL (PAMIR.)

A very welcome Winter Radish; also a good Late Summer variety. Its handsome globular shape, with its beantiful deep searlet color, gives snape, with its beautiful deep scartet color, gives it a very ornamental appearance. Flesh white, firm and of agreeable flavor. The roots can be kept a long time during winter without starting into growth. Pkt., 5c.; oz., 20c.; lb., 75c.

White Milan Turnip.

One of the earliest Turnips grown; deep in shape, slightly flattened at top and base of bulb, fraction and out, is clear ivory-white in color; onter surface perfectly smooth, It grows so quickly that even the outer surface of the bulb is tender. Table qualities mequalled. Pkts, 5c., 9c., 70c.; ½ lb., 25c.; lb., 75c.

WE START THE 20th CENTURY WITH SIX BRAND NEW TOMATOES

"SMOOTH AS APPLES." Wi who have grown Livingston's Honor Bright know what a marked difference there is to be true and followed of it call other toma-tors. This valuable and interesting series of in what bels is the result of successfully crossin white-list is the risult of successfully cross-ing flonor Bright on several of our other well known and standard varieties. While they partials in greater of less degree of the pecu-larities of the Honor Bright, they all dilute from one number in ploid or forf growth, size or solor of fruit. Worthy of trial and bound to become standard varieties.

Dwarf Potato Leaf Honor Bright. (Red Fruit.)

The plant of this variety is of an innusual urrly and stocky nature, the large blistered beaves give it an unique character. The plant, when small, re-

coloring and ripening much the same as the fathous Honor Bright. **Dwarf Potato**

> Leaf Honor Bright. (Purple Fruit.)

Same as the above except

The illustration below is plant of DWAPE POT The illustration below is a plant of DWARF POTATO LEAF HONOR BRIGHT taken early to show its peculiar follage, but before it began fenitine much.

Purple Fruited Honor Bright.

This variety will be accepted as a decided favorite with growers and shippers who poefer purple or rose colored fruit to the scarled or red. Ever since the introduction of **Konor Bright** we have had a great demand for a Purple Fruited Honor Bright. This one will fully meet the demand, as

IT IS A DECIDED GOOD ONE.

Description.—The first of this variety is milk equal to the Beauty, being much the first of the Beauty, being much the first of the Beauty being much the first on seeds. The vines are very vigoraus and productive, and in all respects equals the least countoes. In addition, it has the wonderful keeping qualities of the Bonor Bright. The first redors up without the least signs of green at the stem end.

Dwarf Aristocrat Honor Bright.

See cut below of Plant with foliage removed.

A wonderfully productive A Wonderfully productive tomato of medium size; fruit bright red, very solid and fine flavor. Has all the new and marked qualities of the Honor Bright, and is from Honor Bright, and is from two to three weeks earlier, being among the earliest of our best tomatices. The color of the fruit when ripening is different from any other tomato, save Honor Bright, which changes from green to white, then yellow to red.

Potato Leaf Honor Bright.

S.milar to the original "Potato Leaf" intro-caced by us in 1883, but with Honor Bright features; exceedingly smooth and productive

lent tomatoes. We will pay \$10 each for mines addited. All persons who purchase a packet or more of the seed tids season may suggest one or more hances for each variety they may order. When the mames are adopted we will reinit our check for \$16. Should more than one person send in a mane adopted we will divide the \$10 equally.

Full details will accompany each order.

son syrlet arrely. We have had it to 5 years, but because it has shown about 5 percent pumple finit we never sent it out. It is a veryly of real merit. We do not sell II—FREE it is as ubove, FREE Price. Our enstowary price for New Tomatoes has been 20c and 25c, a packet the first year, but we have decided to break our usual enstoward and offer the following their direction in price; not because these are not equally mentionism to our former introducions, but we wish to induce mone to try the set of six "o get many names to select from and quickly descending them the world over. Single Packet, 15c; any 2 for 25c.; 4 for 40c.; 6 for 50c., postpaid.

This peculiar and distinct variety first appeared in the form of a single "sport" plant in a field of Livingston's Stone Tomato in 1894. The Distinctive Features of the New Honor Bright Tomato are its solidity, long-keeping qualities after being picked, and the remarkable changes of color the fruit undergoes during growth and ripening. These changes provide an easily learned guide to the proper time of picking for long-distance shipping. The color of the fruit, when fully ripe, is a rich bright red, but before reaching this stage it undergoes several interesting changes. First it is light green, then an attractive waxy white, then lemon, changing to a rich red. One of the most attractive and handsome varieties grown, and well adapted for home use or

Michigan Agricultural College Experi-Michigan Agricultural College Experi-ment Station "Leuvosovs 's Hoxon Bandir. Plants of strong, healthy growth, leadlest small, light yellowish-green; leaf stalks and stem, yellow. Distinct in plant appearance. Fruits medium size: round, flattened regular form. Color light green, then white, chang-ing to yellow, finally becoming a rich red when thily ripe. The feets is very odd, of high quad-lyman from and would be cordent for shipping."

T. Greiner, New York. "Fruit large and sets freely in big clusters. I believe we have at this day no tomato that gives us as much good fruit to the vine as the Honor Bright."

C.M. Grossman, Wilcottville, Ind. "When you see a good thing push it along,' so I enclose you elipping from Farm and Fireside, in regard to Honor Bright Tomato, and also refer you to Rural New Yorker, of Oct. 8th, page 690, copy of which you perhaps have. In the Rural New Yorker this tomato receives such praise rees Torser unis formato receives such praise as is accorded to but few in that rather conservative paper. I, myself, shipped two bushel crates to a friend over 300 MLFS BY LOCAL FREIGAT, and they reached destina-tion in perfect condition. They cannot be equalled for shipping."

market, and, on account of its solidity and long-keeping qualities, it is especially recommended for shipping long distances. It can be shipped in barrels, like apples, if picked in the early stages of ripening, and will keep from one to four weeks if stored in a cool place. The clusters bear three to five large perfect fruits, beautiful as the Stone, and ripen evenly from the blossom end to the stem. Its table qualities are superb, the flesh, when ripe, being tender and melting, not hard as one might conclude from the solidity of the uncut fruit. Those who grow it will find it a valuable acquisition, and be surprised at its distinctiveness from all other known sorts. Price of Seed from Selected Fruits – Pkt., 10c.; ½ 0z., 15c.; oz., 25c.; 4 ozs., 80c.; lb., \$3.00.

John H. Arndt, Baltimore Co., Md. "Honor Bright Tonatoes are the fluest I have ever grown. They are solid, of good size and do not burst like other tomatoes do. They bear full and keep their size better than any lever grew, can be kept at least a week when fully ripe, and if put in a cool place could be kept two or three times as long."

Intoduced by us in 1897.

Mrs. Alfred Thomas, Kalamazoo Co., Mich. "I wish to express my great satisfaction with Honor Bright Tomato. In the 25 years of my experience taising tomatoes I have not met its peer for equal size, solidity, fine flavor and productiveness. The color self it at sight."

Enormous Tomato.

A NEW LARGE RED LATE VARIETY.

First appeared about six years ago in the form of a "sport" plant in one of our crops of Livingston's Stone. The size is large to very large; smooth, but is quite apt to crack more or less about the stem end; few seeds, and of fair quality when well grown on good, rich soil. We have given it a fair trial on various soils in different localities the past three seasons. It has large size to recommend it when well grown under favorable conditions, but is probably no larger under ordinary culture than our Buckeye State or the Ponderosa; specimens of Buckeye State "7 to the yard" are not unusual. We recommend it as worthy of trial, especially by those who like something big. True Stock—Pkt., 5c.; ½ 0z., 15c.; 0z., 25c.; 4 0zs., 80c.; lb., \$2.90.

A New Red Tomato, "Success.

This variety originated a few years ago in the hands of a grower a should instance from this city, and was first sent out last season, 1900. We will be a sent out that season, 1900 of the standard of the season should be a sent to the season should be supposed from the start. To those familiar with Livingston's Stone it is easily described, because it resembles that variety very much in all points, except size, and it might be styled a smaller sized stone. We promounce it a good red, and it should be given a trial by all who favor a format or it hat type. Choice Seed, pkr., 10c.; 3 for 25c.

New "Quarter Century" Tomato.

A new dwarf red claimed to have better color, size, productiveness and quality than Livingston's Dwarf Aristocrat. A good red fruited tomate, but not a single claim as abuse that sus substantiated in our test the past season, 1900. However, they night sustenated they were conditions, treatment and soil were different. Bewar to five twhere conditions, treatment and soil were different. Bewar to five two there conditions, treatment and soil where different. Bewar to farrer out to the conditions to the way in pressure that the same than the conditions that the same than the same than the same transfer of the same

The Famous Chinese Kudzu Vine. Or "Jack-and-the-Bean-Stalk-Vine."

Or "Jack-and-the-Bean-Stalk-Vine."

The phenomenal growth of this new Chiese hardy vine can hardly be imagined. Flant in any soil, rich or poor, and in three months when well established it will make more growth than most other vines will in two years.

It will make more rowth than most other vines will in two years.

The clusters of purple Wistaria like flowers six to seven inches long are delicously fragrant; but its great feature is its wonderfully strong growth (shout 12 inches in a day) which makes it invaluable for rapidly covering arbors, fences, clead or old trees, rockeries, etc., and it has been recommended repeatedly by Garden and Forest, American Garden, Mechan's Monthly, and also by other eminent authorities.

It is a native of China, where it is grown not only for the beauty of the plant and the flowers but also for the commercial value of its roots used as a delicate foot. The young branches furnish material for making fine cloth, hammorks, and the flowers had also be with dense foliage "from the ground up." It can be cut back in the fall with dense foliage "from the ground up." It can be cut back in the fall without injury, if desired, thereby preserving leaves. We have a fine lot of pot-grown plants, easy to mail. PRICE OF SELP-PKL, 10c.; 3 for 25c. PRICE OF PLANTS—20c. each; 3 for 50c.; dozen, \$1.50, postpald.

The shape of its blossoms the color and fragmine are almost idea of a with the wide man d and cherished Trailing Arbanyo re We England! Mayflower Flowers white bouch a will delicate pink, and possess a rich and powerful fragminee. Pkt. 10c.

VERBENA, "Royal Splendor" Mixture.

The most britiant and distinctly marked of all Verbenas. Unsurpassed In size, and the range in duzding brilliancy of colors is Indeed wonderful. Royal Spleador Mixture stands without a peer for its great varlety of beautiful shades. Many years were spent in bringing It up to its present high suite of perfection and a trial will prove that no much could hardly be claimed for it. Packet, 15c.; 2 for 25c. Two packets, one of each Verbena, for 26c.

General List of Vegetable Seeds

All Standard Varieties of real merit may be found in this department. We exclude everything worthless, omit the endless number which are out of date, avoid misleading descriptions, and the offering of same varieties under different names. General instructions, as to planting and growth, while reliable, will not apply equally to all sections, as some allowance must be made for difference in latitude.

DISCOUNTS WE SELL SIX 5-CENT PACKETS OF SEEDS FOR 25 CENTS. THIRTEEN 5-CENT PACKETS FOR 50 CENTS.

On all orders for Flower or Vegetable Seeds in packets or ounces, the purchaser may select seeds to the value of \$1.25 on an olders one dollar sent us. This list we cannot send to private gardeners, even it they ask for it, as it is sinched only for those who grow for market. In writing, please state whether you are a Market Gardener, Floets to Tealer in Seeds.

Artichoke.

This is the French Artichoke, and is grown for its flower heads which are cooked like Asparagus. It is perennial, hardy, and easily cultivated, hence should be more generally grown. Seed can be sown in hot-beds, and transplanted into pots so as to give plenty of room, until danger from frost is past, and then transplanted into very rich ground 3 feet apart each way, or the seed can be sown outside early in April in a rich seed bed in drills 1 inch deep and 12 inches apart, thinning, when up, to 4 inches apart in rows; but in that case

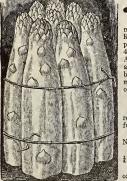

will not likely produce heads the first season. Protect in winter with a slight covering of manure or leaves put on late after cutting off the old tops. The second season they will form heads about the first of July. Once established they will continue bearing for years.

Large Globe or Paris-Best for general use. Pkt., 5c.; oz., 25c.; 4 lb., 80c.; lb., \$3.00.

JERUSALEM ARTICHOKE ROOTS The Jerusalem Artichoke can be grown only from the tubers. It is especially valuable as a cheap and healthful hog food; yields enormous crop. Lb., 30c.; 3 lbs., 75c., postpaid. Express or Freight—Pk., 60c.; bus., \$2.00; bbl. of 3 bus. (enough for one acre), \$5.00.

Jerusalem Artichoke Roots

Bunch of Columbian Mammoth White ready for Market.

Asparagus. French-Asperge. German-Spargle. Spanish-Esparragoe.

One of the earliest spring vegetables, and one that would be in more general use were it known how easily it can be grown. It can be grown in any good garden soil, but does best in

moist, sandy soil. To grow plants from seed, sow in drills about I inch deep, in rows a foot apart. Keep the soil mellow and free from weeds during the summer, thin out, and the following spring plants may set in beds 6 feet wide, with a 2-foot path each side; set plants 1 foot apart each way, 4 inches below the surface. The deeper the soil and the more manure used the greater the crop. Annually, after the first cutting, the bed should be given a liberal top dressing of manure, ashes and salt, which should be well cultivated into the soil. As soon as the tops turn yellow they should be cut and removed from the beds, and just before winter cover beds with 4 inches coarse, strawy manure or leaves, which should be removed in the spring. A bed 6x60 feet is ample for an ordinary family, and when well established is good for twenty years.

One ounce seed sows 60 feet of drill. About 400 plants to the ounce.

Columbian Mammoth White-A distinct variety producing shoots which are white, and remain so as long as it is fit for use. Very robust and vigorous in habit, throws large shoots and fully as many as Conover's Colossal; needs no earthing up. Pkt. 5c.; oz. 10c.; 4 lb. 25c.; lb. 75c

Donald's Elmira-Originated with Mr. Donald, a well-known market gardener of Elmira, N. Y. A good, reliable mammoth variety. Pkt., 5c.; oz., 10c.; \(\frac{1}{4}\) lb., 20c.; lb., 75c.

Conover's Colossal-A large and rapid grower of excellent quality. Pkt., 5e.; ez., 10c.; 1 lb., 20c.; lb., 50c. Barr's Mammoth-Very large and uniform, grows very quick, and is light in color. Pkt., 5c.;

oz., 10c.; 1 lb., 20c.; lb., 60c. Palmetto-This is claimed to be an earlier, better yielder and more even grower than Collegeal.

Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

sparagus By purchasing Good Strong Roots two year's time is saved. At the prices quoted buyer is to pay Freight or Expressage.

Dwarf Lima Beans.

These varieties are of true Bush or Dwarf form, growing but 18 to 20 inches high without supports. About two weeks earlier than the Climbing Limas; abundant bearers until frost. Plant in rows 2 feet apart, plants 1 foot apart in the row.

Henderson's Dwarf Lima-Grows in compact bush form, and produces large crops. Pkt., 10c.; pint, 25c.; qt., 45c.; ½-pk., 90c.; pk., \$1.75; bus., \$6.00.

Dreer's Dwarf Lima-True bush form of Dreer's Pole Lima. Matures early; very productive; grow close together in the pod; thick, sweet, tender and succulent. Pkt., 10c.; pint, 30c.; qt., 45c.; ½-pk., \$1.10; pk., \$2.00; bus., \$7.00.

Burpee's Dwarf Lima-Beans as large as Large Pole Lima, strictly dwarf; come true from seed; stout growth, always erect, branches vigorously, bearing 50 to 200 handsome, large pods well filled with very large beans. Pkt., 10c.; pint, 25c.; qt., 45c.; ½-peck, \$1.10; peck, \$2.00; bus., \$8 00.

Kumerle, or Thorburn-Pkt., 10c.; pt., 25c.; qt., 45c.; ½-pk., \$1.10; pk., \$2.00.

LARGE PACKETS-Customers write us that our packets are well filled and generally contain more seeds than those of others.

Dwarf Wax or Yellow Pod Varieties.

Keeney's Rustless Wax Bean.

Keeney's Rustless Wax A strong grower, with remarkable vigor and free-

dom from rust. Pods meaty and well-filled, thick-flat when young,

and semi-round later; a rich yellow color, fine quality, and entirely stringless, even when large enough to shell. If pods are picked as fast as formed the plant continues to furnish a bountiful supply

for an unusually long season, and is practically everbearing until frost. Pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$1.50; bus., \$5.00.

New Davis Wax—Pods waxy-white, long, straight and thick. Beans clear white, kidney-shaped. Very productive. Compact upright

growth. Pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$1.50; bus., \$5.00.

Ferry's Golden Wax—Very early: golden wax color; quality excellent. Pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$1.50; bus., \$5.00.

Early and productive. Pkt., 10c.; pint, 25c.; qt., 40c.; pk., \$1.40;

Challenge Dwarf Black Wax-A distinct Extra Early Wax

Bean. Vigorous and productive. Pods large and of good color,

growing uniform and well together. Pkt., 10c.; pint, 25c.; qt., 45c.;

New Valentine Wax. An Improved Extra round beautiful waxy pods. The pods are very meaty, and no other bean has less string or less hard shell to the pod as long as it is

suitable for cooking. Pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$1.50;

pk., \$1.50; bus., \$5.25.

Currie's Rust-Proof Wax-This variety is claimed to be absolutely rust-proof. Pods long, flat, tender and of fine quality.

Rust-Proof Golden

Wax. One of the best strains of Golden Wax on the market. Hardier, more prolifiic, holds its pods up well, of better quality, pods longer, straighter and thicker than the ordinary Golden Wax, and is rust-proof. Pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$1.50; bus., \$5.25.

Wardwell's Kidney Wax -Early; vine medium, erect, hardy, productive. Pods long, broad, flat, brittle and of a delicate waxy-rellev. Beans large, kidney-shaped, white and dark markings about the eye. Firstclass green snap bean, and a good one for winter. Pkt. 10c.; pint, 25c.; qt., 45c.; pk., \$1.50; bus., \$5.50.

Rust-Proof Golden Wax Bean.

Crystal White Wax -Distinct: one of the best: matures quick. slow to harden, retaining their juicy, succulent flavor for days after they are ready to pull. Pods ivory white, good size, round and very fleshy. Pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$1.75; bus., \$6.00.

Golden-Eyed Wax-Hardy, early, vigorous, growing very rap idly, and yields a great profusion of tender, succulent pods of beautiful waxy appearance. Pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$1.40 bus., \$4.50.

Prolific German Black Wax-An improved strain of Early Black Wax, having longer, whiter, fleshier pods and being more productive. Pods are round, waxy-yellow, solid and tender. Pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$1.50; bus., \$5.25.

Scarlet Flageolet Wax-Pods large. Pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$1.60; bus., \$5.50.

White-Seeded Wax-Excellent snap bean. Seed pure white.

Pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$1.40; bus., \$5.00.

Yosemite Mammoth Wax-The monster pods average 10 to 14 inches in length, are nearly all solid pulp, and absolutely stringless, cooking tender and delicious; a rich golden yellow. Pkt., 10c.; pint, 30c.; qt., 50c.; pk., \$2.00; bus., \$7.00. Jones' Stringless

Wax Bean.

stringless pods of unsurpassed beauty and quality. This splendid new bean is the result of crossing of white-seeded sort with the famous Stringless Yosemite. It is very hardy, wonderfully productive, and not liable to rust. The pods are uniformly handsome, round, fleshy add well filled. The beans matured are white, and if. for any reason, the crop cannot be sold as green snap beans, the gardener who plants this variety has two more chances. He can sell it as green shelled beans, or let it mature and sell as dry beans. Pkt., 10c.; pint, 30c.; qt., 50c.; peck, \$2.00; bus., \$7.00.

Geo. B. Chamberlain, N. Y.,
Oct. 22, 1898.—"The Yellow
Podded Pencil Beans you sent
me for trial proved to be all you
claimed. They were very tender,
stringless and luscious, and the
best we have raised for years."

New Valentine Wax Bean.

Round Pod Kidney ! of

Early GoldenCluster Wax.

The best of all Wax Pole Beans. Pods bright golden yellow, stringless, tender and of delicious flavor. Vines strong and hardy, enormously productive, and bears in clusters. Matures very early and continues bearing until frost. Beans clear waxy-white; excellent shelled green. The most profitable market Wax sort. Pkt., 10c.; pint, 30c.; qt., 50c.; ½ pk., \$1.20; pk., \$2.00; bus., \$7.50.

Ford's Mammoth Podded-Pods 6 to 9 inches long, produced in clusters of 5 or 6; of excellent quality for using either green or dry. Pkt., 10c.; pint, 25c.; qt 45c.; pk., \$2.00; bus., \$7.50.

Small White (Sieva) -Smaller leaves and seeds, but earlier and more hardy than the Large Lima. Pkt., 10c.; pint, 25c.; qt., 45c.; ½ pk., 80c.; pk., \$1.50; bus., \$6.00.

Por ell's Provider sale.

The pole or Running varieties are more tenger and require more as succeed best in sandy Dwarf or Bush varieties, and should be sown two weeks later; they succeed best in sandy loam, which should be liberally enriched with manure. Form hills 3 to 4 feet apart; plant 5 or 6 beans in a hill, about 2 inches deep, leaving space in the center for the pole. the beans are well started they should be thinned to 2 or 3 plants in a hill.

One quart makes 100 to 200 hills, according to size of beans. 8 to 12 quarts plant an acre-

Our Quart and Plnt Prices Include Postage. If to go by Express, at buyer's expense, deduct 15c. from quart, or 8c. from pint prices quoted below.

Large Packets.

Customers write us that our packets contain more seeds than others.

Mammoth Podded Horticultural Pole Bean. The mammoth pods are striped and splashed with exceedingly brilliant crimson, and the immense beans are of the best quality. Pkt., 10c.;

pint, 30c.; qt., 50c.; ½ pk., \$1.20; pk., \$2.00; bus., \$7.50. Kentucky Wonder—A very prolific sort, bearing its pods in large clusters; pods green, often reaching 9 or 10 inches in length, nearly round when young, and very crisp.

pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$2.00; bus., \$7.50. Lazy Wife's-Pods grow from 6 to 8 inches long, entirely stringless, of a rich, buttery flavor when cooked; retain their tender, rich flavor until nearly ripe; a good white shell bean for winter use. Pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$2.00; bus., \$7.50.

POLE LIMA BEANS.

Lima Beans will not grow until the weather and ground are warm, and if planted before they are apt to rot in the ground.

SIEBERT'S EARLY LIMA-THE EARLIEST TRUE LIMA AND THE VERY BEST FOR MARKET GARDENERS. Very productive, hardy and vigorous. Produces pods early, and the beans are of fine quality. The green shelled beans are of immense size, but so tender and succulent that they shrink in drying to about the size of the Large White Lima. Pkt., 10c.; pint, 30c.; qt., 50c.; ½ pk., \$1.20; pk., \$2.00; bus., \$7.50.

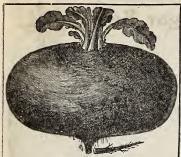

Early Jersey-Beans are nearly as large and equally as good as the late sorts, but two weeks earlier. Pkt., 10c.; pint, 30c.; qt., 50c.; ½ pk., \$1.00; pk., \$1.75; bus., \$6.50.

King of the Garden-Vigorous grower, bearing large pods 5 to 8 inches long. Reans large, of rich flavor. Pkt., 10c.; pint, 25c.; qt., 45c.; ½ pk., \$1.00; pk., \$1.75; bus., \$650. Dreer's Improved (Challenger)-Beans, when green, as large as Large Lima, but thicker, sweeter and more tender. Vines very early, productive, bearing closely crowded clusters until frost. Pkt., 10c.; pint, 25c.; qt., 45c.; ½ pk., \$1.00; pk., \$1.90; bus., \$7.90.

Extra Large White-The old favorite for home use or the market. Pkt., 10c.; pint, 25c.; qt., 45c.; \(\frac{1}{2}\) pk., 90c.; pk., \$1.75; bus, \$6.50.

A. I. VERNER, Pennsylvania .- "I had Siebert's Early Lima from you last year and they proved to be a fine bean."-

CROSB

IMPROVED EGYPTIAN BEET.

OUR LEADER.

EXTRA EARLY.

A very superior strain of Blood-Red Egyptian, carefully selected for years by Mr. Crosby, a noted market gardener, whose aim was to secure a perfect forcing variety. The results obtained were handsome form, good size, few small tops, very small tap root, fine quality, and, above all, quick, rapid growth. The shape is very desirable, not quite so flat as the ordinary Egyptian, nor so round as the Eclipse. Takes on its turnip shape and looks well even in the early stages of its growth, on which account it is preferred for forcing to the Globe and Half-Long varieties, which require longer time to grow to presentable market shape. This is a decided advantage to those who force for real early market, and especially for a market where beets are sold in bunches. It is PREFERRED TO ALL OTHERS for forcing in frames or for first sowing outside. Being a rapid grower it may be sown outside as late as July. We have made a very fine selection of this stock for years and we believe have it nearer the original Crosby idea than any one in the trade; many samples we have tested from other houses turned out to be the ordinary Egyptian, a mixture or inferior grade of so-called "Crosby." If planted every three weeks it makes a most excellent beet for family use.

PRICE OF EXTRA CHOICE SEED of our own growth-Pkt., 10c.; oz., 15c., 1b., 35c.; lb., \$1.00, postpaid.

BROCKMAN & CO., Sebastian Co., Ark., "We have found your Crosby's Egyptian Beet to be the best of any we raised last season."

J. S. DRAKE, Miami Co., Ohio. "Year before last I sent to you for Crosby's Egyptian Beet, and raised a fine lot of beets. Last year I sent to another house for the same variety of seed and I raised a very poor lot of beets." Early Blood Turnip-The old standby. Pkt., 5c.;

Edmand's Early Blood Turnip Beet,

Detroit Dark Red Beet,

Table Beets.

The soil best suited for the culture of the Beet is that which is rather light, provided it is thoroughly mixed with French-Betterave. Spanish-Betteraya. manure. If wanted very early, sow in hot-beds and transplant; but for main crop sow in the spring as soon as the ground becomes fit to work, in drills 13

inches apart and 2 inches deep. For winter use the turnip varieties may be sown as late as June. When the plants have attained 3 or 4 inches in height thin out so that they stand 5 or 6 inches apart. Keep free from weeds by frequent hoeing, and hand weeding if necessary. Before freezing weather sets in the roots may be stored in cellars or pits, same as potatoes; dry earth thrown over them before the straw and earth covering is put on insures their keeping over winter. Be careful not to bruise them in handling. One ounce of seed to 50 feet of drill.

Prices include Postage Prepaid by us.

5 to 6 pounds to the acre. EDMAND'S EARLY BLOOD TURNIP-This beet, of American

origin, is the most uniform of all Turnip Beets. The root is always smooth, round and handsome, tops small, of good marketable size, and among the best for table use. Oolor dark rad, flesh purplish-red, crisp, tender and sweet. An excellent keeper. Pkt., 5c.; oz., 10c.; \$1b., 20c.; 1b., 50c.

DETROIT DARK RED-One of the best red TURNIP-SHAPED varieties. Has small, upright tops, splendid shape; color of the skin is dark blood-red, flesh deep bright red. Very crisp, tender and sweet; matures early, holds a long time in condition for use. Pkt., 5c.; oz., 10c.; \(\frac{1}{2}\) lb., 20c.; lb., 60c.

DEWING'S IMPROVED BLOOD TURNIP-The leading main crop variety. Roots smooth, handsome, good size, tender and sweet. A favorite with marketmen. The seed we offer is grown from SELECTED BEETS and is unexcelled by any in the country. Pkt., 5c.; oz., 10c.; 4 lb., 20c.; lb., 50c.

EARLY EGYPTIAN-Very early, dark blood-red, medium size, tender and sweet; used for forcing. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

ECLIPSE-A very early, handsome, smooth, dark globe-shaped beet; small top; very desirable quality. Pkt., 5c.: oz., 10c.; 4 lb., 20c.; lb., 50c.

ARLINGTON FAVORITE-A beet of fine form, good flavor, deep blood-red colored flesh, small foliage; for general market garden cultivation hard to excel. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.

HALF-LONG BLOOD-RED-Of handsome shape, fine quality, and quick growth, coming in soon after the Turnip varieties; good for winter use if planted about the middle of July. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 60c.

> Bastian's Early Blood Turnip Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

Early Flat Red Bassano-Pkt. 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

ong Dark BLOOD-RED A good keepers

oz., 10c.; 1 lb., 20c.; 1b., 50c. excellent for winter use. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 50c.

Mangel Wurzels and Sugar Beets.

Mangel Wurzels are Largely Grown for Stock Feeding.

The results from their use are wonderful, as is clearly shown in the improved health and condition of animals, the increased yield of milk in cows, and the great saving in hay. They can be raised at a very trifling cost, and yield immense crops per acre. For the best results the soil should be deep, rich and fine, and frequently and deeply worked throughout the season. Sow the seed in slight ridges three feet apart. After sowing pass over the rows with a light roller to thoroughly pack the seed, which will cause them to germinate quickly. 4 or 5 pounds of seed required per acre.

IMPROVED MAMMOTH LONG RED-Also called Norbitan Giant, Jumbo Mangel, Colossal, etc .- A general favorite with the farmer and dairyman; large, well-formed variety; blood-red color; exceedingly nutritious. Pkt, 5c.; oz., 10c.; ‡ lb., 15c.; lb., 35c. By Express-Lb., 30c.; 5 lbs., \$1.10; 10 lbs., \$2.00.

Golden Giant Intermediate-(Yellow Leviathan, Mammoth Yellow)-Beautiful russet-yellow; skin smooth; flesh white, firm and sweet; produces enormously; excellent keeper. Pkt., 5c.; 10c.; 1 lb., 15c; lb., 35c. By Express-Lb., 30c.; 5 lbs., \$1.25; 10 lbs., \$2.25.

Red Globe-Similar to the Yellow Globe, except in color. Pkt., 5c.; oz., 10c.; \$\frac{1}{4}\text{lb., 15c.; lb., 35c. By Express—Lb., 30c.; 5 lbs., \$1.25.

GOLDEN TANKARD-Considered indispensable, owing to its productiveness and richness in saccharine matter. Flesh yellow, tops small, necks very small, roots large; especially relished by sheep. Pkt., 5e.; oz., 10c.; 1 lb., 15e.; lb., 35c. By Express-Lb., 30c.; 5 lbs., \$1.10; 10 lbs., \$2.00.

Special Prices on application for Larger Quantities of Mangels and Sugar Beets.

Ediler TANKARD

Sugar Beets. Sugar Beets are not as neavy yielders as the mange is, but it to the proving wonderfully the quantity, and also the quality, of the milk. Sugar Beets are not as heavy yielders as the Mangels, but are of superior quality, containing

LANE'S IMPERIAL-An excellent American variety, and well liked fo stock-feeding. Large, smooth, of fine grain and very sweet. Pkt., 5c.; oz., 10c.; ‡ lb., 15c.; lb., 35c. By Express—Lb., 20c.; 5 lbs., 90c.; 10 lbs., \$1.70.

French Red Top-Extensively grown in France. Ripens early and yields large returns in sugar per acre; heavy cropper. Pkt., 5c.; oz., 10c.; \$ lb., 15c.; lb., 35c. By Express—Lb., 30c.; 5 lbs., \$1.25.

KLEIN-WANZELBEN-The root is conical, straight and even, quite large at the head and rapidly tapering. Pkt., 5c.; cz., 10c.; ¼ lb., 15c.; lb., 35c. By Express—Lb., 30c.; 5 lbs., \$1.25.

White Sugar Beet brought by the most careful selection to the highby sugar manufacturers. Pkt., 5c.; oz., 10c.; ½ lb., 15c.; lb., 35c. By Express—Lb., 25c.; 5 lbs., \$1.10; 10 lbs., \$2.00.

VILMORIN'S IMPROVED WHITE-A medium sized

SWISS CHARD-Silver or Sea Kale Beet.

Cultivated for its leaves. The mid-rib is stewed and served as Asparagus, other portions of the leaf being used as Spinacb. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

French-Chou Brocoll. German-Spargle-Kohl. Broccoll. Sow thinly in seed beds about the middle of spring; transplant and cultivate the same as Cabbage. Produces heads very nearly like Cauliflower, but more hardy.

Early Large White-Heads medium size, close and compact. One of the most certain to head. Pkt., 10c.; oz., 30c.; ¼ lb., \$1.00. BORECOLE, or KALE—See Kale.

Freuch-Chou de Bruxelles Brussels Sprouts. German-Sprossen Kohl.

Brussels Sprouts are being more extensively grown and used. Home gardeners are finding out that this delicious vegetable can be as easily grown as cabbage. Sow in May and manage as winter In the fall break the leaves down so that the little cabbages will have more room to grow.

Best Imported Dwarf-Produces compact sprouts of finest quality; a good keeper. Pkt., 5c.; oz., 15c.; 1 lb., 50c.; lb., \$1.50.

hicory. Large-Rooted—Used to mix with or as a substitute for coffee. Cultivate the same as the Carrot. Pkt., 5c.; oz., 10c.; 1 lb., 25c.; lb., 75c.

Collards. A plant of the Cabbage family. It is well heat; very popular; excellent for greens. True Southern—Pkt., 5c.; oz., 10c.; 1 lb., 30c.; lb., \$1.00.

Corn Salad, or Fetticus.

French - Mache.

A vegetable used as a salad. Sow the first opening of spring in rows I foot apart, and is fit for use in six or eight weeks. If wanted in early spring, sow in September, cover with straw or hay as soon as cold weather sets in. Can be grown in cold frames, covered with straw mats or shutters, and used any time during the winter.

Large Leaved-Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 60c.

Cress, or Pepper Grass.

A well-known pungent salad; can be used alone or with lettuce. Requires to be sown thickly (covering very lightly) at frequent intervals, to keep up a succession, as it soon runs to seed.

Extra Curled (Pepper Grass)-May be cut two or three times. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

Upland Cress This is a hardy perennial; stays green nearly the whole year; ready for use in the spring before any other salad. Esten like Lettuce or Boiled like Spinach. Sow in April in rows 1 foot apart. Pkt., 10c.; 3 pkts., 25c.; ½ oz., 40c.; oz., 75c.

Water Cress-A well-known hardy perennial aquatic plant. It is easily grown along margins of ponds and streams where it increases both by spreading of the roots and seeding. Has a pleasant pungent taste. Pkt., 10c.; oz., 25c.; ‡ lb., 75c.; lb., \$2.75.

One Ounce of Seed produces about 2,500 plants. Four ounces will grow enough plants to set an acre.

All-Head Early (True)—A thoroughbred sort, on account of its remarkably uniform size and shape, and reliability for heading. Deep, flat heads, solid and uniform in color, shape and size. The main feature of a good cabbage is TENDERNESS, and in this respect it is unsurpassed for winter. Sown in July, and the plants set out about the middle of August, will bring heads, large and solid, sure to winter well. By reason of its compactness and absence of loose leaves, fully 1,000 more heads can be obtained to the acre than of most other good sized varieties. Set plants 18 inches apart, 3 feet between rows, and 9,680 plants can be set on an acre, 95 percent of which will make merchantable heads. Pkt., 50; ‡ oz., 25c; ‡ b., \$2.90.

French—Choux Poenmes. German—Kopf Kohl. Spauish—Repollo.

Cabbage requires deep, rich, mellow soil-high manuring and good culture to obtain me, soild heads. For early use sow seeds of the read of

Early Jersey Wakefield Selected Stock—Many market gardeners consider this the Very Best Early Cabbage in cultivation. Certainly deserving of its great popularity. Grown extensively for market and shipping. Its merits are many, among which are—large heads for an early sort, small outside foliage, and uniformity of crop. Pyramidal in shape, having a blunted or rounded peak. The sort mostly used for wintering over in cold frames. The Seed We Offer IS FIRST-CLASS and sure to give satisfaction. Pkt. 5c.; ½ oz., 15c.; oz., 25c.; ½ b., 70c.; lb., \$2.85.

__VERY EARLY ETAMPES—Earliest of all Cabbages, except Express. Heads oblong, rounded at top, solid and firm, medium size, very fine quality. Pkt., 5c.; oz., 15c.; \(\frac{1}{4}\) lb., 45c., lb., \(\frac{1}{5}\) L25.

Extra Early Express

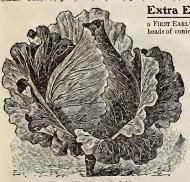

a First Early variety cannot be excelled. Resembles the Etampes, having solid, compact heads of conical form, and yellowish-green color; very dwarf and uniform; desirable as a quick forcing sort. Pkt, 5c.; \$\delta\$ ox, 10c.; \$\delta\$ ox, 20c.; \$\delta\$ lb., 50c.; \$\delta\$, \$\delta\$. \$\delta\$.

Large Wakefield, or Charleston Wakefield—Selection from Early Jersey Wakefield, only it is about one were later than that popular early variety, but grows much larger, heads often averaging 15 to 18 pounds; as solid as Winningstadt. Pkt., 5c.; ½ oz., 15c.; oz., 25c.; ½ b., 75c.; lb., 8250.

Henderson's Early Summer Selected Stock—About 10 days later than Wakefield, but being fully double the size, it may be classed as decidedly the best large Early Cabbage, and is deservedly popular with market gardeners. Equal in weight to most of the late varieties, and its short outer leaves allow it to be planted nearly as close as Wakefield. Keeps longer without bursting than any variety we know of. Pkt., 5c.; 2 oz., 15c.; oz., 25c.; 2 lb., 5c.; 1b., \$2.00.

Early Winningstadt The Old Standby—Well known and very popular; in season very close to Wakefeed.

Heads large, decidedly conical, leaves bright gloss-green, solid and hard, even in summer. A very sure heading variety. Valuable not only for early use, but also for winter cabbage. As near worm-proof as any cabbage in the list. Pkt., 5c.; og., 15c.; ‡ lb., 40c.; lb., \$1.35.

Early Winningstadt Cabbage.

1807 "I have been cutting fine Jersey Wakefields for two weeks.

All-Read Early I wish you could see—it is simply immense; in another week I can take it row by row and cut every head."—Bartholomew County, Ind., Jun 29th.—5 RUBOTTOM.

1898 "I send you a photocraph, taken

of the entire field were marketable. Your
seeds have given best of satisfaction all the
wav through."—June 20 — 6, RUBSTTOM

1899 "Piease allow us to thank you our garden this year—25 acres—is exceptionally fine. Every variety of your seeds gave best of satisfaction. Our onlire seed bills in the future are yours."—Bartholomew Co., Ind., Jun 6—G. RUB YITEM.

Burpee's Surehead Cabbage

GENUINE BURPEE'S SURE HEAD-Is a very reliable header; large, round, flattened heads of the Flat Dutch type; a good keeper and shipper; exceedingly popular. Pkt., 5c.; 1 oz., 10c.; oz., 20c.; 1 lb., 60c.; lb., \$1.90.

Early Deep Head-An improvement over the old Fottler cabbage, and a magnificent variety. It makes a larger and thicker head, hence it is better to keep over winter, "peeling" well in the spring. The hest second early cabbage we ever caised. Pkt., 5c.; ½ oz., 10c.; oz., 20c.; ½ lb., 75c.; lb., \$2.50.

Early Dwarf Flat Dutch -An excellent second early variety, producing fin , large heads after the first early varieties have disappeared. Highly valued both for its fine quality and ability to resist heat. Heads very solid, broad and round, flattened on top; tender and fine grained. Pkt., 5c.; 2 oz., 10c.; oz., 20c.: 1 lb., 50c.: lb., \$1.75.

Henderson's Succession About one week later than the Early Summer, but nearly double the size, while it can be planted nearly as close, its outer leaves being unusually short. One of its characteristics is the fact that it is always sure to head. Pkt., 5c.; ½ oz., 15c.; on, 25c., 1 lb., 80c., lb., \$2.75.

Early Spring Cabbage. A New Extra Early Flat Head Varlety. As early as Jersey Wakefield. Yields one-third more than any other extra early cabbage on the same space of ground. Plant them 21 in hes apart and you have 13,000 per acre. It has the peculiarity of heading firmly at an extra early stage in its growth, making it a valuable variety for extra early market. Pki., 10c.; oz., 30c.; 1 lb., \$1.00; lb., \$3.25.

ALL SEASONS A greatly improved strain of Early Flat Duter. Heads very large, round, solid, and of fine quality, keeping as well as the winter sorts. Remarkable for its ability to stand the hot sun and One of the very best for general cultivation, and none better for late planting. Pkt., 5c.: ½ oz., 10c.; oz., 20c., 1 lb., 70e.; lb., \$2.25.

Chase's Excelsior-A medium early variety, following Early summer, but with heads almost double the size. It is very uniform in type, sure to head, and is exceedingly solid. Pkt. Sc.; 1 oz., 10c.; oz., 20c., 1 lb., 60e.; lb., \$2.00.

Louderback's All-Year Round-One of the finest Early Drum heads now grown. Heads large, compact and solid; very short stem, is hardy, and can be sown at any time during the cabbage planting season and will head up to the satisfaction of the grower. Pkt., 5c.; ½ oz, 10c.; oz., 20c.; ½ lb., 60c.; lb, \$2.00.

Filderkraut-A solid and sure heading german variety. Heads pointed conical; resembles the Winningstadt, but is larger and more pointed. Pkt., 5c.; \(\frac{1}{2}\) oz., 10c.; oz., 20c.; \(\frac{1}{4}\) lb., 50c.; lb., \(\frac{1}{5}\).75.

Fottler's Short Stem Brunswick-A rapid grower; has large, solid heads and but few outside leaves. If planted early it is ready for use in July or August; planted late it is a choice winter sort. Pkt., 5c.; ½ oz , 10c.; oz , 20c.; ½ lb., 70c.; lb., \$2.25.

Early Louisville Drumhead-A favorite about Cincinnati and Louisville, where it has been grown for more than forty years. Heads very large and solid; a sure header; will stand without bursting almost the entire summer. For winter use sow late in the season. Pkt., 5c.; 1 oz., 10c.; oz., 20c.; 1 lb., 60c.; lb., \$175.

Livingston's Ideal Winter Cabbage.

This variety is a few days earlier than Livingston's Premium Flat Dutch, and is certainly one of the most magnificent strains of Late Flat Dutch known to-day. By persistent selection, year after year, it has been brought to a state of perfection rarely attained. The large, solid heads, the low, short stems, the absence of useless foliage, uniformity of size and shape, reliability for heading, and the long continued selection mentioned

WM. C. WAGNER, Ray's Crossing, Ind. I have grown many strains of fine winter emblange, but the blead beats them all. It forms the pretitest, stockiest plants I ever one in any strain of enblage before, with heads remarkably large, teacher and sofel. In fact, it is all anyone could wish in a fall or winter emblage. It cannot be perised too highly. TROPIAL L. DODSON, Perry Co., O. "I can recommend your India. Causage very highly. I think there is NONE BETTER. All the seeks got from you gave good suifsinction."

above, all combine to make this the Ideal Cabbage for Profit. Pkt., 10c.; \(\frac{1}{2}\) oz., 15c.; oz., 25c.; \(\frac{1}{4}\) lb., 75c.; lb., \(\frac{5}{2}\) 50.

Livingston's Premium Flat Dutch Cabbage.

Luxemberg—TRUE AMERICAN—Owing to its many remarkable keeping properties, and the fact that the head remains as green as when gathered in the fall; it is the king of all cabbage for late keeping in the spring. For spring and late spring sales, when cabbages usually bring their highest price, this is THE CABBAGE. Pkt., 5c.; ½ oz., 1oc.; oz., 2oz.; ¼ lb., 80c.; lb., \$2.25.

THE NEW LUPTON CABBAGE—A GRAND, GOOD CABBAGE. A rare combination of the second early and late sorts. Strong in constitution, perfect in type it has none of the coarseness of the late varieties, with all the fine qualities of early maturity. The stock is short; color dark green; very large heads in proportion to the plant. Especially adapted to all purposes of the farmer and market gardner, as it will grow more uniform, head better, and keep equally as well as the later varieties. Pkt., 5c.; ½ oz., 10c.; oz., 20c.; ½ b., 75c.; lb. \$2.25.

Autumn King—World Beater—One of the finest strains of Late Cabbage ever offered. It produces regular, even heads of cnormous Size, and can be relied upon to produce a greater weight of crop from the same space of ground than most of the late sorts, from the fact of its producing so few outer leaves. Pkt., 5c; ½ oz., 15c; oz., 25c; ½ lb., 80c; lb., \$2.25.

Large Late Flat Dutch—Grows to a large size, the flat, solid heads often weighing fifteen to twenty pounds. A sure header and a good keeper over winter; extensively grown for shipping. Pkt., 5c.; ez., 20c.; ½ lb. 75c.; lb., \$2.00.

Livingston's Premium Flat Dutch Cabbage.

Some fifteen years ago we set out to build up a strain of Large Late Flat Dutch Cabbage that would be better than any other on the market. We new strongly condition that indoor other on the market. We new strongly condition that indoor has been to weed out every objectionable point, and to far simply every good quality. It produces many tons to the acre because of its solidity and compact, sing mainer of growth unlike most large sorts, it is solid to the heart. Seeds have been Grown Advays from means (in solid to the heart. Seeds have been Grown Advays from means (in solid to the heart. Seeds have been Grown Advays from means (in solid to the heart. Seeds have been Grown Advays from means (in solid to the heart. Seeds have been Grown Advays from means (in solid to the heart. Seeds have been Grown Advays from the case of the heart seeds have the winter market it has no superior. Heads are large and very solid; they open white, crisp and tender and the solid production of the grown of the grown of the solid production of the grown of the grown

BEST EVER RAISED.

Mrs. Mollie Smoot, Mo., April 11, '99—"Livingston's Premium Late Flat Dutch Cabbage is the finest I ever raised."

Bridgeport Drumhead—Very popular about Chicago, and shipped more largely than any other from that market. Pkt., 5c., oz., 20c.; \(\frac{1}{4}\) lb., 65c.; lb., \(\frac{\$2.00}{0.00}\).

Large American Drumhead—A very superior fall and winter variety; large, solid heads. Pkt., 5c.; oz., 20c.; d lb., 50c.; lb., \$1.75.

Autumn King or World Beater Cabbage.

* + SAYOY CABBAGE. + +

The Savoy or Curley Cabbage are of much finer flavor and quality than the best of other kinds, and should be more generally cultivated. They are particularly adapted for private use, where quality rather than quantity is considered. Grown in the fall and allowed to be touched by frost, it is one of the most delicious of all vegetables.

Early Paris Savoy—Best early Savoy; heads firm, solid, beautifully crimped; fineet quality. Pkt., 5c.; ½ oz., 10c.; oz., 15c., ½ lb., 40c.; lb., \$1.50.

American Drumhead Savoy—A late Savoy and far superior to the ordinary INFORTED Drumhead Savoy. Heads large and very finely curled; short stalk, compact grower; excellent keeper. Pkt., 5c.; ½ oz., 10c.; oz., 15c.; ½ lb., 40c.; lb., \$1.50.

Marvin's Large Savoy.—This distinct and most excellent variety originated with a Long Island trucker, and is the finest of the Savoy class. It is very uniform, solid, very curly and a sure header (90 to 95 per cent.) Its flavor is unsurpassed by any late cabbage. Pkt. 5c; ½ oz., 10c;; oz., 20c; ½ lb., 5c; lb., \$≥.0c;

Marvin's Large Savoy Cabbage.

RED CABBAGE.

Extra Early Blood Red Erfurt—Earliest and reddest. Pkt., 5c.; oz., 20c.; ½ lb., 50c.; lb., \$1.50.

Red Drumhead—Heads large, rounded, hard and very deeply colored at heart. Pkt. 5c; oz., 20c.; ¼ lb., 60c.; lb., \$1.75.

Mammoth Rock Red— Heads as large as the Flat Dutch, deep red to the center; highly recommended. Hard as a rock Pkt, 10c; ½ oz., 15c.; oz., 30c.; ½ lb., 75c.; lb, \$2.25.

Mammoth Rock Red Cabbage.

CAULIF

The culture of Cauliflower is similar to Cabbage. It delights in a rich, moist soil, and in dry seasons should be abundantly watered, especially when heading. Sow seed in the hot-bed in January or February, and transplant the plants 2 or 3 inches apart in boxes, or in the soil of another hot-bed, until such time as they are safe to be planted in open ground, which, in this latitude is usually from the 15th of March to the 10th of April. Set the plants 2 feet by 15 inches apart. If properly hardened off they are seldom injured by being planted out too early. When heading tie the outside leaves loosely over the head to protect it from the sun. Cauliflower should be kept growing constantly, as it may be injured by a check at any period of growth.

One ounce gives 1500 to 2000 plants. Livingston's Earliest.

FINEST IN THE

Sure Header. Select Stock.

The best of all for forcing under glass. Compact grower, extremely early, sure heading, heads large, solid, and white as snow. Gardeners who have tested this fine stock invariably pronounce it the most profitable variety for either early or late planting. In short, it is an excellent all-seasons Cauliflower. Price, under our True Blue Seal—Pkt., 25c.; ‡ oz., 90c.; oz., \$3.50; ‡ lb., \$12.00.

EXTRA EARLY DWARF ERFURT-The favorite German variety. Dwarf habit, compact growth, short outside leaves; man variety. Dwart habit compared to these apart. Stree Header. Pkt., 15c.; \(\frac{1}{4} \) oz., 65c.; \(\frac{1}{2} \) oz., \$1.25; oz., \$2.25; \(\frac{1}{4} \) lb., \$7.50.

Veitch's Autumn Giant-The heads are beautifully white, large, compact, and being thoroughly protected by the foliage, remain longer fit for use. Pkt. 5c.; \$ oz. 25c.; oz. 40c.; \$ lb. \$1.50; lb. \$5.75.

HENDERSON'S EARLY SNOWBALL-One of the best types of Cauliflower on the market. If planted March 1st, large heads will be produced early in June, and scarcely a single head will fail to form. The outer leaves are short, so that plants may be set 18 to 20 inches apart. Its compact habit of growth renders it a very profitable variety to force under glass, and it does well for late

No Seed is more important than

Cauliflower.

be considered.

planting. OUR STOCK CANNOT BE EXCELLED IN QUALITY. Pkt., 25c.; \$ oz., 75c.; ½ oz., \$1.50; oz., \$2.75; \$ lb., \$9.00. Half Early Paris, or Nonpariel-Large, white and compact; good early or late. Pkt., 5c.; 1 oz., 20c.; oz., 60c.; 1 lb., \$2.00.

Large Late Algiers-A splendid late variety; popular with canners and marker gardeners. Seldom fails to produce large, white heads. Pkt., 10c.; ½ oz., 40c.; oz., 70c.; ½ lb., \$2.00.

Lucumbers

to horse manure. One ounce of seed for fifty hills. One to two pounds for an acre.

As soon as the weather becomes settled and warm, plant in hills 4 to 6 feet apart each way, with 8 or 10 seeds in a hill; cover half an inch deep, smoothapart each way, with so it to see as in a min, over han an incu deep, smooth-ing the hill off with the hoe. Keep the soil well stirred, and when the plants are out of danger of insects, leave 3 or 4 plants to a hill. For pickles, plant from 1st of June to 1st of August. The fruit should be gathered when large enough, whether required for use or not, as, if left to ripen on the vines, it destroys their productiveness. Cucumbers forced under glass turn yellow quickly, sometimes from effects of over-feeding and from the use of manures that are too quick; on this account cow manure is preferred

Livingston's Evergreen Pickle.

Introduced by us in 1890, now well-known the country over, catalogued by all the leading seedsmen, and generally admitted to be the best pickle sort offered, possessing every qualification required in a perfect Pickle Cucumber. One grower says it bears "four to one" compared with the standard sorts. It is a very strong grower, extra early, and bears firm, crisp fruits which are excellent for slicing. When ripe it is YELLOW, not WHITE, as some have mistaken it. I'kt., 5c.; oz., 10c.; 11b., 25c.; 1b., 65c.; 3 lbs., \$1.50, postpaid.

LIVINGSTONS' EXTRA EARLY WHITE SPINE.

LIVINGSTON'S EXTRA EARLY WHITE SPINE

This Private Strain we have had for over 30 years, and is the most thoroughbred, uniform and shapely variety known, not only for first early but general crop. It excels in earliness, often ready for slicing when other sorts are only pickles. In purity it is unequaled. Vines are vigorous growers. Excellent for slicing and makes choice pickles; straight and smooth; a great bearer, keeps green longer than the yellow varieties; no sort excels it in crispness and flavor. Our Southern friends will find it admirably adapted to their wants SELECTED SEED - Pkt. 5c.; oz. 10c.; 1 lb. 25c.; lb. 75c.; 3 lbs. \$2 c.

Extra Long, or Evergreen White Spine—Longer than the Peerless; fine quality; makes a good pickle; used quite extensively for growing under glass. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.

White Pearl (Japan White)—A beautiful pearly white; even the young fruits are a very light color; tender; crisp in taste; splendid quality for forcing. Pkt., 5c.; oz., 10c.; ½ lb., 30c.; lb., 90c. Improved Long Green—Long and origin. a possible and religious control to the control of the co

Improved Long Green—Long and crisp; a popular and reliable variety for pickles. Pkt., 5c.; ox., 10c.; 4 lb., 20c.; lb., 50c.
Nichol's Medium Green—We introduced this variety to the while in 1883. Color dark green; flesh crisp and tender; medium

public in 1883. Color dark green; flesh crisp and tender; medium size; always straight and smooth; a real handsome and prolific variety. Pkt., 5c.; oz., 10c.; \(\frac{1}{2}\) lb., 20c.; lb., 50c.

Chicago, or Westerfield Pickling—Popular with Chicago gardeners; medium length, slightly pointed at ends, very large, prominent spines; deep green. Pkt., 5c.; oz., 10c.; \(\frac{1}{4}\) lb., 20c., lb., 50c.

Peerless White Spine—One of the Finest. Large, straight and well formed; full at both ends; productive; skin deep green, holding color until maturity. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 50c.—Boston Pickling, or Green Prolific—Its characteristics are its uniform growth, seldom yielding cucumbers too large for pickling, and its immense productiveness. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 45c.

Early Green Cluster A short, prickly variety bearing clusters; prolific; fine for bottle pickles. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 50c.

Extra Early Russian—The earliest; small, hardy, productive; excellent for small pickles. Pkt., 5c.; oz., 10c.; \(\frac{1}{4}\) lb., 20c.; lb., 50c.

excellent for small pickles. Pkt., 5c.; oz., 10c.; \(\frac{1}{4}\) lb., 20c.; lb., 50c.

Thorburn's Everbearing—Small, very early, productive, and valu-

able as a pickle. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 60c.

Improved White Spine, or Arlington—Genuine Stock—For market use and pickling this variety is much superior to the old White Spine. Our stock is the true Boston strain. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 50c.

Albino—A fine white skinned sort; excellent for home use. Pkt., 5c.; oz., 10c.; & lb., 20c.; lb., 60c.

Japanese Climbing Cucumber.

Vines extra strong; foliage more vigorous than other kinds, and being a climbing sort, can be grown on trellises, etc., saving valuable space in small gardens. It is very prolife, from 40 to 50 cucumbers having been counted on single plants. Fruits cylindrical, about ten inches long, and fine flavor. Pkt., 5c. (cs. 4, 10c.; ½ lb., 25c.; lb., 90c.

Giant Pera—A magnificent variety of delicious flavor. Flesh white; crisp and tender at all stages. Of enormous size, frequently 18 inches in length and 10 inches around; very smooth and straight; skin free from spines. Pkt., 5c.; oz., 10c.; \$\frac{1}{2}\$ lb., 20c.; lb., 75c.

Early Frame, or Short Green—A popular variety of medium size. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 50c.

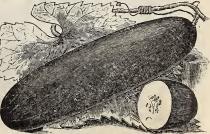

Jersey Pickling—Intermediate between Long and Short Green, forming a long, slender, cylindrical pickle; very crisp and tender. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 55c.

Cool and Crisp—The beautiful green color of this variety is all that can be desired. Excellent for pickling or slicing. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 65c.

Serpent, or Snake Cucumber—A very interesting curiosity. The accumbers grow curled up like a snake with the head protruding, and sometimes several feet in length; quality fair. Pkt., 10c., Gherkins—(Thus Wesr Ivnta)—Used only for pickles. Pkt., 5c; oz., 10c.; 4 lb., 30c.; lb., \$1.00.

English Frame, or Forcing Cucumbers.

Noa's Forcing—Most excellent sort; prolific. Pkt., 15c. Rollison's Telegraph—Grows about eighteen inches long_ bright green color, perfectly smooth. Pkt., 15c.

Livingston's Emerald.

Pkt., 5c.; oz., 10c., 1 lb., 30c.; lb., 75c. See Novelties.

Celery High Grade Celery Seed

Celery Culture. Gelery can be successfully grown with but plenty of well of the successfully grown with but little labor, in any goodgarden soil, by using plenty of well not its distance with a laboral sprinkfully grown sail worked into the soil, at least two weeks before the plants are transplanted into them. It delights, however, in low, molst, rich bottom hand, or well drained mack soil. It is usually grown as a second crop.

Growing the Plants. It has not necessary to sow the seeds in run to seed if started too early, but sow in the open ground in some as it is apit to read the second read of the second second reads and in the second reads as it is fit to work in April, and an additional sowing or two between this date and it can be seed to read the second reads as a second read of the second reads as a second read read of the second reads as a second read

Transplanting. The eventue is the best time, and especially if transplanting of the restorage of the transplanting of the restorage of the transplanting of the restorage of the transplanting of the pressed firmly about each plant when set out, expecially if done in a dry time; the old method of setting in deep trenches is a thing of the past. Some of our most successful growers set on the level surface, while others prefer a brand, shallow trench, only three or four inches deep, while others prefer a brand, shallow trench, only three or four inches deep, than four feet for the larger sorts; set plants in single rows not over six makes apart in the trench. Transplanting is done about the middle of June for the first early, and as late as the middle of August for the latest. Keep well cultivated, and in about six weeks. 'handling 's should begin (never sto this when wet from rain or dew). This is done to make the eelery grow upright. The soll is strawn to the row from each side with an ordinary how, upright. The soll is strawn to the row from each side with an ordinary how, the soil around it, pressing firmly, being careful that no soil gets between the leaves, as it is any to cause rust, or rot the plant. In allout two weeks, or as often as it is necessary to keep the leaves in an uprighte directions send for our celery book; see page 29.

One ounce of seed produces about 2000 plants.

One ounce of seed produces about 2000 plants.

GEO. T. ROBINSON, Talbot Co., Md., savs: "I wish to told my test-monial for your White Planne Celery. I have been raising White Planne Cortey, ears and have never seen any to equal yours, in perfection of scolor. Also it is free from green stalks, is of good height and blanches easily. It cannot be excelled."

Selected White Plume Celery

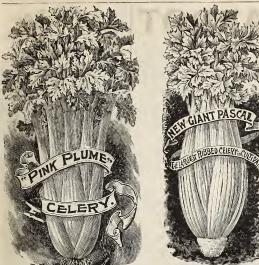

Early, Handsome, of Good Flavor and Fine Texture. Largely Grown than All Other Varieties Combined.

Our strain White Plume Celery is becoming more popular every year on account of the extreme care we use in selecting stock seed, thus enabling us to offer you this season a very superior strain. It is almost self-blanching; naturally its stalks and portions of the inner leaves and heart are so white that by closing the stalks, either by tying or simply drawing the soil up against the plant and pressing it together, the work of blanching is completed. In appearance it is very ornamental. It is unsurpassed for fall and early winter use. It is a good keeper up to the holiday season; but for later use we would advise growing some of the more hardy kinds. WE HAVE MADE A SPECIALTY OF WHITE PLUME EVER SINCE ITS INTRODUCTION, AND ARE SUPPLYING MANY OF THE LARGEST GROWERS THROUGHOUT THE COUNTRY. WE KNOW OUR SEED OF THIS VARIETY IS NOT EXCEPTED IN QUALITY AND PURITY. Selected White Plume-Pkt., 5c.; LARGER PKT., 10c.; \(\frac{1}{2}\) oz., 15c.; oz., 25c.; \(\frac{1}{4}\) lb., 60c.; lb., \$2.00.

Golden Self-Blanching For Early Use preferred by many to all other sorts; as self-blanching as White Plume, and simply needs a slight earthing The entire plant is an attractive yellowish-green, and as it approaches maturity the inner stems and leaves become a beautiful waxy golden color. Grows to good size, very tender, crisp and solid. Invaluable to the gardener and exceedingly popular with every planter. Pkt., 10c., ½ oz., 15c.; oz., 30c.; ½ lb., 90c.; lb., \$3.25.

Perle Le Grand
The New Perle Le Grand is handsome, stocky and robust, and its close habit is always admired. Its beautiful, full golden heart and rich nutty flavor is unsurpassed by any other variety. It is a good early Celery, being among the first fit for use, and remains, when properly trenched, in perfect condition away into the spring. Pkt, 5c.; 2 oz., 15c.; oz., 25c., 1 lb., 75c.; lb., \$2.50.

New Rose The red and pink celeries have been deservedly gaining in popular favor for several years, because they are hardies and better keepers than the yellow and white sorts, making it an attractive ornament to the dinner table, the heart and stem being shaded to a fine rose color. Pkt., 5c.; 1 oz., 15c. oz 25e : 1 lb 60e lb \$200

GOLDEN ROSE CELERY.

Pink Plume Practically identical with White Plume, excepting that the stalks are SUFFUSED WITH PINK, and possessing the crispness, rich nutty flavor and long keeping qualities peculiar to red sorts. The appearance is extremely attractive, and the quality simply perfect. The habit of growth is strong and vigorous. Its self-blanching qualities are the same as White Plume. Pkt., 5c.; ½ oz., 10c.; oz., 20c.; ¼ lb., 60c.; lb., \$2.00.

Giant Pascal A green leaved variety which developed from the Golden Self-Blanching, retains the beautiful color, thick, solid, crisp stalks and incomparable flavor of that variety, but is of stronger growth, also larger, producing perfectly blanched stalks. It is unequalled for rich, nutty flavor. Blanches blanched stalks. It is unequalled for rich, nutty flavor. very easily and is very brittle. A fine keeper, an excellent shipper, retaining color and fresh appearance as long as any other. A favorite with Southern growers. For midwinter and early spring it is excellent. Pkt., 5c.; oz., 20c.; \(\frac{1}{4}\) lb., 50c.; lb., \$1.50.

New Triumph, A New Celery. Splended Long-Keep-ing Sort. Extra Fine Flavor. Late variety of real merit. Healthy, strong grower, stalks very white, crisp, tender and brittle. We recommend it as worthy a first place among late varieties. Pkt.,5c.; oz., 20c.; 2 oz.,35c.; 1b.,60c.; lb.,\$2.00.

Dwarf Golden Heart A distinct variety of sturdy dwarf habit. It is solid, an excellent keeper, and of fine nutty flavor. When blanched, the heart, which is large and full, is a light yellow, making a showy and desirable variety for either market or private use. Pkt., 5c.; ½ oz., 10c.; oz., 15c.; 1 lb., 40c.; lb., \$1.50.

Giant Golden Heart Produced by careful selection and high culture from Dwarf Golden Heart, by one of the best celery growers in the country. In quality, appearance and LARGE SIZE it is unsurpassed. ONE OF THE BEST LATE VARIETIES FOR THE MARKET GARDENER, while its fine flavor and rich color make it desirable for private use. Very hardy. Pkt., 5c.; ½ oz., 10c.; oz., 20c.; ½ lb., 60c.; lb., \$1.75.

Kalamazoo-The most perfect type of Dwarf Celery known. It is distinct, and of a beautiful cream-white color; attains large size; of quick growth; stiff, close habit, outer ribs standing straight. Pkt., 5c.; ½ oz., 10c.; oz., 15c.; ¼ lb., 50c.; lb., \$1.50.

Boston Market-Vigorous grower; very branching; excellent keeper; remarkably tender, crisp and solid. Best variety for light soils; late keeper. Pkt, 5c.; 2 oz., 10c.; oz., 15c.; 1 lb., 40c.; lb., \$1.40.

New Golden Rose (Rose Ribbed Golden Self-Blanching)—It is a sport from the Golden Self-Blanching, having the

same rich, golden-yellow color, in the main, greatly enhanced in beauty by the delicate rosy hue of the ribs. On account of this combination of color, it is called by some "Rose Ribbed Golden Self-Blanching." A strong and healthy grower, and its self-blanching character well fixed. Plant dwarf and heavy, stalks smooth, free from ridges, solid and crisp. Very early, good keeper. Blanches Naturally. Pkt., 10c.; oz., 30c.; ½ lb., \$1.00; lb., \$3.25.

Giant White Solid-Large size; tall and of stiff growth; white and crisp. Pkt., 5c.; 2 oz., 10c.; oz., 15c.; 1 lb., 40c.; lb., \$1.40.

Dwarf White Solid—Dwarf, white, close habit; solid, crisp and juicy. Pkt., 5c.; ½ oz., 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.50.

Flavoring Celery (Old Seed)-Used for flavoring soups, pickles, etc. Postpaid-Oz., 5c.; 1 lb., 15c.; lb., 35c. By Express (at buyer's expense)-Lb., 30c.; 4 lbs., \$1.00; 10 lbs. \$2.00.

JOHN A. H., Crytzer, Pa., March 24, 1990: Your seeds are the very best. I have been getting your Celery and Onion seeds for 4 or 5 years. Last year I raised 20,000 eelery and did not have 20 hollow plants, We have splendld success with your Prize Taker Onion each year. We have many that measure 16 to 17 inches in elerumference.

Celery Plants Ready about June 1st. Apply for our vegetable Plant List, which is mailed free as soon as issued in mid-summer. which is mailed free as soon as issued in mid-summer. Write us for prices, whether you want 100 or 100,000 plants.

Celeriac. Turnip-Rooted Celery.

Sow seed same way Celery seed is sown. Transplant in rows 2 feet apart and 9 inches in the row. Thorough cultivation is necessary to secure good roots. The roots may be cooked or used as salad.

Apple-Shaped—An early, smooth variety. Roots shaped like an apple; good flavor. Pkt, 5c; oz., 15c; ½ lb, 40c; lb, \$1.25. Giant Smooth Prague—A very large and smooth variety, free from side roots. A desirable sort for market, and an excellent keeper. Pkt., 5c.; oz., 15c.; 1 lb., 50c.; lb., \$1.60.

Livingston's Celery Book. Hustrated.
Written expressly for us by Mr. E. J. Hollister, who has been the most extensive practical Celery Grower and Shipper in the United States for the past twenty years. He has grown extensive erops in Canada, Michigani, ohio and Florida. The work is fully up-to-date on all essential points and is a CONTLETE GUIDE FOR THE CELERY GROWERS. Paper Cover. 40 cents. Cloth Bound, 60 cents.

The Book Free. with an oper for Celery Book (paper cover) The Book Free. with an oper for Celery Seed amounting to \$3.00, or Cloth Bound with \$4.50 Celery order. A general order for other seeds amounting to \$4.00 secures a papercover, or \$6.00 order the cloth bound, providing customers request it at time of ordering.

CARROT

The Cangor like other rooterps, hourishes best in aw the nriched smuly soil, deeply thied, and in plowed the latter of the latte

Chantenay One of the best for home or market garden. Deep red flesh, fine grained and sugary make it an excellent sort for table use; stump-rooted; always smooth; v.ry early and productive. Pkt., 5c;;oz., 10c.; † 1b., 25c;; [b., 70c.

Livingston's Early Market Carrot-Stump rooted, grows about the size of our Cincinnati Market Raiish, excellent forcer, fine flavor; flesh deep orange; fine grained. Pkt., 5c.; oz., 10c.; ‡ lb., 25c., lb., 80c.

Oxheart, or Guerande—Intermediate length; fully 3 to 5 inches in diameter: quality extra good. Other sorts require digging: Oxheart can be easily pulled. Pkt., 5c.; oz., 10c.; \$1b., 20c.; 1b., 70c.

Intermediate Red -Excellent new English sort. Smooth, and nearly the Danvers in size. Pkt., 5c.; oz., 10c.; ‡ lb., 20c.; lk., 50c.

Early Scarlet Short Horn.—Stump-rooted; popular for forcing and early outside sowing. Flesh deep orange, fine grained; agreeable flavor; small top. Pkt., 5c; oz., 10c; \(\frac{1}{2}\) lb,, 20c; lb, 60c.

Nantes' Early Half-Long Scarlet.—Stump-rooted, sweet, fine flavored; almost without a

core; very fine grained; excellent for home garden or market. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 55c. Improved Long Orange—A standard late variety, handsome and uniform in shape; deep orange color; good flavor; yields heavily. Requires deep soil; lpants should stand 8 inches apart

in 18-inch drills for roots to attain full size. Pkt., 5c., oz., 10c.; ‡ lb., 20c.; lb., 50c.

Belgian Carrots The great stock food of Europe. Enormously productive; nutritions and splendid keepers. Large Orange Belgian—

Long White Green Top—Pkt., 5c.; oz., 10c.; \(\frac{1}{3}\) lb., 15c.; lb., 40c.

Ohlo Grown Seed Sweet Corn is Unexcelled by either Eastern or Western Grown Stocks.

Sweet Corn.

French-Mais. German-Welschkorn. Spanish-Maiz.

The Sweet, or Sugar Corn, varieties being liable to rot in cold or wel ground, should not be planted until May, or when the ground has become warm, and for a succession plant every ten days or two weeks until the last week of July, in hills 2x3 feet for the early kinds, and 3x3 feet for the large late kinds. Some plant in drills 3½ feet apart and 8 inches in the row. Give frequent and thorough cultivation. One quart plants 200 to 300 hills. 8 or 10 quarts for an aree.

Kendel's Early Giant Sweet Corn
This is not a mere novelty, but is of real merit. Ears large, measuring from 8 to 10 inches long, having 10 to 12 rows on each cob; kernel a pure white, sweet and tender. Gardeners report this corn ready to use in 60 days grown on sand, and 72 days on heavy clay. Dealers and truckers report ready sales, and are enthusiastic over its carliness, large Size and productiveness. The most popular corn we sold last season. Postpan—Pkt., 10c.; \$\frac{1}{2}\$ pt., 15c.; pt., \$25c.; qt., \$3cc.; 2 qts., \$65c. By Express=0_t. 20c.; 4 qts., \$65c.; pk., \$\$1.00; bus., \$\$3.00; bus.,

Extra Early Cory—One of the earliest known. Large ear, considering size of stock, small cob well-filled with handsome grains. Pkt., 5c.; pint, 20c.; qt., 35c.; pk., 90c.; bus., \$3.00.

HANCE'S EARLY—INTRODUCED BY US IN 1895. Handsome, long, shapely ears, a small cob well-falled with broad white showy kernels. Habit of growth strong, but not tall, comes into market closely after first early kinds. Pkt., 5c.; pint, 20c.; qt., 35c.; peck, 75c.; bus., \$2.75.

Extra Early Adams—Hardiest and earliest corn known. It is not a Sugar Corn, but on account of its being largely sold for table use we class it among the Sugar Corns. Ear short, grain white. Pkt., 5c, pint, 20c.; qt., 35c.; peck, 70c.; bus., \$2.25.

Early Minnesota—One of the earliest; esteemed for its excellent qualities. Pkt., 5c.; pint, 20c.; qt., 35c.; peck, 75c.; bus., \$2.50.

First-of-All—A selection from the Cory; of good quality; tender

Tirst-or-All A selection from the Cory; or good quanty; tender and sweet. Pkt., 5c.; pint, 20c.; qt., 35c.; peck, 90c.; bus., \$3.00.

White Cory—Identical with Extra Early Cory except color; kernels

White Cory—Identical with Extra Early Cory, except color; kernels and cob white. Pkt., 5c.; pint, 20c.; qt., 35c.; peck, 90c.; bus., \$3.00.

Early Adams — Similar to Extra Early Adams; larger, but not so early. Often used for the table, particularly in the Southern States. Also a splendid corn to grow for early feeding purposes. Pkt., 5c.; pint, 20c.; quart, 35c.; peck, 70c.; bus., \$2.25.

Our Quart and Pint Prices include Postage.

If to go by Express at buyer's expense, deduct 15c. from quart or 8c from pint prices quoted above.

HALF-PINTS, mailed postpaid, 10 cts., unless otherw'se quoted.

Tops medium; roots dark orange color, large, of medium length, tapering abruptly at the point; very uniform and handsome; flesh deep orange; sweet and tender. Pkt., 5c.; oz., 10c.; ‡ lb., 20c., lb., 60c.

Livingston's Evergreen Sugar Corn (White Cob)—We worked industriously fifteen seasons

to produce this corn. To make a long story short, it is simply our old Livingston's Evergreen with a white cob. The new White Cob strain lacks not one of the good qualities of the older sort from which it sprung, and we believe it will be endorsed by every corn grower, whether for home or market. Pkt., 5c.; pint, 20.; qt., 35c.; pk., 90c.; bus., \$8.00; 2 bus., \$5.75.

Livingston's Evergreen Sugar Corn (Red Cob)—This variety we introduced in 1860, and it is now a general favorite with marketmen throughout the United States. It is a first-class Second early corn, and can be planted here as late as the first week in July. It is very productive; has large, well filled ears, with broad kernels and very small cob, filled well over the tip; very sweet (none sweeter). Out-sells in this market every other variety. A good cropper, grows only 6 or 7 feet high, and, maturing early, makes a very profitable food crop for hogs, milch cows and other stock when early feeding is desired and at a time when other feed is short. Pkt., 5c.; pint, 20c.; qt., 35c.; peck, 75c.; bus., \$2.50; 2 bus. for \$4.75.

Livingston's Silver Coin Introduced by us in 1894. It certainly excels in two very important points, productiveness and quality. It has a larger and more uniform ear than the well known Stowell's Evergreen, is

fully as early and much more productive. It is strictly an evergreen; in remaining long in edible condition; is admitted to be the most "everlastingly evergreen" of all sweet corns. Pkt, 5c.; pint, 20c.; qt., 35c.; peck, 80c.; bus., \$3.00; 2 bus. for \$5.50.

Columbus Market The New Columbus Market comes into market with the second earlies, such as Pee and Kay, Shaker's Early, etc., but is fully twice as large as any of them. The ears carry an average of 16 rows of fine, large, deep, white and very sweet grains, which are second to none in tenderness and flavor. The stalk is very strong, sturdy, and of only medium height, the leaves broad and dark green in color; a habit of growth which gives it great endurance during a dry time. Customers are surprised at its large size and early maturity. Pkt., 5c.; pint, 20c.; qt., 35c.; pk., 90c.; bus., \$3.00.

Burlington Hybrid Is not a pure Sweet Corn, but in quality is better than the Adams Corns, and its size and appearance ahead of any Sweet Corn of its season. It combines earlisimilar to sweet corn.

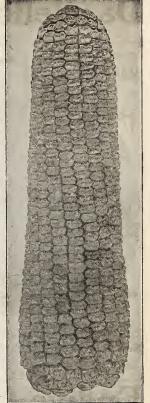

fail to grow this corn.

Pkt., 5c.; pint, 20c.; qt., 35c.; peck, 80c.; bus., \$2.75.

Shaker's Early-A splendid market sort, ready very soon after Early Minnesota, but the ears are much larger, Pkt., 5c.; pint, 20c.; qt., 35c.; pk., 75c.; bus., \$2.75.

Pee-and-Kay-Only a few days behind the earlest. Has an ear about the size of Evergreen. Pkt., 5c.; pint, 20c.; qt., 35c.; pk., 75c.; bus., \$2.75.

Mammoth Sugar-Produces larger ears than any other sweet corn. Pkt., 5c.; pint, 20c.; qt., 35c.; pk., 70c.; bus., \$2.50.

Columbus Market Sweet Corn.

STOWELL'S EVERGREEN-Choice home grown stock. A favorite with canners and market gardeners for late use. Ears large, kernels very deep, tender and sugary; very productive. Remains a long time fit for table use. Pkt., 5c.; pint, 20c.; quart, 35c.; peck, 70c.; bus., \$2.50.

-Egyptian Sweet-One of the best late varieties, and very handsome. Ears large, none more uniform, and excels all in filling out perfectly at the tip end: cob and grain white; very productive. Pkt., 5c.; pint, 20c.; qt., 35c.; peck, 75c.; bus., \$2.50.

SWEET CORN FOR FODDER-Sow thickly in drills, or broadcast, at the rate of 2 or 3 bushels per acre. Peck, 50c.; ½ bus., 75c.; bus., \$1.50; bag of 2½ bus., \$3.00; 2 bags, \$5.50; 4 bags, \$10.00. No charge for bags.

FIELD AND POP CORN-See Farm Seed Department.

Country Gentleman Sweet Corn Extra Selected Stock, Medium Late. The illustration, reduced in size, is an exact reproduction of an ear of our extra selected seed, which, by careful selection and painstaking effort on our part, has developed in size and quality to a point unequalled by any other stock of this variety in our part, has developed in size and quanty we point anequation of any vines score of this variety the country. As a table corn this variety stands unrivalled, and without doubt is the most lucious of all sweet corns. The plump pearly white kernels are of great depth, most delicious, and the flavor will delight the epicure. The ears are just the size to be attractive on the table, have very small cob, and, owing to the heavy husk protection, retain their delicious tenderness beyond the usual period. Pkt., Country Gentleman Sweet Corn. 5c.; pint, 20c.; qt., 35c. By Express-Peck, 80c.; bushel, \$2.75.

Dandelion.

Seed should be sown in May or June on warm, rich soil, in drills half an inch deep, and 1s inches apart. Plants ready for use the following spring. roots, when dried and roasted, are often used as a substitute for coffee. grown for the roots only, sow in September, and cultivate well for one year, when the roots are ready for digging. Large-Leaved - Leaves fully double the size of the common Dandelion. A great advance over the old variety. Pkt., 5c.; oz., 50c.; † lb., \$1.50; lb., \$5.00.

Early Long Purple-Hardler and earlier than New York Purple, acceeding further north, Fruit six to nine Inches long. Dark purple, succeeding further north, Fruit six to nine Inches long. good quality. Pkt., 5c.; oz., 20c.; ¼ lh., 60c.; lb., \$2.00.

New Pearl White The plant is a large, vigorous grower, and comparatively free from thorus. Fruit pure creamy white, with slight shading of a very light green more the stem; beautiful in shape, resembling somewhat the purple variety. In cuting quality it is very delicious, fine grain and well flavored, Pkt., 10c; ½ oz., 25c; oz., 40; ½ (b., §4.50.

Egg Plant.

The Eeg Plant should be more generally grown, for when well grown and properly cooked it is a most delicious vegetoble. The seeds germinate slowly and should be started in fluts or boxes in a strong, milrora heat, and kept constantly growing, because the young plants sublom recover if checked in their growth. Sow the seed in hot-beds or warm greenhouse in March or early April; if no hot-bed is at hand they may be grown in only left and the strong strong the strong strong and the strong strong strong and the march of the strong s not to disturb the roots of the plants.

Livingston's Mammoth Purple.

This splendid variety we obtained by careful selection and extra cultivation, beginning with a true strain of New York Improved Large Purple. The process of improvement was carried on for years, until we now have the finest strain of Mammoth Egg Plant of which we have any knowledge. While immense size was one of the main objects, we did not lose sight of other valuable points essential in a first-class market variety. It is quite early for such a large sort and a sure cropper. Plant large, vigorous and productive. Fruit very uniform in color and shape; very large, usually 7 to 9 inches in diameter, but sometimes specimens are grown measuring 10 Inches. Skin a handsome dark purple, smooth and glossy. Flesh white, of superb quality. We pronounce is the best Egg Plant in cultivation no exception. It is very important that growers have the best seed and variety obtainable, for if poorly grown, irregular in shape or green in color, they are quite unsalable, and your time and money are wasted. Selected Seed, postpaid Pkt., 10c.; ½ oz., 20c.; oz., 35c.; 1 lb., \$1.00; lb., \$3.25.

New York Improved Large Purple—The leading variety known by marketmen everywhere; fruit large, smooth, deep purple; flesh white, good quality. The stock we ofter is flue New Jersey grown. Pkt., 5c; ½ az., 15c; az., 25c; ¼ lb., 85c; lb., \$3 00.

Black Pekin—The fruit is very dark purple, almost bluck, nearly round, large size, smooth and glossy; flesh white, line grained, delicate flavor; matures early. Pkt., 10c., oz., 30c.; ½ 1b., 90c.; lb., \$3.00.

Its leaves make a splendld salad when properly blanched, and one that Is very useful, as It comes in the row. It can also be sown in beds and transplanted to above distinct the row. It can also be sown in beds and transplanted to above distinct state in the row. It can also be sown in beds and transplanted to above distinct statisting sufficient size. The main sowings can ut ransplanted to above distinct effects a ratio of the row of th labowhite. This process takes two to the weeks, according to the temperature, blanching fastest in warm weather. Another method is to lay clean boards over the planta, which exclude the light and air. The up at different times, as it only keeps a short time after blanching. For winter use take up with earth and store in trames or a rive cellar. One

Ever White Curled Endive.

ounce of seed sows 100 feet of drill. EVER WHITE CURLED—The most beautiful variety. Plants moderately dense; leaves coarser than those of the Green Carled, but the mid-rib is yelow and the leaves frequently almost

Large Green Curled Endive. always bring the highest prices on the market. Pkt., 5c.; oz., 15c.; 1, 1b., 10c.; lh., \$1.35.

GREEN CURLED—The hardlest variety, and very desimble for the home and market garden. The deep green leaves are leavist as the curried, easily blunched, and become very crisp, tender and the flavored. Its, 5c; oz., 1c; 2c; oz., 5c; 1; lb, 4c; lb, 5c; lb, 5c; cz., 5c; 1; lb, 4c; lb, 5c; lb, 5c; cz., 5c; lb, 5c;

LARGE GREEN CURLED—A large, coarse, strong growing variety, which, by tyling up, can node to form tinely blanched centers of good quality. Outer leaves well cut, and bright, deep green. Pkt, 5c; oz., 15c; 2 ozs., 25c; 3 db, 35c; (b, 81.50.

MOSS CURLED—A beautiful eurled variety somewhat resembling moss; dark green color; quality fine. 18t., 5c; co., 15c; ½ lb., 30c; lb., \$1.50. BNOAD LEAVED BATAVION—The broad, thick, slightly wrinkled leaves form a large lead will be be preserved for stews and some, but if the leaves are gathered und tied at the top they will blanch intelly and make an excellent saids. 18t., 5c; co., 15c; ½ lb., \$1.25c. lb., \$1.25c.

Hercules Club Gourd.

The Gourd is a tender annual and should not be plantof until all danger from frost
is over, and not less than six
feet apart each way, in good
rich loam. The following varicties will be found useful for household purpose,

besides being very ornamental and serviceable as climbers.

For Ornamental Gourds see Flower Seed List.

Dipper Gourd—Can be used for dippers, the handles being from 9 to 12 inches long, and they hold from a pint to two quarts. When grown on the ground the handles will be curved, as in the engraving, while if grown on a trellis, or a tree their weight will cause them to grow straight. Very convenient for hot liquids, as the handle does not hent through readily. Easily prepared and last for years. Pat., Sec., 30., 20c.; 3 th., 75c.

Hercules Club Gourd-Green fruits, 2 to 6 feet long, Pkt., 5c. Sugar Trough, or Sap Bucket. Selected Stock-flows total and the selected Stock-flows total and the selected Stock-flows total selected Stock-flows to the selected Stock-flows

Bath Sponge, Dish Cloth or Japanese Luffa Gourd—A natural dish cloth and a most admurable one, is furnished by the peculiar lining of this fruit, which is sponge-like, porous, very tough, elastic and durable. Many ladies prefer this dish cloth to any other. Grows about 2 feet in length; vine is very ornamental, producing clusters of large yellow blossoms, in pleasing contrast with the stvery shaded, dark-green foliage. In the Portle stide of the State of t

Sugar Trough Gourd.

NEST EGG GOURD—Japanese Nest Egg—Resemble a hen's egg in color, shape and size. They do not crack, are not injured by cold or wet, and make the heat nest aggs. As the cold or wet, and make the best nest eggs. As the plant is a rapid growing climber it is very useful in covering screens, etc. being quite ornamental. We have a very pure stock of this variety to offer and can recommend it. Fkt., 5c; oz., 30c.; 41b., \$1.0c.

HE NEST EGG GOUR

We sell one packet each of the above Gourds for only 20 cents, prepaid.

arlic. French-Aû.

ric. German-Knoblauch. Prepare the ground as for onions; plant bulbs in early spring, in drills 12 inches apart, 4 inches ow, cover 2 inches deep. Bulbs (postpaid), oz., 5cz. 14 lb., 15c; By express (not paid), lb., 20c; 3 lbs., 50c; (10 lbs., §14.0.

Gherkins.

West India Gherkin-(True)—Also known as caselusively for pickling; smallest of all the varieties of cucumber; always pick when young and tender. Seed slow to germinate, requiring sometimes ten to twelve days. Fitt, 5c; 7c; 19c; 7d; 19c; 10.5; 10.5.

Herbs in general delight in a rich, mellow soil. Sow the seeds early in spring in shallow drills, oue foot apart; when up a few linches thin out to proper distance or translat. Care should be taken to harvest them properly. Do this on a dry day, just before they come into full blossom; dry quickly in the shade, pack close in bottles or dry boxes to exclude the air entirely. Varieties with an "are percentials.

Horse Radish.

The best Horse Radish is produced from small pieces of roots four or five into small pieces of the small pieces of the small pieces of the small pieces of the top will be two inches under the soil. The soil should be very rich and well cultivated. It is hardy and may be left in the total roots of the crop may be pitted late. In the full be desired. A dozen roots will give all that will be needed for family use; as it constantly be reases, it is best to plant it in some out-of-the-way corner of the garden. A very profit-able crop for market gardeners to grow. By a constantly of the small pieces of th

Prices for 1,000 and upwards given on application.

Kale. German-Blatter Kohl. French-Chou Vert Spanish-Berton.

Spanish—Berton.

Borcole, Kalc, or German Greens, are general terms applied to those classes of cabbage which do not form heads, but furnish an abundance of pretty curied leaves that are very ornamental and highly prized as food. Some of the varieties are the most cuder and delicate of the excellent qualities were generally known. Can be greenly from if their excellent qualities were generally known. Can be green some soil, but the richerit is the better the product. Sow from the middle of April to the beginning of May like eabbage, trumsplanted and cultivated the same as

more hardy than cab-bage, and will endure considérable frost without injury.

Dwarf Green Scotch Curled—Is very dwarf and spreading. The leaves are beautifully curled and of a bright green. Hardy; will remain over winter in

Dwarf German Curled Kale. any place where the temperature does not fall below zero. A decided improvement upon the old tall Scotch. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 70c.

Half Dwarf Moss Curled—A particularly fine variety possessing all the merits of both the tail and dwarf kinds; of compact, busly growth the foliage is light green and toward the center vellowish green. The edges of the leaves are so beautifully crimped that it resembles fine curled Parsley, and can be used for garnishing. Pkt., 5c.; oz., 10c.; ½ lb., 30c.; lb., \$1.00.

Siberian Kale, German Greens, or "Sprouts"—Extensively grown as winter greens; sow in September in rows one foot apart, and treat in every way as Spinach, it is very bardy and is ready for use in early spring. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

German Dwarf Purple—A dwarf, compact plant composed of a mass of large, finely frilled leaves of a deep purple color. Tender and of excellent quality. Pkt., 5c.; oz., 10c.; ½ lb., 30c.; lb., \$1.00.

SPECIAL PRICES MADE FOR ANY LARGE QUANTITY.

Kohl Rabi. Turnip Rooted

German-Kohlrabi. French-Chou Rabe. Spauish-Calde Nabo.

When young and tender they are fine for table use; when matured they keep well and are excellent for feeding stock. For early uses sowin hot-bed, transplant and cultivate like early cabege. For whiter uses ow the middle of June or first of July, in rows 18 inches apart, transplanting or thinhing out to 8 inches in the row.

Earliest White Vienna—Smooth, short leaf, excellent for foreing, and of fine quality. Pkt., Sc., 20c., 20c.; ½ lb., 60c.; lb., \$1.75. Early Purple Vienna—Pkt., 5c., 22., 20c.; ½ lb., 60c.; lb., \$2.10.

LETTUCE

German-Lattich Salat

French-Laitue

GRAND RAPIDS LETTUCE.

moist soil, and clean cultivation, on which depends its appearance, tenderness and flavor. For early spring use, sow in a seed bed in September or October, and protect through the winter in cold frames, or in the South with leaves or litter, or sow in a hot-bed in early spring; as soon as the ground can be well worked transplant in good rich ground to rows 18 inches short and 8 inches in the rows. For a

The most used of all salads, is of essy culture, requires rich,

later supply plant every two weeks from the middle of April until July, choosing varieties according to their heat resistance. Sow in drills \frac{1}{2}-inch deep, 18 inches apart, and thin to 12 inches apart in the rows.

One ounce of seed makes 2,500 plants.

Our Improved Hanson—None more reliable for outdoor cultivation. In ground well manured and cultivated the heads grow to a remarkable size, resembling that of a flat cabbage, and so slow to run to seed that it often fails to form a seed stalk. The outer leaves are bright green, the inner leaves white and deliciously sweet, tender and crisp, and free from any unpleasant bitter taste. The stock we offer is the same as that sold by us for many years, and from the fact that we never get any complaints from it we therefore judge it is unsurpassed and gives entire satisfaction. Pkt., 5c.; oz., 10c.; ½ lb., 3c.; lb., \$1.25.

Early White Cabbage—This Old Reliable variety is very tender, has large, solid, greenish-white heads, and stands the heat extremely well. Pkt., 5c; oz., 10c; \(\frac{1}{2}\) lb., 30c; lb., \(\frac{1}{2}\). 81.00.

Black-Seeded Butter—An out-door variety. Excellent in flavor. Pkt., 5c.; oz., 10c.; \(\frac{1}{2}\) lb., 30c.; lb., \(\frac{1}{2}\) lo.0.

Golden Yellow Stonehead A variety of great beauty. Solid heads. Good for forcing or earliest spring crop. Pkt., 5c.; oz., 15c.; 4 lb., 35c.; lb., \$1.00

Tennis Ball—Close, hard, well formed heads. Leaves green, tlick, crisp and tender. One of the earliest, extremely hardy, and well adapted both for forcing and outdoor culture. Either White or Black Seed, each, Pkt., 5c.; oz., 10c.; 1b., 30c.; lb., \$1.00.

Mammoth Marblehead --The largest header of any. As large as a good cabbage, and the cabbage and free from any bitterness. Second early. Pkt., 5c.; oz., 15c.; \(\frac{1}{2}\) ib., 40c.; b., \(\frac{1}{2}\) ib., 40c.; b.

GRAND RAPIDS—While this variety is ESPECIALLY ADAPTED FOR GREEN-HOUSE CULTURE in winter; it is also a GOOD LETTUCE to sow outside early FOB FAMILY USE. It is the result of fifteen years' selection from the Black-Seeded Simpson, which is generally recognized as the standard for forcing for the home market. It is superior to and more beautiful in appearance than the Simpson. It is of rapid, upright growth; may be planted close; not liable to rot, standing several days after being ready to cut without injury; retains its freshness a long time after being cut, hence much sought after by dealers, especially shippers; its quality is very desirable. Pkt., 5c.; oz., 15c.; ½ lb., 40c.; lb., \$1.25.

Tilton's White Star—A favorite with gardeners for forcing or outdoor planting; bright color, crisp, long keeper. Pkt. 5c.; oz. 15c.; \(\frac{1}{2}\) lb. 40c.; lb. \(\frac{1}{2}\).

Buttercup—Plant very distinct and attractive; leaves a beautiful yellow color; very sweet and tender. Pkt., 5c.; oz., 15c.; \(\frac{1}{4}\) lb., 40c.; lb., \(\frac{1}{8}\). 25.

NEW CELERY LETTUCE (TRIANON)—The favorite class of Lettuce in Europe are the Cos or blanching varieties, and this variety is the finest of its class. The Cos varieties are becoming more popular in this country every year. The long, narrow leaves, which form solid heads, almost like a Wakefield Cabbage, bleach and quickly become snowy white. Excels all others in quality; crispness unequaled. The leaves, when blanched are stiff like celery, and can

be eaten in same manner. Pkt., 5c.; oz., 15c.; \$ 1b., 40c.; lb., \$1.25.

ICEBERG—A BEATTIFU LETTUCE WORTHY OF UNIVERSAL CULTIVATION. THE QUALITY IS SIMPLY PERFECT. Large curly leaves of bright, light green, with a very slight reddish tinge at the edges. The unusual solidity of the heads is insured by the large, white main ribs of the leaves, each of which curve to the center, making it impossible for the leaves to open outward and expose the center which is constantly thoroughly blanched. Pkt., 5c.; oz., 15c.; ½ lb., 40c.; lb., \$1.25.

ICEBERG LETTUCE.

Lettuce

Big Boston—Resembles the popular Boston Market, but is nearly twice as large. A most desirable variety for forcing in cold frames, and for outdoor planting. Pkt., 5c.; oz., 15c.; ½ lb., 40c.; lb., \$1.25.

Black Seeded Simpson (Curled)—A very popular sort among market gardeners everywhere. Forms a large, loose head; its nearly white, curly leaves are large, thin, exceedingly tender and of very good quality; one of the very best sorts for growing under glass, as well as for early outside planting. Fine for home market, but not so desirable for shipping as Grand Rapids. Pkt., 5c.; oz., 15c.; ½ lb., 35c.; lb., \$1.00.

Silver Ball—One of the best ALL THE YEAR ROUND Lettuce. A variety of excellent quality; good for early spring, summer or winter forcing; heads SILVER WHITE, compact, with beautifully curled leaves. Pkt., 5c.; oz., 15c.; 1 b., 40c.; 1b. S. 12.5.

Perfiance Summer (Perpignan)—Claimed by many to be A BETTER LETTUCE THAN HANSON. It is certainly unequalled for long standing, and one of the finest large-growing cabbage varieties. It forms Very large solid heads, so firm that they have to be cut open to allow the flower heads to come through when it is desired to have them go to seed. The leaves are a beautiful light green. Pkt., 5c; oz., 15c.; 2t, 1b., 40c.; 1b., \$1.00.

Blonde Beauty (Sunset)—Resists heat; is tender, crisp, sweet and juicy when many sorts have become tough and bitter. Pkt., 5c., oz., 15c.; ł lb., 40c.; lb., \$1.25.

Early Curled Simpson—Does not head, but forms a compact mass of curly leaves of a yellowish-green. It matures earlier than the firm head sorts, hence is very generally grown in cold frames as an early outside crop. Pkt., 5c.; oz., 10c.; à lb., 30c.; lb., \$1.00.

CALIFORNIA CREAM BUTTER—Grand, good butter Lettuce. Heads of good size, round and solid, outside medium green, within the leaves are a rich creamy-yellow color; rich and buttery in taste. Pkt., 5c.; oz., 15c.; \(\frac{1}{2}\) 1b., \(\frac{4}{2}\)C.; \(\frac{1}{2}\) 1b., \(\frac{4}{2}\)C.

Philadelphia Butter, or Early White Head—A lettuce having thick, smooth leaves, formed into a very solid, round head; stands a long time without running to seed. The inner leaves blanch a rich yellow; quality first-class. Pkt, 5c.; oz., 10c.; ½ lb., 30c.; lb., \$1.00.

"Crisp-as-Ice" Lettuce (Introduced by US in 1895). A most beautiful, attractive lettuce of the cabbage type, ful, attractive lettuce of the cabbage type, the as to fully warrant the name, "CRISP-AS-ICE." The glossy leaves are thick, nicely crimped and curled; outside they are beautifully variegated with dark bronze and green. The heads, when cut open, have

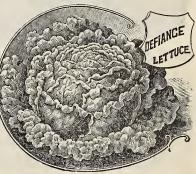

green. The heads, when cut open, have a rich creamy-yellow heart. An exceedingly superior family and home market lettuce. Pkt., 5c.; \(\frac{1}{2}\) oz, 10c.; oz, 20c.; \(\frac{1}{4}\) lb., 75c.; lb., \(\frac{2}{2}\).5.50.

We can also supply the following well-known Lettuces. PRICE OF EACH, postpaid—Pkt., 5c.; oz., 15c.; \(\frac{1}{2}\) lb., 40c.; lb., \$1.25.

Salamander, Curled Silesia, Ferry's Prize Head, Denver Market, Tomhannock, Boston Market, Oak Leaf, Yellow Seeded Butter.

Big Boston Lettuce.

Crisp-as-Ice Lettuce.

Leek

Leeks can be cultivated either by sowing early in the spring in a seed bed and transplanting, or by sowing outside. If sown in a seed bed, when about 6 inches high transplant into deep, rich soil, 5 inches apart; plant deeply, close to their leaves, so that the necks may become blanched. A good watering at time of transplanting is very beneficial. If sown outside, sow early in the spring in rows about 18 inches apart; when 4 inches high thin to 4 inches apart. Transplanted plants always produce larger and earlier Leeks.

Broad Scotch, or London Flag—The hardy kind; large, strong plants with broad leaves. Pkt., 5c.; oz., 10c.; \(\frac{1}{4}\) lb., \(\frac{3}{2}\) 100.

Large Musselberg (Carentan, or Scotch Champion)—A favorite market sort of enormous size; large, broad leaves; flavor very mild and pleasant. Pkt., 5c.; oz., 15c.; & lb., 40c.; lb., \$1.50.

Orna was Janelo, rando

THE LIVINGSTON SEED CO., COLUMBUS, OHIO.

Muskmel

French-Meione

A rich, sandy soil is most desirable for melons. The seed should be planted when the ground has become warm, in hillsisk feet apart each way, old well-rotted marune should be thoroughly mixed with the soil in each hill; put 6 to 18 eeth in the birl; finally, when danger from insects is past, leave 8 or 4 of the strongest plants only. If plants grow very man the tips of the leading shoots should be planted of when about because of the leading shoots should be planted of this; 2 or 3 means of seed for 60 hills; 2 or 3 3 feet long. One or

(本)本、生)使 Named and Introduced Rose by us in 1896. Gems Called by some Rocky Fords. Dewey Gems.

The Celebrated Rose Gem Muskmelon

The illustration is a reproduction of a hotograph of this Improved Netted Gem Meion. The shape, more oval than the original strain, which gives them additional strength to stand shipping. The size has also been improved without losing a day in earliness. The ORIGINAL GEM in the past 18 years has never been as popular as the Rose Gem, which has become famous all over the U.S. in 4 years. We regard it the very best and most profitable extra early melon in existence for market gardeners and shippers. In the hands of Rocky Ford, Col., growers it has made that state famous in eastern markets for melons of unequalled quality. The beautiful green flesh is fine grained, "smooth as butter" and very sweet. Pkt., 5c.; oz., 10c.; 1 lb., 30c.; lb., 90c.; 3 lbs., \$2.50.

Rocky Fords This name is applied by shippers to our New Rose Gem which has become very popular in the last few years. Read description of our

PLANTED 10 POUNDS.

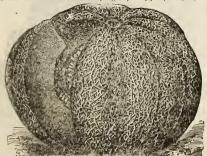

J. W. DAY, Crystal Springs, Miss., March 30, 1898—"I planted 10 pounds of your 'lose Gems' last year and did not find a sport of any kind, and this is saying a good deal."

WANTS 10 TO 20 POUNDS.

A. J., Wyche, Fla.-"Can you sell me 10 to 20 pounds of your 'Rose Gem' melon seed? I planted some of them the past season and found Gem melon seed? them extra fine."

Hackensack-(Turk's Cap)-A General Crop Melon. It is round, well netted, and of large size; flesh green and thick; delicious flavor; beautiful in appearance. Very popular the country over. Pkt., 5c.; oz., 10c.; & lb., 20c.; lb., 65c.

Emerald Gem-Medium size; nearly round; flesh a delicate light salmon color, very thick, fine grained, and of most excellent flavor. The rind is thin, dark green, ribbed, but not netted. One of the best for home use. Pkt., 5c,; oz., 10c.; \(\frac{1}{4}\) lb., 20c.; lb., 55c.

Extra Early Hackensack Melon

It produces melons equally as large and with all the good qualities of the well-known Hackensack, but two weeks earlier; heavily netted, and has light-green flesh of delicious flavor. Its shape and solidity admit of its being packed very closely in crates for shipment, and it will keep in good condition for several days after picking. The seeds do not shake loose en route, as in many other sorts. Pkt., 5c.; oz , 10c.; 1 lb., 25c.; lb., 60c; 3 lbs., \$1.75.

Livingston's Market Melon

Many years were spent in perfecting this decidedly distinct and beautiful melon. A most valuable characteristic is its close, strong netting. Its vigorous growth gives it great hardiness and ability to withstand drouth, blight and bugs. Its beautiful shape and handsome appearance are remarked upon when placed side by side on the market bench or counter with any of the popular sorts of the day. It ripens only a few days after Early Hackensack, is more prolific, more uniform, bears longer, and the fruit is more solid; seldom bursts at blossom end; flavor and quality are all that can be desired. It is green fleshed, with small seed cavity. A valuable sort for a general crop. Pkt., 5c.; oz., 10c.; ‡ lb., 25c.; lb., 80c., 3 lbs., \$2.25, postpaid.

Kinsman Queen Muskmelon.

Baltimore Nutmeg-Cantaloupe-(ORIGINATOR'S STOCK.)—Has a beautiful heavily netted green skin; good size; in shape a desirable and distinct oval, and slightly ribbed: flesh thick, green, very finely flavored, smooth and sweet; very productive, and NEVER BURSTS OPEN AT BLOS-SOM END. Pkt.,5c.; oz.,10c.; 1 lb.,20c.; lb.,55c.; 3 lb.,\$1.50.

KINSMAN QUEEN-"A cross between the 'Emerald Gem' and an old variety of large size and excellent quality. It is among the first to ripen, and is very large in size for an early melon. Will average three times as large as the 'Emerald Gem.' Nearly round in shape. Color, yellowish-green outside, and is slightly ribbed and netted; flesh deep salmon color, juicy and delicious." Pkt., 5c.; oz., 10c.; \(\frac{1}{4}\) lb., 25c.; lb., 75c.

Improved Acme or Baltimore Nutmeg.

Shumway's Giant-Mammoth in size, often as large as a water bucket; flesh a salmon color; flavor pleasant. Pkt., 5c.; oz., 10c.; 1 lb., 30c.; lb., \$1.00.

MONTREAL MARKET-THE LARGEST ROUND MELON IN THE WORLD, weighing 15 lbs. and upward, (they have been grown to weigh 39 lbs.) To all who wish to grow the handsomest melon possible for exhibition, or extra large ones for market, we recommend this one. The shape is almost round; deeply ribbed; skin green and densely netted; flesh remarkably thick, light green, and of fine flavor. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 60c.

Early Green Flesh Nutmeg-The Oldest Nutmeg of All, and one of the very best; highly scented flesh, thick, sweet, and finely flavored; of good size and quite early. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 60c. THE OSAGE-A favorite yellow fleshed variety. Large, oval, slightly ribbed and

netted; SKIN VERY DARK GREEN; flesh a deep, rich, salmon, sweet, highly flavored and delicious to the rind. The whole crop is very even and fruit extra heavy, owing to the thickness of the meat. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 60c.

Banana Melon-18 to 24 inches long. Yellow flesh, blending from bright green to

rich salmon. Early. Fragrant and delicious. Pkt., 5c.; oz., 10c.; 1 lb., 30c.; lb., 85c.

Osage Muskmelon.

Banana Musk melon.

List of Good Standard Muskmelons.

THE COLUMBUS-A GREEN FLESHED melon for general

crops, and is a heavy yielder. The vines are strong and thrifty; melons, if left on the vine a week after they are ready to pick, still

retain their good quality. Its beautiful buff skin is covered with a very thick whitish netting. Almost entirely free from ribs. Can be shipped long distances. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 65c.

Long Island Beauty-A splendid new variety of the Hacken-

sack type. It is of very superior quality, with green flesh and densely

The following good varieties will be furnished at the uniform price of Cents per packet, 10 Cents per ounce, 20 Cents per by nound, and 60 Cents per pound. Deduct 10 cents per pound from these prices if seeds are ordered sent by express or freight. 15 cents per pound may be deducted for 5 pound lots.

Champion Market-Very productive; medium size; green flesh.

Giant Chicago Market—This fine sweet melon is very large; deep rib-bed; green flesh. Largely grown for Chicago market.

Perfection (Princess)—Medium size. Dark green skin, heavily netted; flesh a rich orange color; very sweet.

Jersey Belle—An improved Jenny Lind, double in size, and has all the excellent qualities of the Jenny Lind.

Large Green Nutmeg-Large. Round. Green fleshed. Fine flavor.

Bay View-The leading oblong green fleshed melon. Ready seller. Miller's Cream-Flesh a rich salmon; very sweet and melting.

Banquet-Medium size; flat at both ends; netted. Color dark rich salmon; very fine.

Jenny Lind-Fruit small, round-flat in shape; greenish color when ripe; enormous cropper.

Cassaba-Large oblong, like Bay View, but more pointed.

Surprise-Shape nearly round: thin, cream colored skin; flesh thick, salmon color; good size; carly.

Reedland Giant-Mammoth size, often reaching 25 lbs.; oblong in shape; flesh green.

Winter Pineapple Melon.

Introduced into California from Cassaba, Asia Minor, by one of our customers. Its peculiar shape and corrugated skin is quite accurately shown in the cut. Rind very thin, of a rich yellow color tinged with green. Flesh firm, light

green in color; delicious pineapple flavor. A wonderfully long keeper. Melons seldom ripen on the vine but should be carefully picked off after first frost and stored like squashes in a dry, cool place. Bring into a warm room a few days previous to using. If carefully handled they may be kept late in the winter. Many specimens weigh from 15 to 16 pounds. HEADQUAR-TERS SEED STRICTLY FIRST-CLASS. Pkt, 5c.; oz., 10c.; ½ lb., 30c.; lb., 90c.

Watermelon.

A light, sandy soil, with good exposure to the sun, is the best for Watermelons. It should be prepared deep, but receive shallow cultivation. Hoe often and thoroughly. If extra large melons are desired for exhibition purposes leave but one or two melons on a vine. Plant in hills 8 to 10 feet apart each way, with a shovelful of well-rotted manure mixed with the soil in each hill. If commercial fertilizer is used it should contain a large percentage of ammonia and potash. Plant 8 or 10 seeds in each hill, and, finally, when danger from insects is past, leave but three strong plants.

One ounce of seed for 30 hills; I or 2 pounds to the acre.

Livingston's Nabob Watermelon.

A NEW, DISTINCT AND BEAUT!FUL MELON. Named and Introduced by Us in 1895.

THE BEST FOR THE HOME GARDEN.
THE BEST FOR THE MARKET GARDEN.
THE BEST FOR THE SHIPPING TRADE

Its hardy vines are vigorous, healthy and productive, its fruit large and heavy (30 to 50 lbs.) resembles the Kolb Gem in shape and uniformity, but differing in color, being attractively and peculiarly mottled, rather than distinctly striped. The rind, though thin, is very firm. Two average-sized men have stood, bearing their weight, on a NABOB weighing 30 lbs., without cracking the rind or injuring the melon. The fruit keeps long in good condition, is not excelled inshipping qualities; seeds dark buff or dun color; flesh deepest scarlet, firm, solid, and of richest flavor. We have had it thoroughly tested on different soils, in various climates, and under unfavorable as well as favorable conditions, and all praise its good qualities. Pkt., 5c.; oz., 10c.; \(\frac{1}{4}\) lb., 25c.; lb., 75c.; 3 lbs., \(\frac{8}{2}.00\), postpaid.

RUBY GOLD—A new, large, long melon; flesh solid, pure golden-yellow, varie-gated with streaks and layers of bright pink. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 60c. PHINNEY'S EARLY WATERMELON-Few, if any, of the early

sorts surpass this old favorite. It is first to ripen, of good size and productive; shape oblong; rind a distinct mottled color; the flesh is a deep red; early market melon. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

SEMINOLE-One of the best large, long Florida melons. EARLY, ENORMOUSLY PRODUCTIVE AND OF MOST DELICIOUS FLAVOR. It is of two distinct colors-gray and light green. Melons of both colors, the same in size, shape, color of seed, flavor, etc., are found on the same vine. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 60c.

MAMMOTH IRONCLAD-Immense size, handsomely marked, and oblong in shape; flesh red and very solid; the heart is large, and flavor delicious. A heavy yielder. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

KOLB'S GEM-Flesh bright red and of good flavor. It is one of the largest (30 to 50 lbs.), most productive and best keeping melons grown. OUR STOCK CANNOT BE SURPASSED. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.; 3 lbs. for \$1.25, postpaid.

THE JONES-Outside color, solid green. Flesh bright red, sweet juicy and melting. Large size; resembles Kolb's Gem in shape, and splendid shipper. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 60c.

GREEN AND GOLD-Golden-orange fleshed variety of good size (25 to 3.1 lbs.); early; productive; flesh juicy, very sweet and of delicious flavor. Pkt., 5c.; oz., 10c.; \(\frac{1}{4}\) lh., 20c.; lb., 60c.

Phinney's Early Watermelon.

HOOSIER KING-Melons grow oblong. Flesh brilliant red, very solid, sweet and luscious. Skin striped light and dark green; rind very thin but EXTREMELY HARD, making it A VALUABLE SHIPPING SORT. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

JUMBO-From Georgia, the home of the Watermelon. Color of the skin is solid dark green, and the flesh a very bright red, particularly sweet, juicy and melting. It grows to a large size, sometimes 80 lbs., with plenty of them at 40 to 60 pounds. One of the beetshipping sorts. Pkt., 5c.; oz., 10c.; \(\frac{1}{4}\) lb., 20c.; lb., 60c.

IMPROVED DIXIE-Beautifully striped, is surpassed by few, if any, for shipping or for table, the flesh being very red, sweet and juicy; all that can be desired in quality, flavor, etc. after it is ripe for several days and still retain its excellent qualities. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lh., 60c.

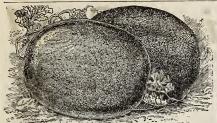

COLE'S EARLY-Very hardy, a sure cropper; extremely delicate in texture of flesh, which is a dark red; rind thin, very brittle. We recommend it for home use. Medium size, nearly round; rind green, striped with lighter shades. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 60c.

FORDHOOK EARLY-Largest early melon grown. Fruit large, round; outer color medium green. Flesh bright red, of fine quality. A good shipper. Pkt., 5c.; oz., 10c.; ½ lb., 25c.; lb., 75c.

McIVER WONDERFUL SUGAR-A large, oblong melon of handsome appearance; skin shows broad bands of white, with narrower ones of green. Its soft pink flesh is crisp, juicy, and solid to the center. Pkt., bc.; oz., 10:; 1 lb., 20c.; lb., 60c.; 3 lhs., \$1.50.

McIver Wonderful Sugar Watermelon.

Sweet Heart This new melon is early, large, handsome, heavy and productive. Shape is oval; color Watermelon mottled light to very dark green. Flesh bright red, solid, tender and very sweet. We have a very fine stock grown from selected seed procured from the originator, hence it is pure and true. Pkt., 5c; oz., 10c.; 1 lb., 20c.; lb., 55c.

Ferry's Peerless—One of the best for home gardens and market gardeners who deliver direct to customers. Medium size, fissh red, white seed; first-class. Pkt., 5c.; oz., 10c.; \(\frac{1}{4}\) lb., 20c.; lb., 50c.

Preserving Citron-Red seed; used for sweetmeats and preserves; flesh solid, white. Pkt., 5c.; oz., 10c; 1 lb., 20c; lb., 60c.

Colorado Preserving-Larger than the common Citron, weighing 25 to 40 lbs.; flesh very solid; makes very clear, transparent preserves of fine flavor. Pkt., 5c.; oz., 10c.; ‡ lb., 20c.; lb., 60c.

Mountain Sweet-One of the oldest and best known; skin deep green; large; rind thin; flesh deep scarlet. Pkt, 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

Georgia Rattlesnake or Gypsy-Very large, long, smooth and distinctly striped; flesh bright scarlet. Pkt., 5c; oz., 10c.; 1 lb., 20c.; lb., 50c.

Dark Icing-Very solid; thin rind; highly prized as a shipper. Pkt , 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

True Ice Cream The Great Home Market Melon. This old stand-by is our best general Watermelon. cropper for the home market; has too thin a rind for shipping unless packed in straw. We have sold it for many years to our most extensive Scioto Valley melon growers, for whom it brings highest prices, and meets with ready sale regardless of other varieties that may be on market, because it has become a great favorite with Columbus melon dealers and consumers. Few, if any, surpass a True Ice Cream for quality and productiveness. Medium early, fruit oblong, large size; rind light mottled green; flesh bright scarlet, solid to the center, melting and delicious. Pkt., 5c.; oz., 10c.; 1 lb., 20c., lb., 55c.; 3 lbs. for \$1.50.

Cuban Queen-This is a large variety, often weighing 80 lbs. and upward; striped light and dark green; an enormous cropper. Pkt., 5c.; oz., 10c.; & lb., 20c.; lb., 50c.

Jordan's Gray Monarch-Very large; mottled gray; long; flesh bright crimson. Pkt., 5c.; oz., 10c.; 1b., 20c.; lb., 60c.

Pride of Georgia-Dark green; oval; a good shipper. Pkt. 5c.; oz., 10.; 1 lb., 20c.; lb., 50c.

The Boss-Oblong; nearly the same diameter throughout; skin a black green; flesh deep scarlet. Pkt., 5c.; oz., 10c; 1b., 20c.; lb., 55c.

Black Spanish-Large, round, very sweet, scarlet flesh. Pkt., 5c.; oz , 10c.; 1 lb., 20c.; lb., 60c.

One of the most profitable crops for the outlay that can be grown. The market is sure, because the supply never equals the demand. Mushrooms

can be grown in any dark room or cellar where the temperature can be

Mushrooms

kept at 50 to 70 degrees. From some old pasture procure good rich soil and store it away. To every bushel of this add two bushels of fresh horse manure. Of this well mixed compound prepare a bed, say 4 feet wide. Put down a thin layer and pound it down hard, and so on until the bed is 12 to 18 inches thick. It soon becomes pretty hot, but let the heat recede until it is only 85 or 90 degrees. Then make holes, say a foot apart, and put in the spawn, two or three pieces as large as a walnut to each hole. Cover the holes and press the soil solid and smooth. Let the bed remain in this condition about 12 days; then cover the bed with two inches of fresh loam, and over this put 4 or 5 inches of hay or straw, and the work is done. If the temperature is right, in 6 or 8 weeks you may expect Mushrooms. The beds will continue bearing from 20 to 30 days. After the first crop is gathered, spread over the bed an inch of fresh soil moistened with warm water,

uniform temperature and very rich soil. One pound of spawn is sufficient for a bed 2 x 6 feet. We import our Spawn from the best makers in England. We would advise Mushroom Growers, especially beginners, to get a book on the subject, writ-tend full by au experienced grower, such as "Falconer's Mushrooms and How to Grow Them." This book will be sent by us for \$1.50, postpaid.

and cover with hay as before. The main conditions in Mushroom growing are proper and

English Mushroom Spawn—By mail, postpaid, per Brick, c.: 5 lbs., \$1.25. By Express, at buyer's expense, 10 lbs., \$1.00; 25 lbs., \$2.40; 50 lbs. at 9c. per lb.; 100 lbs. or over at 8c. per lb.

French Mushroom Spawn-Put up in boxes of 2 lbs. each. Price, per Box, 75c.; by mail, \$1.00; the same loose, per lb., 35c.; by mail, 45c.

German-Senf. French-Mouearde. Spanish-Mostazoe.

Mustard is not only used as a condiment, but the green leaves are used as a salad or cut and boiled like Spinach. Cultivate same as Cress.

SOUTHERN GLANT CURLED—Very highly esteemed in the South, where the seed is sown in the fall and plants used very early in spring sa salad. Seed, brown. Produces plants two feet high; forms enormous bunches. Pkt., 5c.; 0z., 10c.; ¼1b., 25c.; 1b., 80c.

WHITE ENGLISH—Leaves light green, mild and tender when young; seed, light yellow. Pkt., 5e.; oz., 10c.; 1/2 lb., 15e.; lb., 35e.

BROWN OR BLACK MUSTARD—More pungent in flavor than the White. Pkt 5c.; oz., 10c., ¼ lb., 15c.; lb., 40c.

NEW CHINESE - A giant curled variety with leaves double the size of the ordinary. Pks., 5e., oz., 10e.; ¼ lb., 25e.; lb., 75e.

Martynia A bardy annual plant, the seed pools of which, if picked whom green and tender, make excellent pickled ground, about 3 feet apart each way, leaving but one plant in the bill.

PROBOSCIDEA-Pkt., 5e., oz., 25e.; 1/4 lb., 75.; lb., \$2.50.

H. E. Balthaser, Ohio, Feb. 20, 1900.—"Your seeds are all O. K. They come well and grow from the start. I find them just as represent ed. We have been using your seeds for several years and find them No. 1. They are the best we have ever tried."

Chas. Edwards, Ohio, April 2, 1900—"The Dark Icing Watermelon seed that I received from you last season proved to the best melon we grew; I sold them in three counties, and they weighed from 50 to 60 pounds each."

Livingston's Onion Seed Superior & M Onion Seed

We take Pride in the record of our fine strains of Onlon Seed. Having grawn Omous for many years, for market as well as for seed purposes, we are in position to fully appreciate the necessity there is for using great care in the selection of the bulls to raced production. There is no cray which depends more upon the quality of the seed. The seed we offer, we are sure, is not surpassed any where, and is throughly tested for vitality before it is sent some present of the seed. The seed we offer, we are sure, is not surpassed any where, and is throughly tested for vitality before it is sent our to produce an ubundance of well-shaped bulbs, free from sentlions or attiffences. Our aim is to always sell in transmitted prices and as low as any in the trade offering strictly first-class seed.

Culture
Onlon Seed should be sown as soon as possible in the spring, even if the weather is cold, so the soil works weeds and before dry weather sets it. After incomplety pulverling the soil, sow thinty. 4 to 5 pounds to the acre, in drills one foot apart and about 3, inch deep, in strong land, well manured. When well started, say four inches high, thin out to stand three or four inches apart in the drills, keeping them will hove an some and succeed well if grown for a succession of years on the same ground. To get heavy crops of finest shape and high colored bulbs, especially Danyers and other tiobes, large quantities of well rotted manuremust be used. It is 25 or or he prefare would

Large Red Globe.

Large White Globe.

Yellow Danvers Flat A splendid onion for either market or home use; flatter than Globe Danvers. Pkt., 5c.; oz., 15c.; \(\frac{1}{2}\) lb., 35c.; lb., \(\frac{5}{2}\)1.00.

Extra Early Flat Red—A good medium sized variety, very uniform in shape; smaller than Red Wethersfield, but two weeks earlier; an abundant producer; good keeper; very desirable for early market. Pkt., 5c.; oz., 15c.; ½ lb., 35c.; lb., \$1.00.

Early Red Globe (Danver)—A handsome variety; good keeper; skin deep red; flesh fine grained; flevor mild. Pkt., 5c; oz, 15c.; ½ lb., 50c.; lb., \$1.50.

White Portugal or Silverskin Matures early; large size; mild davor; excellent for winter; much esteemed for pickling when small; a handsome big onion. Pkt., 5c.; oz., 20c.; 1 lb., 60c.; lb., \$2.00.

Large White Globe Ey careful selection and cultivation where the handsomest of all white varieties until it is second to none as a good keeper. Yields abundantly, producing handsome, large, pure white globe-shaped bulbs; flesh firm, fine grained, mild flavor. Pkt., 5c.; oz., 20c.; ½ lb., 60c.; lb., \$2.00.

Large Red Wethersfield

For General Purposes, the country over, no red deep purplish red. One of the bast keepers. We have grown it or narious soils for nearly 40 years and cannot recommend it too highly as a general cropper and a variety that will do well anywhere that large onions can be grown. Yields enormous crops when the conditions are favorable. Pkt., Dec.; oz., 10e.; ½ lb., 30e.; lb., \$1.00.

Large Red Globe (Southport)—Our strain of Red Globe Onion is carefully selected to the large, almost globular, small necked type, being entirely distinct from the ordinary Red Globes sold today. The skin is the most highly colored of all onions, being a deep glossy crimson, making it very showy when ready for market. Our stock of seed this season is heavy and plump. We advise all onion raisers to plant our strain Red Globe. (See cut.) Pkt., 5c.; oz., 15c.; ½ lb., 35c.; lb., \$1.20.

Select Yellow Danvers Globe Grown extensively as a main crop. A beautiful golden color; medium size, quite early, bottom nearly flat, oval top, small neck; very prolific; first-class keeper and shipper. The strain we offer can be excelled only by our Ohio Yellow Globe. Pkt. 5c; oz., 15c.; ½ lb., 35c,; lb., \$1.25.

Large Yellow Globe (Southport)—Very large; fine oz., 15c.; ½ lb', 40c.; lb., \$1.25.

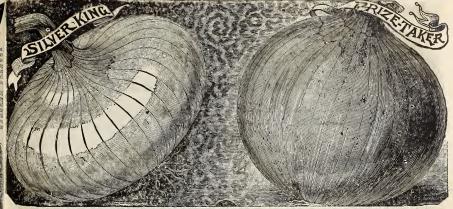

Large Yellow Dutch
The well-known flat, bright yellow onion; a good keeper;
larger than Danvers. Pkt, 5c; oz., 15c.; \(\frac{1}{4}\) lb., 40c.; lb., \(\frac{1}{8}\) 100.

Philadelphia Yellow Strasburg—A splendid yellow variety of fair size, and the BEST YELLOW for growing a BRIGHT, ROUND, PLUMP SET. Pkt., 5c.; oz., 15c.; ‡ lb., 40c.; lb., \$1.20.

Philadelphia White Silverskin—A good sized white, and grows a most beautiful, firm, round, pearly white set. Extensively grown. Pkt., 5c.; oz., 20c.; & lb., 70c.; lb., \$2.25.

HENRY MILLER, Cayuga Co., N. Y.—"This I will say for your seeds: I never had a finer or larger crop of Onions in my life than I had last year. Seemed as though every seed came. They are rightly named TRUE BLUE SEEDS"

Imp. sarge vero those

Mammoth Silver King of attractive shape with silver-white skin, and flesh of a most agreeable mild flavor. It

mutures quite early and reaches a much larger size than any other of the flat varieties, frequently measuring twenty inches in circumference, and weighing from 3 to 5 pounds when well grown. They MUST BE SOWN THINLY to produce large onions. We have sold this onion for ten years, and do not hesitate to recommend it as one SUTC to please the grower. True American Grown Seed. Pk., 5c.; oz., 20c.; 2 ozs., 35c.; ½ lh., 60c.; lb., \$2.00.

Australian Brown Onion A VALUABLE EMEM YARITY FROM AUSTRALIA, medium size, hard and solid, attractive for market, both as to form and appearance. Extremely early in ripening, and NEVER MAKE ANY STIPP-NECKS OR SCULLIONS. Every seed seems to produce a good-sized onion. It has the reputation of keeping indefinitely. The color of the skin is a clear amber-brown. Pkt., 5c.; oz., 20c.; 2 ozs., 30c.; ½ lb., 50c.; lb., 57c.; postpaid.

G. F. JOSLIN, N. Y.—"The Ohio Globe, sown right along side of other onions, yielded double with much less care and I think they are ahead of most onions. I shall praise them until you find something better. I raised the largest and smoothest onions this year I ever raised, selling them for a higher price than others.

thing better. I raised the largest and smoothest onions this year I ever raised, selling them for a higher price than other.

JOHN W. HENRIE, Clay Co., Mo.—"The Ohio Globe Onion Seed I hought of you has proved to be the best I ever raised onions from, and no one need to be arraid to try them."

PETER MATTIMORE, Mass.—"Your seed last year proved fine.
Nothing to compare with Ohio Yellow Globe Onions."

New Brown Beauty Onion

For over 30 years the Market Gardener's Tavorite Onion for this Market.

For winter and early spring it is hard to beat. Harly and solid; keeps anywhere in good shape until late spring, where other onions would be frozen or growing, or worthless. A medium flat variety, of good size, cures down early and perfectly; skin dark brown; flesh white and of desirable flavor. Being so hardy it is good for nutting out early for green bunch onions. Set growers should not fail to test this onion, as no other sort equals it for keeping qualities. Pkt., 10c; oz., 20c; ‡ lb., \$2.35.

A few Quotations taken from reports of Customers.
It is a dandy." "Very pleasant flavor" "Kipened Auz. 10h.
keeping meely, a fine one." "Without exception the very finest Have
ever grown." "Very firm; good keeper." "Eating qualities fine;
best lever raised." "The favorite of all."

FOR IMPROVED LARGE YELLOW GLOBE ONION SEE NOVELTY PAGES IN FRONT PART OF THIS CATALOGUE.

Prize-Taker
This is the large, beautiful Spanish variety sold in the fruit stores and in the markets of all the large cities. They are of ENORMOUS SIZE, averaging from 14 to 16 inches in circumference. Although of such great size, it is very hardy and a good winter keeper. Outside skin is rich yellow, while the flesh is white, sweet and tender. They bottom well, are free from stiff-necks and have produced more hushels of marketable onions to the acre than any other variety in America. In market they attract attention, sell readily at advanced prices. True American Grown Seed. Pkt., 5c.; 5c., 2c., 20c.; 2 ozs., 30c.;

Ohio Yellow Globe

LIVINGSTON'S EXTRA SELECTED STOCK.

Generally admitted by seedmen and onion growers everywhere to be the most desirable strain of periect type Globe-Shaped Onions in existence. We name it "Ohio Globe" to designate it from the many strains of Globe Danvers now offered; besides to Ohio growers belong the honor of producing, by many years of painstaking care, relaction and cultivation, the, the finest strain of that exterme type of Globe now so eagerly sought after by all of the best growers, and so deservedly popular in all large onion markets. Its main points of excellence are: Distinct and attractive shape, handsome, bright, even color, ripens carly and all at once. Necks very small, and cure down to almost nothing. The firm, solid bulbs are excellent winter keepers, and all that can be desired in size and quality; enormous yielders; 810 bas, (standard weight) per acre are frequently grown on rich onion land. This is a superb onion for all classes of soil (well enriched) and especially good for muck lands on account of its quick maturing qualities. Pkt., 6c; oz., 15c; 2 ozs., 2.c.; 15c, 40c; 15c, 140c; 15c, 120c.

Spanish and Italian Onions.

have given good satisfaction. We recommend them as very desirable for summer and mitimin markets because they gen-erally command ready sales at good prices, es-pecially when grown by truns-planting. They are also valuable the family garden. quantitles are grown South and shipped to north-

EXTRA EARLY BARLETTA-very earliest onion in cultivation. When mattered the tops die down, leaving beautiful and perfect little bulbs. Pure white; inild and deflente; perfectly adapted for pickling and table use, and makes a pretty bunch onlon, especially if grown by the transplanting method. Pkt., 5c.; oz., 20c.; ½4b, 75c.; lb., \$2.25.

REAPOLITAE MAGGIAJOLA—(Italian May Onton)—A brige, flut, beautiful, shiver-white skinned variety; one of the earliest of all. Can be sawn in February or Murch and will muture a crop very early; or if sown in July the crup will be matured the same season. In the South the seed can be sown in antumn, and large onions gathered in March. Pix., 6c.; oz., 20c.; 3/4 [b., 60c.; bl., \$22.5].

MAMMOTH POMPEII - (Red Garganus, Copper King) - A very fine variety. It has produced onlons weighing four or tive pounds each. The skin is, a delicate red, flesh close grained and nearly white, and of very mild flavor. Pkt, 5c.; oz., 20c.; ½ lb., 75c.; lb., \$2.50.

Spanish King-Pkt., 5c.; .oz., 20c.: White Queen— A pure white small flat oulon, 1 to 2 in. In diameter. Sown In early spring will ripeu in July. Very mild flavored; ex-cellent for pickling Pkt., 5e.; oz., 20e.; 14lb, 75e.; lb.\$2.50

Red Victoria— Has a distinct oval shape; can be grown to weigh 2 to 4 bs, Skin dark red, flesh white or rose colored, mlld and sweet. A good keeper. Pkt., 5c.; keeper. Pkt., 5c.; oz. 15c.: 11b., 50c.; lb., \$1.80.

Extra Early Pearl Onion.

EXTRA EARLY PEARL—("Silver White Ætna," "Blooms-dale")—A very fine and very early variety. The bulbs, when well grown, are large, round, flattened, with a delicate pure white skin; llesh very mild in flavor. Pkt., 5c.: oz., 20c.; 1/4 lb., 60c.; lb., \$2.25.

Gint Rocca—Light brown skin, globular in form, fiesh tender and mild. It will produce an Immense union from seed the first season. To attain the largest growth the smallest bulbs should be set out the next spring, when they will continue herressing in size instead of producing seed. Pkt., 5; oz., 16e.; 7 b., 40e.; th., 8, 15.6.

Round White Silverskin.

White Victoria-A beantlini, large, round variety with silver-white skin, but sometimes of a delicate light

Bermuda Island Unions.

BERMUDA ISLAND RED—Genuine Imported direct from Teneriffic—A very entry had red outon, grown extensively in the Bermuda and southern parts of the United States for early shipping to northern markets. Grown in our climate, the bulbsare smaller, but mature early and retain much of the mild sweet flavor of the Imported oues. Pkt., 6c; 10z., 20c; 1/4 [b., 08c; 1.b., \$2.15.

Bermuda Island White-Mild flavored; white in color; otherwise to a red. Pkt., 5c.; oz., 20c.; J. lb., 60c.; lb., \$2.15.

Onion Sets. For Prices see

Bottom Sets are produced by sowing the seed very thickly (10 to 60) pointly to the area as early as the ground can be worked in the spring, in bests or broad trills, and not thinning out. About the inde die of July, or whenever the tops die down, insually when about half grounds day or two, when the tops should be wring off by hand, put into shallow trays or spread thinly in a dry loft; sets should be planted out as early in the spring as the ground is dry enough to work, in rows one foot apart, with sets two inches apart; the onlons can be used in the green state in June and will ripe an in July.

TOP SETS, OR BUTTONS—"Toppys"—These produce the small clusters on the top of the stem, where seed is produced in the common kinds. These small ones are planted in the spring mid the result is barge ontons, and these large ones, with one year's growth, produce the

What Esystian, or Perenaial Tree—When once set out it grows for years without protection or entre, except in keeping down the weeks. It starts so early in the spring that it is ready for use a long time before any other onlones can be had. It is mild-flavored, sweet and tender. They form no large bulbs, but divide and grow as many as afficen or twenty small onlones in a bunch. Desirable for family use, and very profitable for market gardeners.

POTATO ONIONS—Esteemed by many as the best for early use; large size, mild, sweet theyors, very early, and large producers; the small buthsare planted in the spring and increase in size, and the purent bulb, planted in the fall and spring, produce a quantity of small builts in a cluster, growing mostly on the top of the ground.

cluster, growing mostly on the top of the ground.

WHITE MULTIPLIERS—Are a pine silvery-white color, enormously productive, frequently producting as many as twenty bulbs in a single bulb planted; of excellent quality and size for bunching green; or can be ripened for use as picking onions. Their bunching green; or can be ripened for use as picking onions. Their cheping qualities are remarkable, but their most important quality is their extreme earliness, being ready for market three to four weeks ahead of other onnon sets.

ONION SET PRICES—Prices are based on the present market quies and are sabject to change, according to the autorit, without notice. The market factuates very much, hence we do not care to make a fixed price. Lowest market prices on small or large quantities with given on application at any time. At banket, peck and half-peck prices the buyer pass the capress or freight; at plat and quart prices we pay the postage.

Okra, or Gumbo.

One of the most whole some vegetables of the South sonp of themselves, or with other ingredients, and when pickied are a fine salud. Plant seed after the ground is warm, thickly in drills 3 feet apart, thinning to one fact. Make early and late sowing to secure supply throughout the season. No trouble to grow in any good

troible to grow in any geosa-garden soi. Velvet—Decid-olly the best variety. Dis-tinct in appearance; unlike the distribution of the pro-ridged, but perfectly round, smooth, and attractive white velvety appearance, of supe-rior flavor and tenderness. Cammantively dwarf, of Comparatively dwarf, of compact, branching growth; the extra large posts are produced in great abundance. Pkt., 5c.; oz., 10c.; 1/2 lb., 20c.; lb., 50c.

White Velvet Okra.

Peppers. German-Pfeffer. French-Piement. Spanish-Piemento. German-Pfeffer.

Mammoth Ruby King.

Peppers should be started in a hot-bed or cold frame and trans-lated about the close of May in a sunny location, in rows about two feet apart each way. May also be sown in the open ground when all danger of frost is passed, and the weather has become scrited and the soil warm, and trunsplant as above, when the plants are there or four inches high. Some very rich fertilizer stirred into the soil when the plants are about itsik inches high will be found very beneficial to the crop. One ounce of Seed for 1,000 Plants.

Cardinal Pepper.

Mammoth Ruby King-Entitled to head the list. Of immense size and the mildest of all varieties. Ordinarily they grow four to six inches long, by three to four inches thick. When ripe they are of a beautiful, bright RUBY RED COLOR, and are always remarkably mild and pleasant to taste. They can even be sliced and eaten with pepper and vinegar (like tomatoes or cucumbers), and make a very pleasant and appetizing salad. The plant is of sturdy, bushy habit, and each plant produces from six to twelve handsome fruits. They should not be grown near the hot varieties or they will partake of their fiery nature. Choice Seed-Pkt., 10c.; ½ oz., 15c.; oz., 25c.; ½ lb., 75c.; lb., \$2.45.

Cardinal—A new pener with long, curred tapeing pods, about two thoses thick at the stem end; very sweet and tender, and exceedingly handsome. Nothing equals it in depth, purity and briliancy of color. It is worthy of cultivation for its beauty alone. Pkt. 5c. 3/5 oz., 16c, 0z., 26c, 1/8 lb., 65c, 1/8, 5c. 3/5 oz.

Golden Queen—This is a very beautiful and a large variety. Pkt., 10c.; ½ oz., 15c.; oz., 25c.; ½ lb., 75c.; lb., \$2.75.

Kaleidoscope—A novel and beautiful pepper; are of a light yellowish cream color. When fully grown color. When fully grown they commence to change color, first to a lovely canary yellow, then to a deep orange, then to a rose, or pink, and so on through different shades until they are an intense scarlet: plant bearing hundreds of peppers showing six or eight distinct colors, is an object of great beauty. Its flavor is clear and sharp. Pkt., 5c.; ½ oz., 15c.; oz., 25c.; ¼ lb., 75c.; lb., \$2.50.

New Fancy Wrinkled— Kaleidoscope Pepper.
Excites admiration on account of their distinct and peculiar form and various colored fruits, deep orange, vieid scarlet, leman pelow; a profuse bearer, flavor sharp. Fkt., 5c.; ½ oz., 5c., co., 2o.; ½ bo., 75c.

County Fair-Pkt., 5c.; 1/2 oz., 15e.; oz., 25e.; 1/4 lb., 75e.

Procopp's Giant—This new variety is the "Goliath" of the pepper family. They grow uniformly to a very large size, of brilliant searlet color, and in flavor just hot enough to be pleasant. Pkt., 10c.; ½ oz., 15e.; oz., 25e.; 1/4 lb., 75c.

Celestial—A most useful Pepper and one of the most beautiful Plants in existence. The nods are inpright, conical in shape, and of a delicate creamy yellow, and when fully grown change to a vivid scarle. Peppers two to three inches long, sharp flavor and superior for any of the uses to which pepper can be put. Pkt., 5c; ½ oz., 15c.; oz., 25c.; ½ lb., 75c.; lb., \$2.50.

Orange Mammoth Sweet-A very large yellow sort, of fine shape, mild and excellent for mangoes. Pkt., 10c.; ½ oz., 20c.; oz., 35c.; ½ lb., \$1.00.

Golden Dawn-Pkt., 5c.; ½ oz., 15c.; oz., 25c.; ¼ lb., 75c.; lb., \$2.25. Large Bell, or Bull's Nose—An early variety of mild flavor; rind thick and fleshy. Pkt., 5c.; ½ oz., 15c.; oz., 25c.; ½ lb., 75c.; lb., \$2.25.

Large Sweet Mountain—Very large and excellent for mangoes. Pkt., 5c.; ½ 0z., 15c.; 0z., 25c.; ½ lb., 75c.; lb., \$2.25. Cayenne—For making Cayenne Pepper Sauce. Small; pungent; used more than any other for making pepper sauce. Pkt., 5c.; ½ 0z., 15c.; 0z., 25c.; ½ lb., 75c.; lb., \$2.50.

Long Red-Four inches long and an inch or more in diameter: fiesh thick and pungent. Pkt., 5c., ½ oz., 15c.; oz., 25c.; ¼ lb., 75c.; lb., \$2.25. Squash, or Tomato Shape-Pkt., 5c.; 1/202., 15c.; oz., 25c.; 1/1b., 75c.

Red Cluster—Its distinct and brilliant scarlet fruit is carried crowded agether in banches or clusters at the top of each branch. A single plant bears hundreds of handsome, hot and pungent peppers. Pkt., 5c., ½0z., 15c., 0z., 25c., ½1b., 75c.

Cherry Red-Fruit small, round, color rich scarlet; very hot. Pkt., 5c.; ½ oz., 15c.; oz., 25c.; ½ lb., 75c.; lb., \$2.50.

Red Chili-For making Pepper Sauce, "hot as fire," small and prolific. Pkt., 5c.; ½ oz., 15c.; oz., 25c; ½ lb., 75c.; lb., \$2.50.

Coral Gem Bouquet-Its beautiful little pods of shining red are so thickly set as to give it the appearance of a bouquet of corals. A splendid sort for making proper sauce, and makes a ready selling plant when grown in pots. Fki., 6c; ½ cz., 20c; oz., 35c; ½ lb., \$1.00.

Sweet Spanish—One of the largest and earliest varieties; flesh is sweet and m.id. Pkt., 5c.; ½ oz., 15c.; oz., 25c.; ½ lb., 75c.; lb., \$2.50.

Spanish-Calabaza.

Offinal Arous are not so particular in regard to soll as Melons or Cucumbers, but in other respects are cultivated in a similar manner. They are generally raised in fields of corn and potators, and may be planted with success in fields by themselves, in May or early June. In hills eight feet apart each One ounce for fifteen hills; one pound for an acre.

Genuine Mammoth, or True Potiron

ALSO CALLED KING OF MAMMOTHS, LARGE YELLOW MAMMOTH, MAMмоти \$50 Римрких, Jumbo Pumpkix. Form like an immense Nutmeg Melon with depressed ends, slightly ribbed and grows to immense size sometimes 3 feet or more in diameter. Salmon color; flesh bright yellow, fine grained; good quality. Pkt., 5c.; oz., 10c.; 1b., 35c.; lb., \$1.25.

Large Common Yellow Field (Yankee Cow Pumpkin, Connecticut Field—Hardiest of ALL PUMPKINS; good for pies and stock feeding. Pkt., 5c.; oz., 10c.; ‡ lb., 20c.; lb., 35c.

Tennessee Sweet Potato-Excellent for pies; pear shaped; medium size; flesh and skin creamy white; fine grained; sweet and delicious; a first-rate keeper. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 60c.

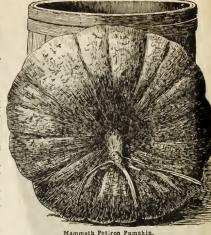

Large Sweet or Pie-Not so flat as Cheese, large, very heavy, thick meated and sweet. More generally grown in Ohio than any other, both for feeding stock and table use. Skin dark orange, sometimes mottled with green. Pkt., 5c.; oz., 10c.; ‡ lb., 20c.; lb., 50c.

Large Sweet Cheese-Fine for pies; productive; flesh yellow; sweet; keeps well into winter. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

Mammoth Tours-Of immense size, often weighing 100 lbs. Pkt., 5c.; oz., 10c.; 1 lb., 25c.; lb., 70c.

Black Sugar (Negro or Nantucket Pie)-A good "Pie" Pumpkin. Oblong in shape; skin very dark green, almost black; flesh orange co.or. Pkt., 5c.; oz., 10c.; 1 lb., 25c.; lb., 70c.

Japanese Pie-Crook-necked variety; extremely small seed cavity: nearly all solid meat; quality extra fine. Seeds distinct in appearance. Productive; ripens early; medium size; good keeper. Easily cut and dried like apples, and makes excellent pies or sauce for winter use. Pkt., 5c.; oz., 10c; \(\frac{1}{4}\) lb, 20c.; lb., 65c.

Mammoth Potiron Pumpkin.

Golden Oblong-Outer color a rich golden-orange; almost asgood a keeper for winter as the hard-shell squashes; flesh yellow, very rich, and fine quality; pronounced by lovers of pumpkin pies THE VERY BEST. Pkt., 5c.; oz., 10c.; 1 lb., 25c.; lb., 70c.

Mammoth Etampes Bright Red-This giant variety grows to enormous size; a bright glossy red; for stock and exhibition purposes. Pkt., 5c.; oz., 10c.; 1b., 30c.; lb., \$1.00.

Small Sugar-Very prolific, 8 ins. diameter, deep orange yellow, fine grained, keeps well. Pkt., 5c.; oz., 10c.; 1b., 20c.; lb., 60c.

ARCE SUGAR OLLOW CROWN

German—Pastinate.

Freuch—Pastinaca.

Spanish—Pastinaca.

Spanish—Pastinaca and thin to 6 inches apart in the rows. The roots improve by being left in the ground over winter, securing cough in pits or the cellar for

in the ground over winter, securing end lmm distence. One ounce to 200 feet of drill, 5 or 6 pounds for an acre-

Large Sugar or Hollow Crown (Improved Guernsey)—The best variety in cultivation for general use; roots intermediate

length, white, smooth, sugary; excellent flavor, easily harvested. Pkt., 5c.; oz. 10c.; 1b. 20c.; lb. 50c. Long White Dutch-Roots very long and smooth; hardy and keeps through winter, without protection. Pkt., 5c.; oz., 1(c.; 1 lb., 20c.; lb., 50c.

Maltese Half-Long-Shorter than Hollow Crown; better for shallow ground. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 60c.

Zimpfer's Long White-Handsomest long white sweet Parsnip on the market. Very smooth and attractive. For fuller description see Novelty List. Pkt., 10c.; oz., 15c.; 1 lb., 40c.; lb., \$1.20.

it should be sown early in the spring in rows one foot numer; sow thick and cover balf an inch deep; finally thin 10 5 or 6 inches apart or transplant and cut back frequently. For winter use protect in a frame or light cellar.

One ounce for 150 feet of drill.

FINE DOUBLE CURLED—A fine dwarf variety. Pkt., 5c.; oz., 10c.; ½ (b., 20c.; lb., 50c.

CHAMPION MOSS CURLED—Beautifully crimped and curled. Pkt., 5c.; oz., 10.; \(\frac{1}{2}\)4 lb., 20c.; lb., 50c.

PLAIN-The leaves are plain; It is hardier than the curled. Pkt., 5c.; oz., 10c., 1/2 lb., 20c.; lb., 45c. EXTRA CURLED EMERALD—Distinct from other varieties, being a lighter shade of green. The plant is usual, with leaves finely cut and curled. Pkt., 5c.; oz., 10c., 1/2 fb., 20c.; Ib., 65c.

FERN LEAVED-Very beautiful; more like crested fern or moss than Parsley; grand for table decoration. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 50c.

HAMBURG, OR TURNIP-ROOTED—A fleshy rooted kind; the roots are used for flavoring soups. Pkt., 5c.; oz., 10c.; ½, ib., 20c.; ib., 5bc.

WE PAY THE POSTAGE. At prices quoted on Quarts, Pints and Packets. If to go by Express at buyer's ex-pense, 15 cts. from quart, or 8 cts. from pint prices, may be deducted.

German-Erbse: French Spanish-Guisante.

Peas mature earlier in a light, rich soil. For a general crop, artich, deep loam, or inclining to clay, would be best. They thrive burned for a previous crop, but if the ground is poor and requires manuring, use well rotted manure; for mured for a previous crop, but if the ground is poor and requires manuring, use well rotted manure; for single rows one inch apart and 3 to 5 inches deep, the depth depending on the time of soving, nature come for the depth depending on the time of soving, nature come for the company of the com Two or three bushels to the acre.

PACKETS OF PEAS OR BEANS ARE HEAVY and the packets put up by some seedsmen to sell at 5c., postpaid, contain TOO SMALL A QUANTITY FOR ANY FAMILY. We therefore put up LIBERAL SIZED PACKETS at 10c., postpaid. we prefer TO PLEASE our customers rather than DISAPPOINT them.

ALASKA-This BEAUTIFUL BLUE market pea has become a standard variety, and is the Earliest of all blue peas. 20 inches high; very uniform in maturing the crop; of excellent quality, and retains its distable color after cooking. Pkt. 10c.; pint. 20c.; qt., 40c.; pk, \$1.40; bus., \$5.00.

Juno Pea The Juno is one of the best main crop Wrinkled Peas of its class. It has a stout robust vine and STRAIGHT, heavy, square pods, usually borne in pairs. The pods are very thick, broad-backed and filled from the stem to the tips with

seven to nine sweet, delicious, DARK GREEN peas of immense size; height, two feet; season from medium early to main crop. Pkt., 10c.; pint, 25c.; qt., 45c.; pk., \$1.30; bus, \$4.50.

Gregory's New Surprise Pea.

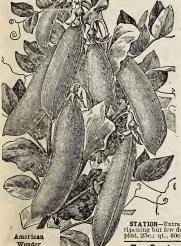

(IMPROVED)

New Surprise Pea Extra Early Wrinkled. Gardeners have long wanted a Winkled Pea which would come into market as soon as the extra early smooth kinds. They have it in the "New Surprise." It is "as early as the earliest of the hard peas, and as heavy a cropper, while it has that It is early as the earliest of the hard peas, and as heavy a cropper, while it has that second erops have matured on the other wrinkled sorrs." For four years in succession second erops have matured on the other wrinkled sorrs. "For four years in succession second erops have matured on the seed of the first. It is the result of a cross between Earliest of All and American Wonder; has the hardiness of the first, and the quality of the latter. Vines 21 inches high and need no brushing. Pods well filled, containing six or seven peas. The plants should stand about 25; inches six or seven peas. The plants should stand about 25; inches some peas. The plants should stand about 25; inches some pease. The plants should stand about 25; plant, 81.40; bus, \$5.00.

THE ADMIRAL—A valuable second early variety, both for market and family use. Its vigorous vines are about 3 feet high, and abundant bearers of well filled pods of bright green peas of most excellent quality. A favorite with canners, on account of productiveness and bright green color. Pkt., 10c; pint, 20c; qt., 35c.; pk., \$1.00; bus., \$3.50.

IMPROVED STRATAGEM—Half-dwarf; green wrinkled; vigorous branching habit; an enormous cropper. Pods long, filled with from 7 to 9 EXTRA LARGE peas of EXTRA FINE QUALITY; season MEDIUN LATE. Pkt., 10c.; pint, 25c.; qt., 45c.; pk., 81.40; bus., 85.00.

WILLIAM HURST—It is one of the hardiest, most prolific, and best varieties of first early dwarf wrinkled peas
we have ever seen; it is ready for the table as early as the
AMERICAN WONDER, and is MUCH MORE PROJUCTIVE; grows
stocky, 8 to 12 inches high. The pods are well filled with
large peas, cach pod containing 6 to 8, so closely packed that
the peas are flattened against each other. BEST quality.
Pkt., 10c., pint, 25c.; qt., 45c.; pk., \$1.25; bus., \$4.50. FRI., 10c., pint, 25c.; qt., 45c.; pt., 41c.; pt., 41c.

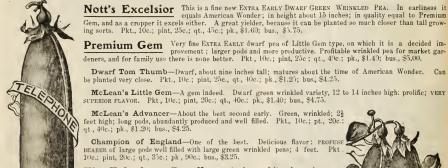

Pea

Livingston's First in Market Peas Several years ago, when we introduced this variety, the name was chosen because it was an appropriate one for this, THE EARLIEST of all very early peas. It means first peas in market and first money to every one who grows from this stock for market purposes, and the farmer who plants it is sure of the first mess of green peas in his neighborhood. It is VERY PROFITABLE for the GARDENER and SHIP-PER because it is very early, ripens uniformly, so that all the pods may be picked within seven weeks from the time of planting, and that at one picking. No brush or other support is required, as they seldom, under any circumstances, grow to exceed 20 inches in height. The pools are handsome, straight, and full of medium sized round peas of first-rate quality, and it is immensely productive for so early a variety. We have been carefully looking into the REAL EARLY pea subject and testing the various "strains" and "brands" on the market for years, until we are convinced, as well as our customers who have given them a trial, that FIRST IN MARKET leads all. Pkt., 10c.; pint, 20c.; 4t, 40c.; 2 qts., 75c. By Express or Freight (not paid,) 4 qts., 65c.; pk., \$1.10; bus., \$4.00.

deners, and for family use there is none better. Pkt, 10c.; pint, 25c; qt., 40c.; pk., \$1.40; bus., \$5.00.

Dwarf Tom Thumb-Dwarf, about nine inches tall; matures about the time of American Wonder. Can be planted very close. Pkt., 10c.; pint, 25c., qt., 40c.; pk., \$1.25; bus., \$4.25.

McLean's Little Gem-A gem indeed. Dwarf green wrinkled variety, 12 to 14 inches high; prolific; VERY

Champion of England-One of the best. Delicious flavor: PROFUSE

The Telephone Pea No pea to-day, of its class, is more meritorious or deservedly popular than the Telephone. Green wrinkled; height 31 feet; productive; pods unusually large, elegant shape, slightly curved, and well filled with peas of large size and most excellent quality and flavor. Pkt., 10c.; pint, 20c.; quart. 40c.; peck, \$1.25; bus , \$4.25.

H. E. BALTHASER, OHIO .- Your seeds last year were all O. K. They grew well from the start. I found them just as rep-resented. We have used your seeds for several years and find them No. 1. They are the best yet that we have tried.

MRS. S. C. RICE, Miss .- I have been patronizing you for the past 8 or 10 years and have found your seeds " True Blue." I feel each year that I can't do without them "

Two of Our Best Selling Peas.

Shropshire Hero One of the most valuable new peas of

recent years. It is a SECOND EARLY, LARGE, WRINKLED pea, a robust grower like STRATAGEM, two or three feet in height, producing its large pods in abundance. Pods very large and extra well filled, averaging SEVEN and often containing EIGHT or TEN FINE LARGE PEAS of exquisite flavor. Pkt., 10c.; t pt., 15c.; pt., 25c.; qt., 45c.; pk., \$1.10; bus., \$4.00.

Is a medium early green wrinkled pea, grows uniformly two to two and one-half feet high, and bears a profusion of large, long, slightly curved pointed pods, containing 9 to 10 large peas of fine quality. Destined to become a great favorite for market purposes. An immense cropper, yields double the quantity ordinary varieties do. Pkt, 10c.; ½ pt. 15c.; pt., 25c.; qt., 45c.; pk., \$1.25; bus., \$4.00.

Everbearing -- A variety maturing soon after the Premium Gem, and continuing a long time in bearing. Vine stout, about eighteen inches high, bearing at the top six to ten broad pods. Peas wrinkled, large, cook quickly and very tender; superior flavor. Pkt., 10c.; pt., 20c.; qt., 45c.; pk., \$1.15; bus., \$4.00.

Horsford's Market Garden-A FINE SECOND-EARLY FOR FAMILY GARDENS. Vines two feet high and very regular. Most prolific bearer, post medium size, numerous and well filled with peas of finest flavor. A green wrinkled variety which is fast coming into general favor. Pkt., 10c.; pt., 25c.; qt., 40c.; pk., \$1.25; bus., \$4.50.

White Marrowfat-One of the oldest varieties in cultivation, about four feet high, and well filled with very large pods. Pkt., 5c.; pt., 20c.; qt., 30c.; pk., 60c.; bus., \$2.25.

Black-Eved Marrowfat-Similar to White Marrowfat but has a dark eve. Pkt., 5c.; pt., 20c.; qt., 30c.; pk., 75c.; bus., \$2.25.

Pride of the Market-Has a stiff vine of medium height, bearing a crop of large dark green

pods, well filled with large peas of good flavor; season MEDIUM. Pkt., 10c.; pt., 25c.; qt., 45c.; pk., \$1.30; bus., \$4.50,

Shropshire cral purposes. It is half dwarf; 15 to Hero. 18 inches high; pods large; containing six to cight wrinkled peas of EXCELLENT QUALITY. Sow seed thin, as it has a remarkable tendency to branch. Pkt., 10c.; pt., 20c.; qt., 40c.; pk., \$1.10; bus., \$1.00.

Sugar, or Edible Podded

All edible podded varieties are used either shelled or cooked in the pods like string beans, and when young, are very tender and sweet.

LIVINGSTON'S PROLIFIC GIANT PODDED SUGAR PEA Excels all other Sugar Peas in size, productiveness, and quality. average about 36 inches in height, remain a long time in bearing. The pods gigantic in size, broad, sweet and tender, extremely fleshy, and equal to the best snap bans for cooking pods and all. A decided improvement over other sugar peas and greatly superior in quality. For illustration and further description see novelty pages. Pkt., 10c.; pt., 25c.; pt., 45c.; pk., \$1.80; bus, \$6.00.

Melting Sugar—This new variety grows to the height of five feet; bears a profusion of very large, broad, handsome, light green (nearly white) pods which are so brittle that they snap without any strings. Sweet and tender. Pkt, 10c.; pt., 25c.; qt., 45c.; pk., \$1.50; bus., \$5.00.

Dwarf Sugar-(GRAY SEEDED)-Grows about two feet high; productive; seeds large and shriveled. Pkt., 5c.; pt., 20c.; qt., 40c.

Tall Sugar-Very productive. Pkt., 5c.; pt., 20c.; qt., 35c.

Field and Cow Peas-See Farm Seed Department.

Rhubarb, or Pie Plant German-Rhubarbe. French-Rhubarbe. Spanish-Rubarbo Bastardo.

A deep, rich soil is best for Rhubarb. Fow early in drills, eighteen tinches apart and one inch deep; the spring following, transplant, allowing each plant at leave two feet square; each fall mulch with manure. One ounce makes about 6 o plants. VICTORIA—Pkt., 5c.; oz., 15c.; ½ lb.. | LINNAEUS—Pkt., 5c.; oz., 15c.; ½ lb., 40c.; lb., \$1.25.

Rhubarb Roots We offer strong seedlings. They are much more easily handled and transplanted than old clumps. The transportation charges are much less than on clumps, and taken all in all are more satisfactory. By Mail, postpaid, each, 20c; 2 for 30c; 4 for 50c. By Express, not paid, each, 10c; 30c. 75c. 100 for \$2.00. 100 for \$30.00

Radish

All varieties thrive best in light, sandy learn. For early use sow in hot-bed in February, eving plenty of ventilation, or outside in drills as soon as the soil can be gotten in order, covering the seed about half an lined deep. Sow every two weeks from March to September for a succession. They must grow rapidly to be crisp, mild and tender.

Philadelphia White Box.

Livingston's Pearl Forcing Across between Wood's Early what might be called half-stump rooted. The color is pearl-white with the waxy appearance; texture very from and self-d; remains in catality do not become woody. If properly grown they have a smaller top in foreing than when grown in the open field. All things considered, we pronounce it absolutely the very best general purpose White Market Radish in existence. Pkt., 5c; oz., 10c; ½ lb., 30c; lb., \$1.00.

PHILADELPHIA WHITE BOX-Its points of superiority are short top, rapid growth, perfect turnip shape, extra fine quality, and showing but little disposition to become pithy, remaining solid and juley for some time after fully grown; especially fittled for growing under glass in frames. Owing to very few leaves it can be sown thickly. Pkt., Sec. 92, 100c.; 3 [b. 30c.], 5, 60c.

Golden Dresden we recommend it alike for family garden and for market as one of the most valuable and quick growing radishes. Tops very seant, and admit of closest planting. It is perfectly round, smooth, and very attractive, light golden-brown skin. Flesh crisp, white, julcy and of finest flavor. Market gardeners can grow this new radish in the garden or force it, and depend upon a remarkably perfect, early, uniform crop. Pkt., 5c; oz., 10c; ½ lb., 25c; lb., 00e. BRIGHTEST LONG SCARLET—(Carlinal White Tipped)—A new sort; resembles Early Long Searlet in shape and size. Extraordinarily early, being fit for use in 24 days after sowing. It is the brightest searlet we have ever seen in a radish; tips white rapid seller on market. Pkt., 5c; oz., 10c; ½ lb., 20c; lh., 50c.
GLANT WHITE STUTICART—A favorite German radish; grows quick, of large

GIANT WHITE STUTICART—A favorite German radish; grows quick of large slze; in shape like a large top; flesh and skin white; fine quality; firm and brittle; never plhy; can be stored for winter. Pkt, 6c; oz, 10c, ½ lb, 20c; lb, 50c EARLY FIRE BALL—Pretty little fire-red round radish; small tap-root; small top: ferred by many for early forcing. Pkt., 5c.; oz., 10c.; ½ lb., 25c.; lh., 70c.

GOLDEN GLOBE-Perfect globe-shape and golden colored skin; quick grown; der and brittle. Pkt., 5c; oz., 10c; 4lb., 20c; lh., 50c-

GRAY SUMMER TURNIP-A heat resister. Pkt. 5c.; oz. 10c.; 3/1b, 20c.; lb, 60c. ROSY GEM—One of the earliest; gericetly globular; color rich deep scarlet at top, but no pure white at the bottom; exceedingly tender and crisp; delicious, desirable for market and home garden. Fkt, 5c; 9c, 10c;; ½ lh., 20c; lb., 5c; lb.

EARLY SCARLET GLOBE—One of the earliest and best for forcing: its color is very handsome: flavor mild; erisp and juley; stands a great amount of heat without becoming pithy; good for garden culture. Pkt., 5c.; oz., 10c.; ¼ lh., 20c.; lh., 50c.

Livingston's Radish Mixture A mixture of over 20 choice varieties of will certainly have radishes all summer, and be surprised at the results, if you give it a good place in the garden. For several years we have sent out large quantities of this mixture and the unanimous reports have heen, "WE'RE HAPPILY SURPRISED," Large Packet, 10c.; oz., 15c.; ½ b., 45c.; lb., \$1.35.

Livingston's Pie Squash Some seedsmen insist on renaming this variety, calling it "Pie Pumpkin," etc., after it has calling it "Pie Pumpkin," etc., after it has been known for years as "PIE SQUASH." It is claimed by some to be the same as Winter Luxury Pumpkin; this is incorrect, Livingston's Pie Squash being more smooth (showing no ribs whatever), and of more uniform growth in type and crop. We have always called it a Squash, inasmuch as the family from whom we first obtained our seed had always been in the habit of speaking of it as

such. Whether Squash or Pumpkin, one thing is sure, it is FAR IN ADVANCE OF ANY PUMP-KIN IN QUALITY. Skin similar to that of the golden russet apple. Flesh yellow and very thick, making them appear almost solid. Early, surprisingly productive, and a willing and hardy grower. All in all, we call it the grandest thing out for pies. Its size and attractive appearance make it a ready seller. Pkt, 5c.; oz., 10c.; 1 lb., 25c.; lb., 60c.

White Bush Scallop - "PATTY PAN," "CYMBLING" - The well-known summer squash; very productive; pure white; to be used when young and temder. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

Mammoth White Bush Seallop An excellent large strain, earlier than the common stock, creamy white and averaging double in size; a prolific bearer; a splendid variety for market and the best of all for Southern shippers. Pkt. 5c.; oz. 10c.; 1 lb. 20c.; lb. 50c.

Three Best

Livingston's Pie Squash.

Mammoth Yellow Bush Scallop, or Golden Custard-Decidedly the best strain of YELLOW scallop. It has been selected and grown for years until it has doubled in size, and, at the same time, lost none of the other good points, such as earliness, quality and productiveness. Pkt., 5c., oz., 10c.; 1 lb., 20c.; lb., 60c.

Colvin's Orange Marrow-The skin has the appearance of a rough dark-colored orange. In flavor it is fully up to the Hubbard. Quality excellent when matured. It is ready for market very early, and if the early squashes are picked the vines keep learing until frost. Good keeper. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

NEW EUREKA-A First-Class Farmer's Squash, profitable to grow for feed as well as market purposes. Flesh very thick and fine grained, and whether baked, steamed or boiled is of fine quality. Outside color is an attractive light grayish green. Its rough and un-even surface indicates its good qualities for the table. Weights from 20 to 25 pounds, wonderfully prolific, a vigorous vine. When well matured its shell becomes quite hard, but not so much so but that stock can redily eat them. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 55c.

Mammoth Yellow Scallop, or Golden Custard Squash.

Livingston's Improved Cushaw Squash.

Fordbook Squash.

FORDHOOK-Convenient size for family use. Flesh dry and sweet, and seems incapable of rotting; if placed in a cool, dry room, keeps in a perfect condition throughout the winter and spring, until late in June. The thin, hard stem and roots, furnish absolutely no food for the squash borer. Maturing early, it is a sure cropper and immensely productive. Skin thin and meat thick; seed cavity small. May be used at any stage of growth. Pkt., 5c.; oz., 10c.; { lb., 25c.; lb., 65c.

Livingston's Improved Cushaw Squash The gen-

shaw of "ye olden times," and a great favorite. Very beautiful in appearance, being a distinct mottled green and white striped. Flesh yellow, solid, fine grained, very sweet, and excellent for pies; also good for baking. They average about 15 pounds, but on good rich soil 30 pound specimens are common, and even 35 to 40 pounders are found. They are hardy, and bugs seldom eat them, especially when other varieties are near. Can be grown among corn, same as pumpkins; and yield a good crop, but the better way is to grow them separately on good, rich soil, in hills 10 to 15 feet spart each way. Sells well on market, and should be in the hands of every grower. Pkt., 5c; oz., 10c; ‡ lb., 25c; lb., 75c.

New Golden Hubbard A sport from that old standard of excellence, the Hubbard; it is Squash, a perfect type of its parent, except in color, which is a bright deep orange-yellow; exceedingly showy and attractive. Flesh deep golden-yellow, much richer color than Hubbard, fine grained, cooks very dry, and of excellent flavor. In productiveness it excels the old variety. Its superior keeping qualities, combined with its rich, sweet flavor, attractive color and shape, make it a popular fall and winter variety. Pkt., 5c.; oz., 10c.; 1 lb., 25c.; lb., 70c.

True Hubbard Squash

Generally considered the best Winter Squash grown; flesh dark yellow, fine grained, dry and sweet, (many say "good as sweet potatoes.") It boils and bakes dry, and if plenty of milk is added it will make an excellent pie. It Golden Hubbard Squash.

offer a very carefully grown stock. Pkt., 5c.; oz., 10c.; ‡ lb., 20c.; lb., 50c.

Pike's Peak, or Sibley-Shell smooth, thin, and of a pale green color; the flesh is thick, solid, deep orange color, very dry, fine grained and delicate flavor. Weighs from 9 to 11 pounds, and are excellent keepers. Pkt., 5c.; oz., 10c.; \(\frac{1}{4}\) lb., 20c.; lb., 50c.

Mammoth Chili-True Stock. Largest of all squashes. A rich orange; smooth; flesh rich bright yellow; keeps well throughout winter and spring; very productive; fine shape; fair quality; profitable for stock. Pkt., 5c.; vz., 10c.; \$1b., 25c.; lb., 75c.

True Hubbard Squash.

CHICAGO WARTED HUBBARD—This seems to be, by all odds, the best strain of Hubbard Squash we have ever grown. Some of its good points are large size, dark green, almost black, color, all looking alike, and withal distinguished by a dense covering of knots ("warts"); thick fleshed, of first-class quality, a good keeper. Pkt., 5c.; oz., 10c.; ½ lb., 25c.; lb., 60c.

ESSEX HYBRID-RIPENS EARLY; one of the finest grained, richest flavored, most prolific and sweetest of the squash family, and keeps till the following June. Flesh very rich orange color, dry and solid. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

> Giant Golden Summer Crookneck-A beautiful bright yellow, warty; bears early and all summer; very desirable for market or private gardens. Pkt., 5c.; oz., 10c.; 1 lb., 20c.; lb., 50c.

> New White Summer Crookneck-A beautiful ivory white, warty squash of excellent quality. Pkt., 5c.; oz., 10c.; 1 lb., 25c.; lb., 60c.

> We can supply the well-known MARBLEHEAD, CANADA WIN-TER CROOKNECK, FAXON, AMERICAN TURBAN and BOSTON MARROW. Pkt., 5c.; oz., 10c.; 1/4 lb., 20c.; lb., 55c.

Hubbard.

Salsify

(Vegetable Oyster.)

When properly cooked it is a good substitute for oysters in taste and flavor, and is very nutritious. In cooking the roots are usually boiled, or they can be mashed and made into fritters. Succeeds best in light, well enriched soil. If it is necessary to use manure, it should be very fine and well rotted. Sow early in drills lis has, apart, 2 ins. deep roots are periodity of the cook are periodity flat of the cook are periodity that the cook are periodity and the cook are periodity and the cook are periodity of the cook are periodity and the cook are peri ounce for 50 feet of drill.

WISCONSIN GOLDEN SALSIFY—When prepared for the table this variety has a quality which, for Delicious Flavor, Extreme RICHNES AND TENDERNESS, has been unapproached by either of the old varieties. Its habit of growth is unlike other varieties leaves are constantly a sulphity glowing dand curied; roots have a slightly glowing dand curied; roots have a slightly glowing.

MAMMOTH (Sandwich Island)—This variety grows uniformly to an extra large size, averaging fully double the size and weight of the old white variety. Mild and delicious flavor. Pkt. 5c.; oz. 15c.; ½ lb. 40c.; lb. \$1.35.

SCORZONERA—(Black Salsify)—Pkt., 5c.; oz., 15c.; ¼ lb., 50c; lb., \$1.75.

Spinach

Round Summer Spinach er than most kinds. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lb., 40c.

For spring use sow early in drills I foot apart, and for succession every two weeks; as it grows thin out for use, keeping it clear from weeds. For fall use sow in August; for winter use sow

in September in ground well ma-nured, mulch with straw on approach of severe cold

weather. One ounce for 100 feet of drill;10 lbs. for an acre.

NEW VICTORIA-Quick to mature: large, exceedingly thick leaves, savoy-ed in center. Re-mains in condition or use much long-

ROUND SUMMER-A standard sort with market gardeners for ea spring; it stands the winter well, but is not quite so hardy as the Prickly; leaves large, thick and fleshy. Oz., 5c.; ½ lb., 15c.; lb., 35c.

PRICKLY SEEDED—The hardlest of all, therefore the best where the winters are severe. Oz., 5c.; ½ lb., 15c., lb., 35c.

IMPROVED THICK LEAF (Viroflay)—A decided improvement on Round Summer. Has very large, thick leaves of great substance. Oz., 5c.; ½ lb., 15c.; lb., 35c.

CURLED-IEAVED SAVOY—(Norfolk, Bloomsdale)—The earliest variety; of upright growth; fine, large, tender, savoyed leaved. Grows quick but will not stand long. Oz., 5c; ½ | 10., 15c; | 1b., 35c.

NEW ZEALAND (Tetragonia Expansa)—Withstands heat and drought and produces leaves in great abundance throughout the summer in hottest climates, where ordinary Spinach will not do well; should be started in heat and transplanted 5 feet apart each way, into light, rich soil. Pkt., 5c; oz., 10c; ½ | 1b., 25c; | 1b., 90c.

LONG STANDING—An improved strain; later in going to seed; especially desirable for market gardeners. Oz., 5c.; 1/2, 15c.; 1b., 35c.

For very early fruit the seed should be sown in a hot-bed about the first week in March in drills 5 inches apart and balf juch deep. Laier sowings may be made until the last of April. Sufficient plains for a small garden may be started by sowing a few seed in a shallow lox or flower pot and placing in a window in the house. When the plants are stored in the seed of the possibility of the set out of 5 inches apart in another stored in the seed of the set out of 5 inches apart in another plant to a pot. Expose to the air as much as possible to harden. Water freely at time of transplanting, and shelter from the sun a few days under the plant to a pot. Expose to the air as much as possible to harden. Water freely at time of transplanting, and shelter from the sun a few days under the plant to appear as ree established. Cultivate thoroughly as hour as they will be very shallow earlier excitation of the even may be builty injured, especially if the earlier excitation of the even may be builty injured, especially if the certain excitation of the even may be the planting up to to stakes or trellless, and the fruit is very much improved, not only in appearance but in quality. This mode of cultivation is quite common among gardeners who grow for early market. The usual method is twice to extend the planting up to stone extend plant to a take 6 to 7 feet high, tying the planting up with the start of the planting up the stone extended by the start of the planting up the stone extended to the planting up the attractive appearance generally, grow the clusters of the fruit in paper askets, as its commonly practiced by grape growers. The sacks should be put on when the tomatoes are about three-fourths grown.

About 2000 plants from one ounce of seed is a safe estimate.

About 2000 plants from one ounce of seed is a safe estimate.

They all want them. W. S. RANDLEY, Kunsa,—'I ship tomates extensively, and all up customers want the Stone. The Beauty and Stone are the two standards, Never fail to give satisfaction. I have tried all kinds the past 10 years, and never expect to get anything to equal the Stone. The demand for them increases each year, multi now everybody wants them."

New Varieties and the Growing of Large Quantities our Specialty.

No Establishment in the World Makes such a Specialty Tomato Seed Growing as ourselves.

In making this claim we mean actual growing. Some who claim to be extensive growers in this line, we had raise a large-portion, to their entire conjunt at the back door of some canning factory, slaply washes out seed from the refuse. Such seed may contain a max ture of half a dozen or more varieties.

This "Vegetable Fruit" has become indispensable to house. Keeping in this and many other countries within the past 25 years, and which, we feel, without boasting, is largely due to the excellent qualities of the varieties bearing our name.

The Fame of the Varieties originating with and introduced by us has extended to every Country on the face of the Globe where the Tomato can be grown.

Our first Tomato, the "Paragon," was introduced in 1870, after working five years to bring it to a high state of perfection. It was the first and only strictly smooth red tomato ever sent out up to that time and is usegood today, in our hands, as when introduced 31 years ago showing no signs whatever of degenerating. In 1875 the first perfection of the property of the world. They were introduced in the following order:

were introduced in the folic Perfection,' in 1880. "Golden Queen," in 1882. "Favorite," in 1883. "Beauty," in 1883. "Potato Leaf," in 1887. "Stone," in 1891. "Royal Red," in 1892.

"Gold Ball," in 1892.
"Buckeye State," in 1893.
"Aristocrat," in 1893.
"Large Rose Peach," in 1893.
"Large Rose Peach," in 1893.
"Benor Bright," in 1897.
"Dwarf Yellow Prince," in 1895.
"Magnus," in 1890.

Packet Prices of Livingston Varieties

Regular Size, 10c. each, 3 for 25c., one or more kinds. Half-Size Packets, 5c. each, 6 for 25c., one or more kinds.

Livingston's Stone. Introduced by us in 1891. This variety has obtained

great favor with canners, Southern growers, and market gardeners everywhere. Its solidity and carrying qualities are remarkable. Its color is a desirable red; in shape, perfectly smooth, and thicker from stem to blossom end than most varieties, making it very handsome and salable. Nobody finds any fault with this variety, but all speak in highest terms of its beautiful color, its wonderful yielding qualities, its unequaled firmness, or some other of its good points.

Price-Pkt., 10c.; ½ oz., 15c.; oz., 25c.; ½ lb., 70c.; lb., \$2.50.

First and Second Premium. G. WILSON, Mich.—"The hadn ldg call for them. Took First and Second Premiums at the Fair.

Livingston's Beauty. Introduced by us in 1886 market or shipping, being early, hardy, a strong grower, productive. large, always smooth, perfect shape and excellent in quality. Color

a very glossy crimson with a tinge of purple. Grows in clusters of 4 to 6 large fruits, retaining its large size late in the season. Ripenwith Acme and Perfection, and is entirely free from ribbed and elongated fruit. Flesh very firm, has a tough skin and but few seeds Seldom rots or cracks after a rain like many of the tender skinned sorts. For shipping and early market it cannot be excelled, on account of solidity, toughness of skin, and especially its handsome color; count of solidity, organized or asin, one specially to and keep perfects week after ripe. Used largely by marketmen and long distance shippers. Price—Pkt., 10c.; ½ oz., 15c.; oz., 25c.; ½ lb., 70c.; lb., \$2.50.

Livingston's Stone.

THE BEST FOR UNDER GLASS.

Livingston's Beauty.

Prof. W. B. ALWOOD, Agricultural Exp. Station, Blacksburg, Va. "Your Beauty Tomato was superb, as usual, and gave us magnificent fruit. We consider it the standard by which comparison of other sorts is made, and are also using it exclusively for winter forcing."

"At the Station we have found, after many trials, no better or more productive variety than Livingston's Beauty for forcing under glass; and next to it, in my opinion, comes Livingston's Stone."

For 16 years extensive trials have been carried on in a most thorough and practical manner by these gentlemen and assistants.

Livingston's.

Buckeye State Jomato.

The Largest Smooth Tomato in the World.
Bearing the Livingston Name.
Clustered of any Variety.
Tomatoes in the Clusters.

(Introduced by us in 1893.)

(Introduced by us in 1893.)

The averages at least one-half larger than Livingston's Beatty. Many "mammoth" some have been advantaged on account of their rough and uneven surface, if for mothing else. When, therefore, we state that in addition to its very large size, it is also smooth and uniform, like all the other sorts introduced by us, it is also smooth and uniform, like all the other sorts introduced by us, it is also made to the other sorts introduced by us, it is considered to the other sorts introduced by us, it is considered to the other sorts introduced by us, it is the other sorts introduced by us, it is the other sorts introduced by us, it is of the other sorts introduced by us, it is the other sorts introduced by us, it is of the other sorts introduced by us, it is of the other sorts into the other sorts into the other sorts into the fact is, it is even more prolific and abundant in fruit than most any of the standard sorts now in cultivation. It is unquestionably the heaviest cropper of four to eight extra large fruits, and occasionally ten large fruits have been found in single clusterstimatures with the Livingston's Stone. In solidity and meatiness it has no equal and in desirable quality ione surpasses it. The color is much the same as Livingston's Beauty, but of a somewhat exit and clear-cut outlines, make it very showy and striking when displayed for sale. For seven years we have grown this variety by the ordinary method, as well as on stakes, on our Tomato Farm near this city, and the tomatoes were the admiration of all visitors.

PRICE OF CHOICE SELECT SEED—Pkt., 10e.; % oz., 15c.; oz., 25c.; ¼ lb., 80c.; lb., \$3.00.

F. M. FRAZER, Adair Co., Ky. "I have won the prize every year at our County Fair for five years on Livingston's Buckeye State Tomato." J. C. BROWNERIDGE, Van Buren Co., Mich. "I had a cluster of 13 Buckeye State Tomatoes growing on muck soil last year that weighed 17% lbs. I would have sent them to you but I let them get too ripe. I had them on show up town and they were a sight."

BOLIVAR LUCKETT, Toristell, Mo. "Your Buckeye State Tomato is unsurpassed for beauty, quality and size by anything we ever grew in the tomato line. I hearthly recommend it to all lovers of good tomatocs."

C. E. Patterson, Belmont Co., Ohio. "I grew your Buckeye State Tomato last year. It is the best I have ever raised. We got 25 cents a bushel more for our tomatoes than other growers here."

JOSEPH LONG, Kennebeck Co., Maine. "The Buckeye State To-mato this year has been a great success with me, as it was inst. Though a little late for this northern latitude, they are certainly the largest and smoothest tomato. Your Dwarf Aristocrat I have tried this season, and was delighted with its size and beautiful color. It yielded the most fruit to the square yard of any kind I had."

(Introduced by us in 1893). This fine early variety Livingston's Dwarf Aristocrat.

in habit of growth and foliage resembles the Dwart Champion very much, and might be taken for that popular variety if it were not for the color of its beautiful rich, glosy are fruit, so much preferred in many localities to the purple or rose-colored varieties. The size, solidity, productiveness, smoothness, flavor of its fruit, etc., is up to the present standard of excellence. It is a very desirable variety for ording under glass, especially on the side bonches, and for growing outside for early market. May be planted two by three feet, or even ideal to the utilized. Its peculiar and gradens, where every loot of faunt is to be utilized. Its peculiar and the control of the present plant is the period of the present plant is the period of the peculiar and the present plant is the peculiar and present plant is the peculiar and present plant is the peculiar and present plant is the period of the peculiar and present plant is the peculiar and present plant is the peculiar and present plant in the peculiar and present plant is the peculiar and present plant pl PRICE-Pkt., 10c.; 1/2 oz., 15c.; oz., 25c.; 1/4 lb., 80c.; lb., \$3.00.

Civingston's Early Acme. (Introduced by usin 1875)—The Earliest Real Good conty market use. Probably there is no one active market use. Probably there is no one active market use. Probably there is no one active to the control of t

Livingston's Early Perfection. (Introduced by using 1860, 45 times a red skin, somewhat larger, fully as early, has more solid flesh and fewer seeds, and produces more and larger fruit at the close of the season, invariably smooth and of a handsome blood-red color. Some canners prefer it to all others, especially those who can the tomatoes whole, and ared variety that usually riperist ten days ahead of the Stone.

PRICE-Pkt., 10c.; ½ oz., 15c.; oz., 25c.; ½ lb., 75c.; lb., \$2.50.

Livingston's Favorite. (Introduced by us in 1833) of the best and experite and one-of the best and avgest of the least of the control of the best and avgest errices shaped size to the end of the season; free from cracks, very prolific, good flavor, tew seeds, flesh solid, bears shipping long distances. It is used extensively in the ciuming sections of Maryland, and has been generally grown for years for canners' trade throughout the United States.

PRICE-Pkt., 10c.; 1/2 oz., 15c.; oz., 25c.; 1/4 lb., 75c.; lb., \$2.50.

Livingston's Paragon. (Introduced by us in 1870.) Our first introduction, and, although stoffered it, we have kept it up to its original standard, and it has to-dasty the preference in many localities. Many gardeners, canners and cataginal standard in the stone of the standard kinds cultivated. An immense cropper. Flesh is solid, well colored and flavored. Ripens between the early and late season. Color of skin glossy deep red.

PRICE-PKL, 10c: 140z. 150z. 0.05z. 1418.

PRICE-Pkt., 10c.; 1/2 oz., 15c.; oz., 25c.; 1/4 lb., 75c.; lb., \$2.50.

Livingston's Royal Red. (Introduced by us in 1892.)
This fine variety is worthy of a prominent position alongside of its renowned predecessors already bearing the "Livingston" name, which are well and favorably known to day by everybody, because the were all that was claimed for them, and even better than expected. A first-class main crop variety. Everybody is attracted by its beautiful red color and handsome general appearance.

PRICE-PIC. 100: 200. 150:100.

PRICE-Pkt., 10c.; 1/2 oz., 15c.; oz., 25c.; 1/4 lb., 75c.; lb., \$2.50.

Livingston's New Dwarf Tomato, Yellow Prince.

(Introduced by us in 1898.)

Livingston's Yellow Prince.

(Introduced by us in 1898.)

Its rank and sturdy, but compact, growth makes it very interesting to callitized, and this sogge, will delight every lover of a good garden, On accounted its manner of krowth a dozen plants occupy only two spinare yards. It is as early as the Dwarf Champion. The texture is solid, and the flavor desirable, in this respect differing are mostly deficient in Havor. In large size and beauty of form it compares favorably with Livingston's Golden Queen, which standseasily at the head of all varieties of its class. When slied with red or purple sorts it is pleasant to the taste. It enunof fall to become a prime favorite in every private garden, and will also suif most market growers better than existing sorts. Extra Selected Seed—Pkt. 10c.; 32 cz. 20c.; 0z. 35c; 4 ozs. \$1.00.

Livingston's Golden Oueen.

Livingston's Golden

rs better than existing elected Seed—Pkt.10c; Queen of all the Yellows. 35c; 4 ozs. \$1.00.

It is spoild, always smooth, entirely free from ridges, large in size, riems early, and is the most beautiful yellow variety ever sent out. The larger and riper fruits are sometimes tinged with red at the blossom end. The handsome golden-yellow slices make a beautiful ontrast in a dish with red evers. It havery little side, and the quality is excelent. Find for preserves. Frice—Pkt.10c; ½ oz. 15c; oz. 25c; ½ bt. 75c; ih. \$2.30.

Livingston's Potato Leaf. (Introduced by us in tatol-tarcel sort. The fruit is always smooth, medium large, very firm, and of desirable quality. It is second early, everbearing until killed hy frost, and it takes a pretity sharp frost or two before the fruit is injured, being protected by the thick, broad leaves. It has a strong vine and resistat the wind remarkably well; an excellent variety for growing on trellises or tying up to stakes, and for hot climates, the leaves protecting the fruit from the seorching rays of the sun. Price—Pkt., 10e.; ½ 0z., 15e.; ½, 0z., 25e.; ½, 0z., 75e.; In., §2.50.

Livingston's Gold Ball. (Introduced by us in 1892.) low varlety, and no other yellow sort, except our folden Queen, can approach it in quality. Flesh thick and of extra good quality; not so large as folden Queen; smooth as an apple and of a handsome color; grows in clotters, poor fees entered for the property of the color; grows in clotters, poor fees entered for the property of the color; // 2007, 1807, 1807.

Dwarf Champion. We make a specialty of this very number of series every year slace its introduction. A single plant of it was first found nearly fifteen years ago in a field of Livinestou's Aemelia dwarf, compact and upright growth enables it to be planted two or three feet apart each way. Heavy manuring, instead of producing a superabundant growth of vine (as in many varieties), increases the superabundant growth of vine (as in many varieties), increases the second and symmetrical in shape, ripening close around the stem Matures the fruit early, is very productive, medium larce, and crowded close together on the branches; foliage an unusually dark green. True Stock—Ptk., bc.; ½ oz., 16c., cz., 26c.; ½ lb., 76c.; ih, \$2.50.

PONDEROSA—The fruit ripens quite carly and keeps on coming until very late; of immense size, solid, aimost seedless, and of good subacid flavor. The fruits are somewhat scattered on the vine, and quite a perform two. When ripe it is apt to remain somewhat green around stem end, and it seems to ripen on the inside first, and on this account should be picked when it appears to be about three-fourths ripe. Pkt. 5c; ½ oz., 29c.; oz., 35c.; ½ lb., \$1.00. lb., \$5.75.

Other Varieties.

For years past we have aimed to give all new varieties of Tomatoes offered a thorough test for quality and comparative points on our trial grounds mear this city, which are under our personal supervision. Not only that we may keep abreast the times on the Tomato question, but posted on as brought out. Our limited space where the production as fast as brought out. Our limited space will not admit of full and extended description of the various varieties. The stocks we offer below we recommend as good as any offered by our competitors or the original introducers.

Burbank Preserving bright the world-famous hybridizer. The stiff stems stand very erec until about one foot high, when unless pruned or supported, they become semi-trailing. The rich, dark green hand the stiff stems of the strength of the

NEW IMPERIAL—Is a purple sort, ripens well around the stem, is very thick mented and solid; although it is claimed to be extra early we have not been able to ripen it a day earlier than Beauty, nor do we find it as productive. Pkt., 5e.; oz., 20e.; ½ lb., 60e.; lb., \$2.00.

EARLY RUBY—A REAL EARLY VARIETY. A single plant of it was first observed in a field of Livingston's Perfection. The fruit, although not so large or so smooth, ripens earlier than Perfection. The open habit of the plant admits the sun and ripens the fruit, which is compact around the base of the plant, and the whole crop ripens very early. Pkt., 5c.; cz., 20c.; ½ lb., 60e.; lh., \$2.00.

MIKADO, OR TURNER'S HYBRID—In color a purplish red; quality good when ripened; foliage distinct; generally quite smooth, but always some rough ones. Pkt., 5e.; oz., 20c.; 1/4 lb., 60c.; lb., \$2.25.

TROPHY, TRUE—Fruit very large and generally smooth; solld, good drawt, and very productive. Choice selected seed, as good as it can be grown. Pkt., 6c; 6c., 20e; ; 4 b., 60e; 1h., \$2.00. as good as It can be

ATLANTIC PRIZE—One of the EARLIST OF ALE, not only ripens its FIRST BRUTS but a LARGE PROPOSITION of the crop earlier than most any other sort. Pkt., 6c.; oz., 20c.; / dih., 6de; jb., \$2.00.

MATCHLESS—A rich cardinal red. Large size. Pkt., 5c.; oz., 20c.; / dih., 6de; jb., \$2.00.

We can supply the following varieties at the uniform price of Pkt., 5c.; oz., 20c.; ½ lb., 60c.; lb., \$2.00.

May Flower, Red Queen, Early Conquerer, Lorillard, Hathaway's Excelsior, Canada Victor, Essex Hybrid,

Cincinnati Purple. Advance, Optimus. Ignotum, Fordhook. Early Michigan, Cumberland Red. Volunteer, Cardinal,

Also many other varieties and a host of "re-names," or said to be new Tomatoes at customary prices.

Long Keeper.

Liberty Bell. PONDEROSA

E. J. DEITRICH, Texas.—I planted some of your Buckeye State Tomatoes this spring, and I picked some that weighed 1½ pounds. I took 400 pounds to town and had them weighed and they averaged I pound. I have opeued the eyes of the truckers this year on tomatoes. I shipped some to Denver and they got there all right. I have several parties wanting to send with me for seed this fail. I have been planting your tomato seed for four escasons and I must say they are always a little better than you represent them.

Purple Peach Tomato.

New Peach Tomatoes.

PURPLE PEACH—This striking and peculiar variety resembles some varieties of peaches so closely in size, shape, color and general appearreal bomo or furze of the peach upon its surface. In color, a deep rose blended with orange amber; it is productive, comes early, and last uniforest, and never rots. It sequal in delicacy of slavor does not exist in the Tomato family. The skin is thin and peels off like that of a peach. It is very omnamental. Pkt. 5c.; ½ or. 126.; cz. 25c.; ½ lb. 50c.; 1b. 53.00.

YELLOW PEACH—Differs from the above in color only, being a rich golden color and having the bloom or furze of a peach upon its surface. Pkt, 5c; ½ oz., 15c; oz., 25c; ½ lb., 80c; lb., \$3.00.

Small Tomatoes.

Excellent for Preserves, Pickles and Pies.

Yellow Plum Pkt., Yellow Cherry Pkt., Yellow Pear-Shape Pkt.,

Prices of any of the above named varieties by the ½ oz., 15c.; oz., 25c.; ½ lb., 80c.; lb., \$3.00.

Husk or Strawberry, Winter Cherry, etc.

This delicate huse enveloped Tomato is unequaled for making preserves and pies. Dried in sugar, as raisins or figs or to use in fruit cake, they are unexcelled. They are handsome in color and keep until midwinter or longer. They have a strawberry flavor, and produce fruit in great abundance. Aside from being a grate curiosity and very attractive, the produce of the strawberry flavor, and produce fruit in the produce of the strawberry flavor, and produce fruit in the produce of the strawberry o

GOLDEN HUSE—Fruit a handsome golden color, the size of large cherries; much esteemed by many to eat from the hand; makes an excellent pie. The recipe for making the pie will be found on the packet containing seed. Pkt., 5c; ½ oz., 15c; oz., 25c; ½ lb., 80c; lb., \$3.00.

Cherry. Plum or Pear. Red Currant.

For early crop, sow in latter part of April; for fall and main crop from middle of June un-til last of August.

One pound is sufficient to sow an acre.

EXTRA EARLY PURPLE TOP MILAN—A new, early, very white variety, with purple top and strap leaf; mild and sweet. Pkt. 5c.; oz. 10c.; /4 lb. 25c.; lb. 70c.

EXTRA EARLY WHITE MILAN—Same as above, except it is pure white. Pkt., 5c.; oz., 10c.; ½, lb., 30c.; lb., 80c.

SCARLET KASHMYR—Of beautiful pinkish color, oz., 10c.; ½1b., 30c.; 1b., \$1.00.

EARLY FLAT DUTCH OR WHITE TOP STRAP-LEAVED—A standard variety; good size; pure white; small top, with but few leaves; very sweet. Fkt., 5c; oz., 10c; ½ (b., 20c; lb., 45c. EAPLY WHITE EGG—An egg-shaped variety for spring or fall sowing; flesh white, firm, fine grained, mild and sweet. Pkt., 5c; oz., 10c; ½ (b., 20c; 45c.

YELLOW STONE—One of the best yellow-fleshed varieties for table use, and equally good for feeding stock. Pkt., 5c.; oz., 10c.; ¼ 1b., 20c.; lb., 50c.

Early White Flat Dutch.

Purple Top Strap Leaf.

PURPLE TOP STRAP-LEAVED—The well known, popular variety, either for family or market use; large size; white, purple above ground; flesh fine grained. Pkt., 5c; oz., 10c.; ½ lb., 20c.; lb., 40c.

LONG WHITE, OR COW HORN—Grows very thickly partly above ground; very productive; flesh white, fine grained, sweet. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 50c.

PURPLE TOP WHITE GLOBE

—A variety of decided merit.
Globular shape, very handsome,
and of superior quality, either for
the table or stock. It is a heavy
producer, early, of rapid growth,
and an excellent keeper. Pkt., 5c.;
oz., 10c.; ½ lb., 20c.; lb., 50c.; TELLOW GLOBE, OR AMBER
—Flesh firm and sweet; grows to a
large size; excellent for table use
or stock, and keeps well until late
in the spring. Pkt., 5c.; oz., 10e.;
½ lb., 20e.; lb., 50e.

GOLDEN BALL OR, ORANGE JELLY-Rapidgrower; globe-shaped; bright yellow; a superior table variety, or for stock. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 50c.

LARGE WHITE GLOBE—A large round, white turnip, with firm sweet flesh. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 50c.

Ruta Baga Varieties.

The Ruta Baga varieties should be sown a month earlier than Turnips, as they require longer to mature.

IMPROVED AMERICAN—(PURPLE TOP)—Very hardy and productive; flesh yellow, sweet and solid; good for stock or table use. Pkt., 5c.; oz., 10c.; ½, 1b., 20c.; 1b., 45c.

WHITE RUSSIAN, OR LARGE WHITE—Grows very large; excellent for table or stock; flesh firm, white and solid; has a very rich and sweet flavor. The best keeper of any. Pkt., 5c.; oz., 10c.; 1/4 lb., 20c.; lb., 45c. LONG ISLAND IMPROVED PURPLE TOP—This is undoubtedly the finest variety of Purple Top Ruta Baga, and is twice the size of the ordinary stocks. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 50c.

Improved American Ruta Baga.

Miscellaneous Farm Seeds.

The prices given below are NET CASH, free on cars, this city, purchasers paying all transportation charges. At the prices quoted here we make no charges for bags or cartage. The prices quoted are subject to market fluctuations. Should any article seem high, or when customers are in need of large quantities, we will be pleased to quote them, on application, the LOWEST PRICE THAT THE MARKET WILL JUSTIFY AT THE TIME.

OUR NEW EARLY RIPE OATS.

This grand new Oats, introduced by us two years ago, has malutained in a broader field all the good qualities we claimed for it. It is an oats of medium length straw, stands up well, grain white, medium size and a good yielder. Two years ago we grew 65 bushels per aere on our own farm without any speetal preparation, and have reports of 85 bushels and over from other growers. Extreme earliness is a very strong point. The grower of this wardety can cut his wheat and oats at the same time, going from the wheat field to the oats, thus finishing the same time, going from the wheat field to the oats, thus finishing the same time, going from the wheat field to the oats, thus finishing the area of the forward of the continue to give it out fullest indorsement with full confidence that it will satisfy every grower who wants an early variety of server that it the first of the continue to give it our fullest indorsement with full confidence that it will satisfy every grower who wants an early variety of green. ne, we continue to give it our finnest indorsement with full coulders that it will satisfy every grower who wants an early variety of great merit. Postpaid—4 oz. pkt., 10c; lb., 30c; 3 lbs., 75c. By Expressor Freight—Feek, 35c; ½ bus., 60c; bus. (32 lbs.) \$1.00; bag, (2½ bus.) \$2.25; 5 bus., \$1.25; 10 bus., \$8.00. Sacks Free.

Pickaway County, Ohio, June 22, 1900.—I cut today ln good order and put in shock my crop of "Early Ripe Oats." The straw was short, but fine heads and well filled.—A. C. Nothstine.

Japanese Barnyard Grass. (Panicum Crus Galli) and enately moist soil, and may be sown from the middle of May until the first of July. Is quite distinct from other varieties; enormous copper, grows six to eight feet high, excellent either green or cured as hay. By Express—Per Ib., 20c.; 25 lbs., \$3.50. 25 lbs. will sow an acre.

Barley, New White Hulless.

Hulless, Beardless, and Early.—Yields well on poor land, enormously on good; hulless when threshed. Price—(postpaid)—Lb., 25c.; 3 lbs., 75c. By Express or Freight—Peck, 75c.; bus., \$2.00.

Teosinte. A most prolific forage plant. Four pounds of seed is sufficient for au acre. oz., 10c.; ½ lb., 35c.; lb., §1.25. Chufas, or Earth Almonds—A species of "grass nul." much used to futten hogs. One peck of seed per acre. Pkt. 10c.; qt. 35c. By Express—Peck, \$1.50.

Wild Rice (Zarania Aquatic)—For fish ponds. Post-phid—Large packet, 10c.: 1/2 lb., for \$2.50.

Dwarf Essex Rape. This plant is extensively grown for sheep, and for green manure, for which purpose there is perhaps no plant better adapted where a quicos, Rank growth is desired. Farmers were proposed in the favorable condition can do if most cheaply by growing this rape. Prepare the ground as for turnips, and sow in June or July, with a turnip drill, in rows 2½ feet apart at the rate of 2½ lbs. of seed perfect. Is not used for hay, and when eaten down before it has made its full growth, will grow up again with more or less vigor. Our stock is trarty is sex DVARP, and not the worthless annual. Postpald—Oz. 10c., 710., 15c., 15c., 15c., 20c. By Freight or Express—10 lbs., \$1.00; 50 lbs., \$4.00; 100 lbs., \$5.00.

THE GREAT DRY WEATHER CRO?—This non-secharine cane isome of the best forage plants of late introduction and is said by many to be the salvation of the Kanasa and western stockman. It is the greatest grain producer of the cane family; the heads are large and contain numerous small, white seeds, that are greedfly eaten by all domestic antianisand of the text head to the cane family; the heads are large and contain numerous small, white seeds, that are greedfly eaten by all domestic antianisand of the text flour. Sewmat the rate of 5 to 7 pounds per acre and cultivated same as for corn; average yield about 50 bus, per acre. For hay sow in drills from 18 to 30 inches apart with the ordinary grain drill at the rate of 1 to 1½ bus, per acre. For hay sow in drills from 18 to 30 inches apart with the ordinary grain drill at the rate of 1 to 1½ bus, per acre. For hay sow in drills from 18 to 30 inches apart with the ordinary grain drill at the rate of 1 to 1½ bus, per acre. For hay sow in drills from 18 to 30 inches apart with the ordinary grain drill at the rate of 1 to 1½ bus, per acre. For hay sow in drills from 18 to 30 inches apart with the ordinary grain drill at the rate of 1 to 1½ bus, per acre. For hay sow in drills from 18 to 30 inches apart with the ordinary grain drill at the rate of 1 to 1½ bus, per acre. For hay sow in drills from 18 to 30 inches apart with the ordinary grain drill at the rate of 1 to 1½ bus, per acre. For hay sow in drills from 18 to 30 inches apart with the ordinary grain drill at the rate of 1 to 1½ bus, per acre.

Barley, New Beardless Success.

SUCCESS BARLEY, earliest known; straw about the height of common barley, but better, and will stand up on any land; with good land as eason has produced 80 bus, per acre. It will, if sown early, ripen 40 r 5 days before rye, and being beardless handles as easily as oats and makes a stronger feed. Frice, (postpaid—bb., 26c.; 3 bb., 60c. By Express or Freight—Peck, 40c.; bus., \$1.25.

J. W. WACMER, Lincoln Co., Ky. "Your Beardless Barley is one of the best things to grow in the way of small grain that has been produced for many years. Gives a great yield on good ground, much easier threshed than wheat, stands well, straw stiff and will not blow down. Very profitable. One acre is worth three of oats ion feed."

Early Soy Bean. The Soy Bean is coming right to the front as a sort of the South of the South of the South it is extendively grown only for feed for state. In some parts of the South it is extendively grown only for feed from the South of the South it is extendively grown only for feed from the South of the South of

Hairy Vetch. The most valuable of all the Vetches. It succeeds on all soils, and does not suffer from extremes of drought, heat or cold. Sown in Angust or September, it will cover the ground with a dense forage, which in the Southern States, will afford abundant pasture throughout the entire winter. In the Northern States it remains green all winter. In the Southern States, where Claver is winter-killed, the value of the Hairy Vetch is inestimable. Sown in spring, it quickly produces a most luxuriant crop. Sow 40 to 60 lbs., peacer. Postpaid—Pkt., 10c.; lb., 25c. By Expressor Freight—Bus. of 60 lbs., \$4.00.

SPRING VETCHES, OR TARES—A good forage plant; also used for plowing under. Sow 2 bushels to the acre, broadcast like wheat or barrier, Used in France and Canada as a substitute for peasy also ground into flour and mixed with wheat flour for making bread. Postpaid—Lb, 25c. By Express—ql sts, 50c.; peck, 80c.; bus, 53.00.

Mammoth Russian Sunflower. Grows to double mon Sunflower, and yield of seed twice as great. 125 bus, to the acre have been grown at less expense than com. Very highly recommended for ponitry; best egg-producing food known. Seed good feed for horses. By Mail (Postpaid-Da., Be.; % Ib., 15c.; Ib., 25c. By Express or Freight—10 lbs., \$1.00: 25 lbs., \$2.00: 100 lbs., \$6.00.

Broom Corn.

IMPROVED EVERGREEN—Best variety for general cultivation, on brush; ripens very early, grows about 8 to 10 feet high, brush of good length, fine and straight, and always of green appearance when ripe. Each of the control of the contro

Winter and Spring Wheat, Rye and Barley.

Buckwheat. Should be sown about the middle of June, broadcast, using from 1 to 3 pecks of seed to the acre. NEW JAPANESE—This new sort has proven to be much earlier and more productive than any other variety. Grains very large and of a rich brown color. It excels all in yield and earlines. Postpaid—Lb., 25c.; 3 lbs., 60c. By Express or Freight—Peck, 40c.; bus., \$1.25.

SILVER HULL—A very good and popular variety. The grain is of a light gray color, is rounder than the common variety, has a much thinner hull; matures earlier, and yields a half more to the acre. Postpaid—Lb., 25c; 3 lbs., 60c. By Express or Freight—Peck, 40c; bus., \$1.25.

Field Peas. CANADA FIELD PEAS.—Valuable for Northern climates for cattle feeding, and when sown with pigeons, etc., and for green solling. Postpaid—Quart, 30c. By Express or Freight—Peck, 40c.; bus, \$1.55.

Cow or Southern Peas there is no surer or cheaper means of improving and increasing the productiveness of our soils than by sowing the Cow Pea. It makes an enormous growth, enabling the famet to put plenty of nitrogenous vegetable matter into the soil at a small cost, and so very largely enables him to dispense with the use of nitrogenous commercial fertilizers, and has the power to extract this costly nitrogen from the atmosphere and to store the same in the vines and roots to that if the crop is cut off, the land is still enriched and its condition improved. From 5 to 9 tons of green fodder per acre have been produced by the Cow Peas. To grow for hay they are most valuable. The bacon made from hogs fed on the dry peas is much sweeter and more solid, and the enslage they are unsurpassed. When it is desired to turn the whole crop under as a soil improver, it is better to do so after the vines are partly dead. A good picking of the dried peas can be made before ploying under, Cow Peas can be sown in May or June, at the rate of 1 to 1½ bus, per acre.

BLACK—Oulck to mature: well adauted for late blanting and Northern

BLACK—Quick to mature; well adapted for late planting and Northern sections; a vigorous grower and great yielder. Peck, 50c.

WHIPPOORWILL—An early bunch growing variety; a great favorite in the North and West; quite prolific. Peck, 50c.

BLACK-EYE—A prolific vine-growing variety of merit; seed often sold for table use. Peck, 50c.

Market price on Cow Peas changes often. Write for prices on bushel or over when ready to buy.

per pound.

SPANISH PEANUT—Earliest Variety Grown—Pods small, remarkably solid, well filled, and the yield per acro very large; best variety to grow for fattening hogs. Postpaid—Large package, 100; ½ lb., 20c; b., 35c; 3 lbs., \$1.00. By Express—1 lbs., 50c; 10 lbs. or over, 10c. per pound.

Tree Seeds, 08AGF ORANGE—The best of all hedge control of the cont

RUSSIAN MULBERRY—Planted for silk culture; easily grown; hardy; fine hedges; fruit quite palatable. Tree makes fence posts in five years, and fine lumber. Pkt., 10c;, oz., 20c.; ½ lb., 60c.; lb., 2.00. PRICES ON OTHER TREE SEEDS GIVEN ON APPLICATION.

Prices on Larger Quantities of Any of the Above Seeds Given Upon Application.

Awaless Brome Grass (Bromus directle)—Will stand long droughts and profiles heavy eropes in dry sections where other grasses would perish. It has also proved one of the bardlest grasses. Succeeds in a wider range of temperature than any other grass. (Bus. 14 lbs.).

Hungarian (Grass)—A very valuable forage plant of the Millet family, but not so coarse. Sown and cultivated same as Millet, and quite a favorite with

Western Grown Millet.....

LIVINGSTON'S LAWN SEED PURPOSES.

If sown at the right time, on properly prepared soil and in proper quantity will produce a thing of beauty,

If sown at the right time, on properly prepared soil at the relation between soil, situation and climate on the one side, and to the relation between soil, situation and climate on the one side, and to the relation between soil, situation and climate on the one side, and peculiar habitat, the whole subject resolves itself into two questions. First what varieties are suitable for lawns and at the same time, adapted to the condition and situation. Second soil and climate. Each of which every one will have to solve in part for himself, our mission being to point the way and offer suggestions, yours to execute. In making a new lawn, the soil should be carefully sellevel and well colled, after which a light raking will prepare it properly for the reception of the seed. The soil should be good but not too rich, as the grass is apt to grow over rank in such soil. The ground may be prepared as sarry in the spring as it is possible to work the same, or, what would be better, prepare in the fall and the seed sown in the spring as are a narre with daws seed. Strong growing plants use up the fertility and moisture from the spring as the spring as the spring as its possible to work the same, or, what would be better, prepare in the fall and the seed sown in the spring as a narre with daws seed. Strong growing plants use up the fertility and moisture. When the grass is ready for its first cutting, give the lawn a good rolling two or three days ahead, choosing damp weather, or the cool of the ground until the lawn is well established, about once a week in favorable growing weather is offen enough, but not so often in dry weather.

in the early spring after the frost comes out of the ground and before it

settles or becomes hard with spring rains.

Remember, it is essential to dig the soil deep, prepare thoroughly, sow high grade seed liberally at the right time, and not less than four

bushels per acre.

Sowing the acce.

Old Lawns are greatly benefitted if given a thorough raking as early in the spring as the weather will permit, and then some fresh grass seed sprinkled on, which will renew the thin places and spots that have been killed out by the weeds and other causes. The unsatisfactory condition of many of our lawns is often due neither to climate nor neglect, but to the mistake of sowing unsuitable grasses on imperfectly prepared soil. Time to Sow. Lawn seed can be sown at almost any time from early spring to late in the fall, but the best time is very early in the spring, or again in September and October, depending somewhat on the condition of the season at time of sowing.

Of the season at time of sowing. On the condition of the season at time of sowing are the condition of the season at time of sowing. The condition of the lawns of the condition of the season at time of sowing and the condition of the lawns of of the law the slope perfectly even and smooth, water it well, then apply the paste in a thin, even coat.

Fertilizers of some good kind should be used every spring at the rate of 400 to 600 lbs. per acre.

Livingston's Capital Lawn Seed Mixture. A Pound of Our Mixture will Sow About 500 Square Feet.

We have made the subject of Lawns a study for many years and this mixture has been prepared and sold by us in all parts of the country, giving general satisfaction. In making a lawn great care should be taken to use only the very best quality of suitable lawn seed so as to produce a SOFT, VELVETY, EVERGEEN SOO.

Our Mixture weighs about 20 pounds to the measured bushel and is not surpassed by any on the market.

Quantity of Seed Required to Sow an Acre (43.560 sq. ft.) For new lawns, not less than four bushels; for renovating old lawns, from one to two bushels.

PRICE:—FIRST QUALITY, per lb., 25c.; 5 lbs., \$1.00; 1 bus., \$3.50; 2 bus., \$6.50; 5 bus., \$15.00. If to go by mail, add to the above prices 10c, per pound for postage.

SECOND QUALITY, per lb., 20c.; 3 lbs., 50c.; 1 bus., \$3.00; 2 bus., 5.50; 5 bus., \$12.00.

Livingston's Lawn Seed Mixture can be had with or without White as customers prefer.

Our Lawn Grass M:xture for Shady Situations.
On nearly all lawns there are shaded bare and unsightly spots on which the owners have difficulty in getting a stand of grass; for such places this mixture is adapted. Should the ground have become "sour," or the drainage defective, it is apt to be covered with moss. If such is the case apply some lime or land plaster to sweeten it, after first removing the moss, then rake thoroughly and sow the seed at the rate of not less than 4 bushels per acre. Frice—Lb., 40c.; 5 lbs., \$1.76; bus. \$6.00. If to go by mail, add to above price 10c. per lb. for postage.

Our Grass Mixture for Tennis Lawns, etc.

A mixture composed of low-growing, hardy grasses suitable for grounds of this character. Price—Lb., 40c; 5 lbs., \$1.75; bus., \$6.50. If to go by mail, add to the above price 10c. per pound for postage.

Mixed Grasses for Meadows and Permanent Pasture.

Under this head we are prepared to furnish seeds adapted to all soils and all situations and all purposes, composed of grasses for light soils, and all situations and all purposes, composed of grasses for light soils, for medium soils and for heavy soils; by light soils we mean that which loams; while the medium is an intermediate between these two. A light, wet soil, with respect to the grasses suited to it, may be considered same as to the heavy soils, and a dry, heavy soil more as the light soils. Write us for what you want, giving nature of soil, number of acres, etc., we will, with pleasure, give your estimates and terms. Write for Special Prices on Large Quantities before you buy in fall or spring,

Kentucky Blue Grass.

Many prefer plain Blue Grass to a mixture, and it cannot be denied that it produces a beautiful and lasting lawn. It takes longer, however, to get it established. Price—Fancy clean seed—Lb., 30c., 3 lbs., 60c.; bus., 14 lbs., \$2.00. If to go by mail, add to the above price, 10c. per pound for postage.

Lawn Fertilizer.

Old and New Lawns require Stimulating after the long drag through winter, or in the fall after the season of ctuting and the heat of summer. For this purpose we furnish a superiorgrade of bone meal which we have found, after years of experience and tests, to be the best adapted to the wants of the lawn. It should be sown broadcast, from the middle of February to first of May for spring and from September to November in the fall, at rate of 400 to 600 pounds per acre, according to the control of the fall o

"Grass Talk" A 32 page pamphlet treating on Grasses, Clo-for a lawn, free to customers. 20 cents to others.

Seed Corn

The varieties of Field Coru we offer are the best in general use. They were grown especially for see purposes, and are all well matured, cured, and shelled with great care. We test all varieties before sending out, that there may be no donbt as to vitality if properly planted and the conditions are arounble. To AVOID DELAY when oriering LATE in the season, it would be well to mention your second choice or state whether we shull send a sort adapted to your locality or refund the money, provided we are sold out of your first choice at the time your order arrives.

It only costs about 20 cents an acre to use our Carefully Selected and Tested Seed Cern. Is it wise to risk doubtful corn from the crib?

Of any of the following varieties of Field Corn, by Mail, postpaid-Price Sample ear, 25c.; large packet, 5c.; quart, 30c. By Express or Freight, (at buyer's expense)—6 Select Ears, 25c.; quart, 15c.; peck, 40c.; bus., \$1.25; 5 bus., \$5.00; 10 bus., \$9.00. Sacks Free.

New White Cob Early Dawn. This is a new White Dent Corn of great merit, white kernels are bright and glossy; small white cob; stalks often bear two good ears; grains grow weil over this of cobs; matures in 90 to 100 days. A good yielder, adapted to all corn growing localities, and gives universal satisfaction; excellent for any soil and gives better yield on clay land than any of the yellow kinds. Unsurpassed for corn meal and flour of a high grade.

PRIDE OF THE NORTH—The Very Earliest Yellow Dent Corn in cultivation; and can be successfully grown further North than any other Dent. Originated in extreme Northern Iowa. Ripens readily in New England. Matures perfectly in 90 days; very hardy and prolifie; ears of uniform size, cob small, kernels closely set ou the cob, and are long and compact.

True Yellow Clarage. Best Second Early, Sure to Ripen. It has been errorn exten-between the Pride of the North and Leaning. The car is nearly as large as the Leaning, very uniform its entire length, and well filled out at both ends; insks very easily, of rich golden color and very produc-tive. In favorable seasons it has tipened here when planted as late as the first of July. Highly recom-neighed by the Ollio Experiment Station as one of the best in points of early maturity, productiveness and feeding qualities.

Mammoth White Dent. A large eared variety, combining all the good points required in corn growing sections. It has a broad, very deep, pure white kernel and cob—in fact a stray red cob will hardly be found in a thousand bushels; grades "strictly white" in any market, it is very desirable for white corn ment, and those desiring a large white corn cannot fail to be pleased tinues to grow in favor annually. We pronounce it the best large white dent of which we have any knowledge.

TRUE YELLOW LEAMING—An extensively grown large Yellow Dent variety. Has pure glossy yellow ears growing low on a strong, heavy stalk; grains square and deep; ripens quite carly, frequently maturing in 100 days from planting: will yield, on good sol, with proper tillage and a lavorable season, from 75 to 100 bankels per acre.

WHITE CAP YELLOW DENT-Suitable for all soils, grows large ears and matures early. It grows strong, rank and thick, and, it is claimed, will produce more corn on poor, thin soil, than any kind now in cultivation. Tip end of the grains are white, hadde yellow, making it a beautiful color.

Pop Corn. WHITE RICE—The best variety for popping purposes, grains polited, pops white and full, is very poids, 2 Nice Sample Ears. 10c; pkt., 5c; ½ lb., 15c; lb., 25c; 3 lbs., 60c. lby Express, (not paid), 10 lbs., for Yoc; 4 olbs., for \$2c\$; 3 lbs., 60c.

If a Larger Quantity of any of These Corns is Desired Write us for Lowest Prices and Freight Rates.

Fodder and Ensilage Corns

By Express or Freight at Buyer's Expense.

EVERGREEN SUGAR—There is nothing better for early fall green facels or for enting for water than Sweet form. It has the great ment of being sweet and platable that earlie eat every part of the suffix and leaves, and consequently none is wasted. A favorite with dairy farmers. Also excelent for soiling, can be planted as other corn or sown thickly in drills or broadenet. Feek, 56c; ½ bus., 75c; bus., \$1.50, 2½ bus., \$3.00; 2 bags, \$5.00, 4 bags, \$10,00.

RED COB ENSILAGE—A Southern type of large, white corn, with red cob, strong, lenty stalks and short joints; a general favorite. Peck, 35c.; bus, \$4.70; 2 bus., \$2.00; 5 bus., \$4.75; 10 bus., \$9.00.

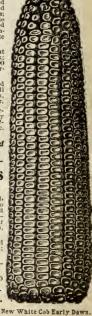

LEAMING CORN-Highly recommended by Gregory and other good authorities as being the most valuable for the silo of all large varieties.

Leaming for Silo-Bus. \$1.10; 21/2 bus. sack. \$2.60; 5 bus., \$5.00; 10 bus. for \$0.00. Sacks Free.

Mammoth White Dent.

Superior Seed Potatoes.

It Pays to Change Seed Every Year.

The necessity for changing Potato Seed often is universally admitted by all well posted growers, but too seldom practiced, especially when all well posted growers, but too seldom practiced, especially when so that the property of the growers and at 25c, to 46c, per bushel additional cost, the whole outley would be \$2.00 to \$4.00, with an increase in the crop of at least 25 percent. By using our NORTHERN GROWN SEED you are assured of EARLY MATURITY, INCREASED YIELD and A VIGGROUS GROWTH. Our northern growers are Potato specialists, and have grown for us for years, and the growth and extent of our potato trade is the result mostly of the growers' painstaking care and general knowledge. To grow healthy stock, they use first-class potato land, nothing but pure, well matured good sized seed, treating the seed and spraying the foliage when necessary. Fighting bugs and blight from start to mish, because potatoes if tor seed cannot be produced from unhealthy in injured oliage. The potatoes are very carefully handled when digging and barreling, that they may not be bruised or otherwise injured.

Early Orders. Everything points in the direction of POTATOES the coming season, and, while we have a good stock in store at present, we would advise customers to send in orders EARLY.

Please give plain Shipping Directions.

Any purchaser of a Barrel or more Potatoes at prices quoted, may order any ONE of the following articles, and it will be sent with Potatoes FREE OF CHARGE.

I. A CONCAVE POTATO KNIFE.

2. A PACKET OF HYBRIDIZED POTATO SEED. (See page 63.)

3. HALF-PECK OF SOME CHOICE NEW POTATO, our selection, but the customer may suggest whether an early or late variety is preferred.

Dur Prices. The following prices are about what we think will rule for 600D, STRAGERT, UNMIXED STOCK for the coming season's write use (it costs but a trille), stating what you want, and we will bid for your order. YOU MAT SAVE DOLLARS, for we are usually in a position to meet, and frequently do better than other firms, when we are given an opportunity. We do not care to compete with irresponsible houses who hardly know one potato from another.

Buyers of Large Quantities are requested to write us stating what they desire, and we will make prices that will result in trade.

SPECIAL INSTRUCTIONS.

We will book orders at the following prices as long as our present stock lasts, filling orders just as soon as the weather in our judgment, will permit. However, we cannot become responsible for changes in weather by which they might be damaged while en route. We ship at any time when requested to do so, regardless of weather, if customers wish to take their own risk. When customers request two packs above to the kinds without extra charge. WIEB ORDERING the provided we cannot supply the sort ordered.

other kind of equal value, provided we cannot supply the sort ordered.

POTATOES BY EXPRESS OR FREIGHT, at barrel, bushel, peck and half-peck prices. Buyer pays the freight or express charges. Our Barrels contain two and three-fourths (2%) bushels, good measure.

All Transportation Charges must be paid by Buyer. No Potatoes sent C. O. D.

Potatoes by Mail, Postpaid. Prices for small quantities of ties, unless otherwise quoted—1 lb., 25c.; 3 lbs., 60c. THREE DOZEN EYES FOR 25 CENTS, POSTPAID.

Livingston's

Extra

Early Ohio

Potatoes.

·Most Profitable for Early Market

Some early kinds will give edible potatoes about as early, but their tops will be green for days after the Early Rose, and is a special favorite with farmers and marketmen, and the most profitable potato they can possibly grow. The sprouts are very strong, the vines grow erect, and are easy to cultivate; maturing early, brings the highest prices, and the land can be used for other crops; does well on any soil suitable for potatoes. The tubers grow compact in the hill, are easily dug, very few small ones—nearly every one marketable size; few eyes, which are even with the surface. They keep firm until late in the spring. With heavy manuring, close plantling (they can be planted almost a half closer than most other kinds on account of their upright growing tops), and good culture, a very large and profitable yield can be expected—300 to 500 bushels per acre is not an unusual yield. This is our specialty in standard early varieties, and we have for years taken great pains to keep the stock pure and up to its original standard, but we are confident that many do not know a true Early Ohio, and have grown some other sort for it, having been deceived in the purchase of the seed. We know ours are right, because the stock is the product of original headquarters seed.

We offer Choice Hand Sorted Stock at the following very reasonable prices: MICHIGAN OR MINNESOTA GROWN STOCK—Half-peck, 25c.; peck, 40c.; bus., \$1.50; bbl., \$3.75; 5 bbls., \$16.00; 10 bbls., \$30.00.

Special Prices for Larger Quantities on Application. Car Lots furnished if desired.

Livingston's Banner Potato.

Introduced by us in 1891.

The Banner is a seedling, and is the finest Main Crop White Potato on the market, and probably no variety ever introduced has made as good a record in so short a time with all classes of growers on all kinds of soil. None surpass it in UNIFORM HAND-SOME APPEARANCE. Its slight russety skin is of a light cream white color. Its Shape is a little oblong and slightly flattened (cooking through easily). The Eyes are very shallow. The Size is Large and desirable, very few under market size. Always smooth and regular in form: strong and vigorous from the very sprout.

A Great Drought Resister. As near blight and scab proof as any. The Flesh is very white, and whether boiled or baked has the same fine table qualities, always dry and floury. Season medium late.

W. H. CLOSON, Port Union, Ont. "Enclosed find drawing of a Banner Potato weighing 2 lbs. 10 ozs., grown from eyes sent me just spring."

W. H. RUSSELL, Pine Co., Minn., sent us last October 8 Potatoes weighing 16 lbs. 2 ozs., all fine, smooth specimens. reigning 10 105. 2025, 311 line, smooth speciments.

HOMER MILLS, Noble Co., Ind. "We succeeded admirably last year

fith Livingston's Banner; have as fine potatoes as I ever saw."

JAMES E. HALL, Miami Co., Ohio. "I never saw such nice, smooth
otatoes, and as free from prongs, as the Banner. I think it No. 1."

FRANKLIN G. MYERS, Bucks Co., Pa. "The Banner Potatoes I got of you last spring turned out exceedingly well.

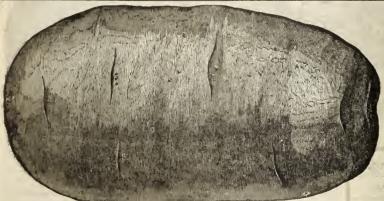

Choice Sorted Michigan Grown Stock-1/2 pk., 25c.; peck, 40c.; bus., \$1.25; bbl., \$3 25; 5 bbl. \$15.00. SPECIAL PRICE for 10 bbl. or over.

S. EDSON, Oceana Co., Mich. "Banner took First Premium at our air. They are the handsomest and the best yielders I ever raised." R. B. NOBLE, Lafayette Co., Mo. "I raised 107 bushels of Banner Potatoes from a barrel ordered of you last spring."

GEO. GEIER, Spekane Co., Wash. "I had 12 varieties of potatoes planted last year. The Banner is the best of them all."

JOHN L. WILSON, Webster Co., Utah. "From one bushel of Living-ston's Banner, last season, I raised 40 bushels of fine potatoes."

H. E. PIERCE, Madison Co., Ind. "Your Banner Potato is a 'Daisy sure, the best of five kinds planted; out-yielded anything on the place."

The Livingston Potato. Introduced by us in 1896 as a "White Seneca Beauty." It is indeed a beauty of ideal form with handsome white skin and distinct peach blow eyes, which are few and very shallow. It is a robust grower, very productive, and its cooking qualities are superb. Choice Sorted Michigan Grown, Stock—½ peck, 25c.; peck, 40c.; bus., \$1.25; bbl., \$3.25; 5 bbl., \$15.00. SPECIAL PRICE on 10 bbl. or over.

GEO. W. MACE, Darke Co., Ohio, writes: "This is a very distinct variety. With me it stood at the head in yield of 36 varieties grown in field eulture.

DR. TINKER, Tuscarawas Co., O. "The Livingston Potato" got of you 3 years ago proved most valuable. Of 50 or more varieties, the only one that DID NOT BLIGHT in 1898; stands drouth also the best."

Seneca

Introduced by us in 1889. - This grand good med-ium late potato was first offered by

us 12 years ago, and too much has never been said in its praise. Its beautiful and distinct appearance sells it in any market, and its fine table qualities please all classes of customers. The tubers are large and smooth, with few eyes close to the surface and of a beautiful pink color; uniform in size and shape, scarcely any small ones. Vines rank and healthy, and loaded with beautiful blossoms. Good keeper and heavy cropper. One point in its favor, which every grower will appreciate, is its distinct appearance in shape and color, on which account it can be kept pure, and easily sorted out, even if mixed with a dozen other kinds. Northern grown seed—Half peck, 25c.; peck, 40c.; bus., \$1.25; bbl., \$3.25; 3 bbls., \$9.00; 5 bbls., \$1400.

Hybridized Potato Seed.

We offer a very choice strain of Potato Seed, the product of numerrotato seed, the product of flumersous hybridizations between many of the best new and old varieties in cultivation. A dollar invested in this choice seed may make \$100 in two or three years. The grower is sure, of several rare and valuable

Potato Ball Seed.

sure of several rare and valuable seedings that any specialist will be rominising Seedings grown from seed purchased of us.

Frice—Paeket, 20c.; o pkts., \$1.00. Full directions for planting, cultivation, etc., on each packet.

Every Farmer Boy Ought to "try his hand" with one or more packets of Potato Seed, and his father should get him the seed, give him the ground, and plenty of time to cultivate and observe developments. The result is interesting, and often very profitable

S. W. McC., Duval Co., Florida. "Your potato seed have done very well. I hope to grow some that will keep in the

500.0. FRAYER, Greenwich, Olio,—"Package of Petalo Seed more than answered my expectations. I raised 48 miles, yielding from 2 to 7 miles of 48 miles of 48 miles, b, until frost. Largest found potato measured 2 (424) ms.; longest 4½ ins.; heaviest weighed 4 ozs., and the heaviest hill 10 ozs.

Grown Seed Sweet Potatoes.

Carefully dug, handled, packed and stored over winter for us, expressly for sprouting purposes. We have been bedding and selling this stock for about 30 years and find the potatoes much dryer and sweeter than those grown from Ohio or WESTERN GROWN SEED. than those grown from Onlo of WESTERN GROWN SEED.

We repack before shipping, but we wish It distinctwe deliver in good condition to Express or Railroad
Company here. We book orders any time but do not
ship until about planting time. OUR BARREIS CONTAIN THERE BUSHEIS, GOOM BEASURE,

Best to be obtained.

This Favorite Flower is one of our Specialties.

The following varieties and mixtures are secured from special Pansy Grow-ers in the United States England, Germany, France and elsewhere, regardless of cost. We do not hesitate to recommend them with the greatest of confidence to florists having the

dence to florists having the most critical trade. These charming favorites are very much improved in color, size and shape, and no flower is more pop-ular with florists and ama-teurs, giving an abandance of bloom until after severe frosts, enduring our hard winters with safety, and greeting us in the carliest

spring and autium. Pansy seed may be sown in the hot-bed or open ground; if sown in the spring, get in as early as possible, so as to have the plants in bloom due ing the early rains; they are easily transplanted. Seed sown in a cool place in June or July, and watered until up, will produce fall flowering plants; if sown in October they will flower in early spring. To have good flowers the plants should be vigorous and make a rapid growth. Young plants give the largest flowers.

Giant Trimardeau Pansies.

Flowers of enormous size. An altogether distinct and beautiful new race, the flowers of which are larger than any hitherto produced. Each flower is marked with three large blotches or spots, and the plants are of compact growth and produce an endless variety of beautiful shades.

JOHN MOCK, 1217 South High St., Columbus, Ohio, had a Caladium leaf measuring 10 ft. and 10 ins. in circumference. WM. McCann, this city, reports a leaf 49 inches long. I. Siebert, Neil and 10th aves., had a leaf over 4 feet long.

Cinnamon Vine.

innamon Vine.

This beautiful and rapid climber possesses the rare quality of emitting from its lovely white flowers the delightful odor of cinnamon. They are perfectly hardy, dying down every autumn but growing again in the spring so rapidly as to cover a trellis or arbor very early in the season. Vines run 25 feet or more, and when trained over and about a door or window make an ornament much admired. It is easy to cullivate, has no insect nemmes, and is not affected by drouth, heeanse it roots so deeply. The tubers are called "Chinese Yame"; they increase in size from year to year, and are often 2 lect long at two or three years of age. We have grown this vine for many years, and sent out thousands to every section of the country, and the vended "Bodos" of the delight of the country, and the vended "Bodos" of the delight of the country, and the vended "Bodos" of the season of the country, and the vended "Bodos" of the season of the season

Madame Crozy Canna.

annas of the most beautiful of all foliage

The Canna is one of the most beau-

It has long been a great favorite, but since the introduction of the new French varieties their value has been greatly increased by adding to the already attractive foliage, large flowers of the most brilliant colors, and now these are the leading foliage flowers of the most brilliant colors, and now these are the leading foliage plants known to florists, the foliage differing in the different varieties from a production of the state of the st

Strictly Hardy.

Strictly Hardy.

One of the grandest of our flowering shrubs, and absolutely hardy in all sections of the country.
Easy to grow. Flowers in immense panicles, white at first, gradually in the strict of the strict

Lilacs. This well known and fragrant flower needs no description. They grow freely and bloom profusely, even in poor soil. Alba—Pure White; very fragrant.
Rubra—The well known purple.
Price of Each—2 year plants,
15c.; two for 25c., postpaid.

Hydrangea Paniculata Grandiflora.

New Dahlia, "Storm King,"

Dahlias

The Dania is one of the snowlest of an attumn neers. Commencing to flower in July, they are a perfect blaze of bloom until stopped by frost. Especially find for cut flowers. We know of nothing more showy fer table decoration than a loosely arranged bouquet of long-stemmed Cactus or Single Dahlias.

long-stemmed Cactus or Single Dahlias.

CULTURE. While it is one of the easiest of all flower to cultivate, it by no means follows that it needs no astenion. In fact, no flower will give such a generous psenous to group the stem of the soil during the early growth of the plant is indispensable; but later in the season frequent surface cultivation only should be given. Plant in an open sunny situation, at least where the sun reaches them the greater portion of the day. It is a rank feeder and should have well enriched soil and kept free from grass and weeds. Cultivation that the state of the ground is the state of the ground in the state of the ground is given the surface of the ground, laying the bulb on its side. Varieties growing 3 feet or more in height should be tied to stakes to prevent falling. Plant about the first of May in this latitude, or when the ground has become warm.

Winter Protection—As soon as the frost has killed the foliage, the water the state of the ground is the state of the ground that the foliage the water the state of the ground is the state of the ground that the foliage the water the ground the ground that the foliage the ground the ground that the foliage the ground the ground that the foliage the ground that the ground the ground that the foliage the ground that the ground the ground that t

Winter Protection.—As soon as the frost has killed the foliage, the roots should be carefully taken from the ground and the soil shaken from among them; they may be stored away in a cool place, not too dry, but secure from frost.

Dahlias are divided into six general classes, and the following rules apply only ingeneral: Cactus—The long, narrow petaled varieties, the petals generally pointed or twisted. Decorative—Iroad, flat petals, formerly classed with Cactus, Fancy—Variegated, Fompone—The small, round bahlins; plants generally dwarf and bushy. Show—Large, well formed flowers, showing solid colors, but may have shaded tips.

Abbreviations.—C., Cactus; D., Decorative; F., Faney; P., Pompone; S., Show. The tters following the names indicate to which class the variety belongs. Filling to frees.—We send dormant roots as weather will permit, up to about April. After our roots are exhausted we send good pot-grown plants.

PRICES ON ALL DARLIAS ARE POSTFAID, URLESS OTHERWISE QUOTED.

Clifford W. Bruton.

The finest yellow Decorative Cactus Dahlia yet produced. Flowers very large, perfectly full; in color a solid pure yellow, very clear and rich, with no green center, borne on very long, graceful stems, and hence of great value for cutting. Robust grower and exceedingly profuse bloomer.

Admiral Dewey.

(D) A raluable new variety, with large flowers of beau-tiful rich pure purple. Bound to become as popular as the name it bears.

(D) Very large and perfect form; color a beautiful rich

Matchless.

(C) A superb variety and a great prize winner. Large, handsome flowers of fine form, perfectly full and rich, soft maroon, exceedingly showy.

Floral Park Jewel.

(F) Flowers of many colors, from deep maroon to blush white, also beautifully spotted and variegated forms, all produced on the same plant.

Nymphæa.

(C) An American Dahlia of the greatest merit; as a cut flower unexcelled in Dahlias; large and graceful; robust grower. A novel, clear delicate pink, not unlike a water-lily in form and color; a mass of bloom from June until frost. If you buy but one Dollida, lack this.

"New Perle" Dahlia.

The finest white Cactus yet introduced: a perfect gem, might be called a white Nymphæa; one of the finest for cut flowers.

"Daybreak" Dahlia.

A pleasing soft plnk, like "daybreak" Carnation. Best dwarf by all odds we saw last season, loaded with flowers.

Storm King. A GRAND NEW DAHLIA. This new snow-white dahlia is extremely early, a vigorous grower of dwarf profuse and constant bloomer, as troug vigorous grower of dwarf profuse and constant bloomer, as trough on long stoms. It combines all the good qualities of the nower of the combines all the good qualities of the nower of twice as many flowers with longer stems. The flowers are snow white, of perfect form, and full to the center. As a cut-flower variety, it is the florists' ideal, while forgrouping or as a specimen plant it is far altend of any other white show dahlia.

'St. George" Dahlia.

The grandest single Dahlia ever introduced; flowers a pure clear yellow, 3 to 4 inches in diameter, and borne on long stems. A prize winner at all shows.

Price for Above 15c. Each; 3 for 40c.; \$1.50 Doz., Postpaid.

20th Century Collection of Dahlias.

PLANET JR. TOOLS FOR 1901.

Space will not permit showing and describing here all of the Planer Js. Tools, but we will send a beautifully illustrated catalogue FREE to any who desire it. Planer Js. goods are standard machines—different from all others. Improvements have been made for 1901.

Planet Jr. No. 3 Seeder. Planting in rows and thinning afterward is a terrible time-waste. The No. 3 Seeder puts the seed right on the spot where the hill is wanted. Plants 4, 6, 12 or 24 inches apart, or in a continuous row, as desired. Changed in a moment, Holds 3 quarts. Price, \$10.00.

Planet Jr. No. 4 Combined Drill and Single Wheel Hoe.

The Drill'is the same style as No. 3 Seeder, but smaller. By moving only one bott the drill is taken off and the tool frame attached, making it one of the best of the Planet Jr. Single Wheel Hoes. This givesyou the "whole business" in one tool. Prices, \$11.00.

Planet Jr. No. 2 Seed Drill. Its beauty is its regular work and extreme simplicity—uo agitators, no belts, no gearing. Sows seed at a uniform depth in a very narrow line, making easy and rapid work for the Wheel Hoe in cultivating. \$7.50.

Planet Jr. Double Wheel Hoe. Surver. It will do a variety of work that is almost incredible, and it is changed and adjusted with marvelous ease and quickness. The wheel can be set to four different with the survey of the surve

No. 11 WHEEL HOE, with 8 pairs of tools as shown in cut. \$8.50.
No. 12, with Plows, Hoes, wide and narrow Cultivator Teeth and Leaf
Lifters. \$6.50.

No. 13, with Hoes only, \$4.50.

The Market Gardener withon PLANET JR. TOOLS has about the same chance of success as a weaver without power looms, or a success without the telegraph. Hand tools, one-horse tools, two-horse tools, two-horse tools, and the success of the latest catalogue-1901.

No. 15 SINGLE WHEEL HOE.

A light, Inexpensive and extremely efficient tool. Frame and handles are adjustable, and wheel can be changed to the other side of the frame, when both sides of the row can be hoed at one passage.

No. 15, with 12 Tools, as shown in cut, \$6.50
No. 16, with Plow, two Hoes, three Cultivator Teeth, two Rakes and Leaf Lifter, \$5.50.

No. 17, with Plow, two Hoes, and three Cultivator Teeth, \$4.75.
No. 18, with Hoes only, \$3.25.

A working hand-book of every day practice for all who grow flowering and ornamental plants in the garden and greenhouse: Strongly bound to stand rough handling. By G. W. OLIVER. Price, \$1.00.

Livingston's New Early Dawn Pole Lima Bean.

Four years ago Dr. Eillow, an enthusiastic amateur gardener, and customer of ours, at New Carlisle, Ohio, sent us some samples of a new Extra Early Pole Lima Bean, which he had discovered, as a sport in a patch of Large White Limas. We were at first inclined to doubt his claims as to its earliness and prolificacy. After growing it each year since we have found it to be not only extra early but fully two weeks earlier than any other Pole Lima, and almost as large as the largest, and we have decided that it is a very desirable acquisition and take pride in offering this bean this season for the first time. As there is no crop which pays better than a patch of Lima Bears, coming in first of the season, we therefore advise you to plant our Early Dawn Lima largely this season as we are sure that it will be a money maker. It has these valuable characteristics:

First; It is two weeks ahead of all other Pole Limas.

Second; It is practically the same size as the Large White Lima. often found in a cluster.

Third; It is astonishingly prolific, as many as five or six pods are

PRICE-Pkt., 20c.; 3 for 50c.; 7 for \$1.00; Postpaid.

IRIE STATE INCUBATORS and BROODERS.

We are agents for Prairle State Machines and we carry a full line in stock and can fill your order on short notice as this is un-questionably one of the best machines on the market to-day.

questioning one of the best matchines on the market to-day.

The constraint of the matchine of matchines we sell. The customer can now purchase a machine of any size for the least possible money they can be constructed for agencies or discounts from the net prices, we trust our friends will not write us for agencies or discounts from the net prices, so gives a placed within the reach of all, according to the size of machines. Kindly note price list and weights of all sizes and styles of Incubators, also Brooders. Make which shall receive our prompt attention.

Cash to accompany order. In remitting, send certified check, Bank Draft, Express Money Order, or Post-Oillee Money Order, or Post-Oillee Money Order, as to the constraint of the size of the size

All Orders should be Sent Direct to us.

Notice. For more complete descriptions send as 8 cents in postage stamps for which we will mail you a beautiful illustrated catalogue showing machine in operation.
